BRENT CRAMER — This seems to have taken a long time, but finally it seems it is time to get the heck out of here. High school hasn't been without its good times. Car-wise especially. I've gone from Brown to grey to black. Tim has gone from green to charcoal. Tom has gone from white to red. Bob has gone from orange to charcoal, that reminds me, next time we have a Baby Night, we'll take Bob's car! Oh yea! Tim, I need to get you a good toothbrush. Tim we are going to have to find another party close to a slide. Remember, everything is "ok" as long as it gets you what you want, and "I'd rather die than lose." I feel sorry for Shane, he has to go for another year of this stuff. Tim you are a lucky dude because you are the only other person in my school to drive the Olds. I just wish that I didn't jump off the fence and almost bust my ankle. It was fun, I suppose it was a good thing that Tom had brought a blanket that night. Tim, things to remember: Shopping carts upstairs, being stranded up in the K-Mart stockroom trying to get wrapping paper, singing "You talk too much," switching girl friends, dancing at ADAMANT and Human league, lowered Pintos and well, I'll promise to forget about Shannon if you promise to forget about Laurie. Bob have fun at Davis. Shane, Bob UR great!

OTTO RIECK — 4 years, so much has happened. So many things I'll carry 4-evr. My name is know by most, but I'm not terribly popular. I didn't make the type of friends here that I do things with all the time. But I belngd to 3 real grps. First was H20 polo and from it I'll always carry a picture of Doug Ely in my mind. Second, although I wasn't really good friends with them all, Wrstlng will stay with me because I learned responsibility and the tolerance of pain. Most importantly, I will rembr Humanities and the 4 yrs with that grp., Mr. Gunderson's teachings, will always be there but most deeply I will know each one closely. I will miss everyone of them as I would a family member because that's what we are. I pray that we'll all be able to meet again one day and sit back and recall the work and the fun, the happy and the sad times. I'm not embarassed in the least to say that these people helped me change from an insecure naive little boy into a well versed young man! To Robert, Vicken and Chris, you were the best three friends I had here and that I will never forget. One day when I win the Nobel Prize or become whatever I decide to be call I'll be in the book. I'll never forget!

Reaching New Goals

Mental Health Day was a great success. Premiering on March 5, a wide variety of speakers on various health subjects presented personal and touching experiences they have lived through. The 33 topics range was extensive with such categories as suicide, stress, alcoholism, overeating, sexuality, and the teenage runaway epidemic. The students chose the subjects they wanted to hear in order of preference according to their related interests. As a result, the entire presentation was beneficial and informative. "I am glad that we had the opportunity to view these topics," said freshman Chris Jenner. Both the alcoholism and the teen suicide presentations gave sincere and honest accounts of why these problems can arise and what can be done to help them. Junior Leif Heras enjoyed the day as well. "The entire production was organized and well worth it. The topics I observed were interesting and helpful." The production was organized chiefly by the Peer Facilitating group and Mrs. Akin with the intentions of informing and aiding their peers. Their general goal was to make the students more aware of the different mental health options that are available to everyone. Overall, the feedback from both students and teachers has been positive and optimistic. "I'm looking forward to next year's Mental Health Day. This year's was tremendous!" added senior Denise Rosenjack.

The technical Preparation Fair, held on Friday, March 20th, was quite successful. CROP instructors combined with instructors from Saddleback College to provide students with information about the various CROP classes. The object was to present the different options available to students concerned with the CROP courses that are in conjunction with the college courses. The students learned about rotation schedules, CROP initiative, and the Saddleback certificate programs. The presentation was organized by **Mrs. Maspero, Mrs. Cogar,** and **Mrs. Kowalyck** with assistance from the booster club.

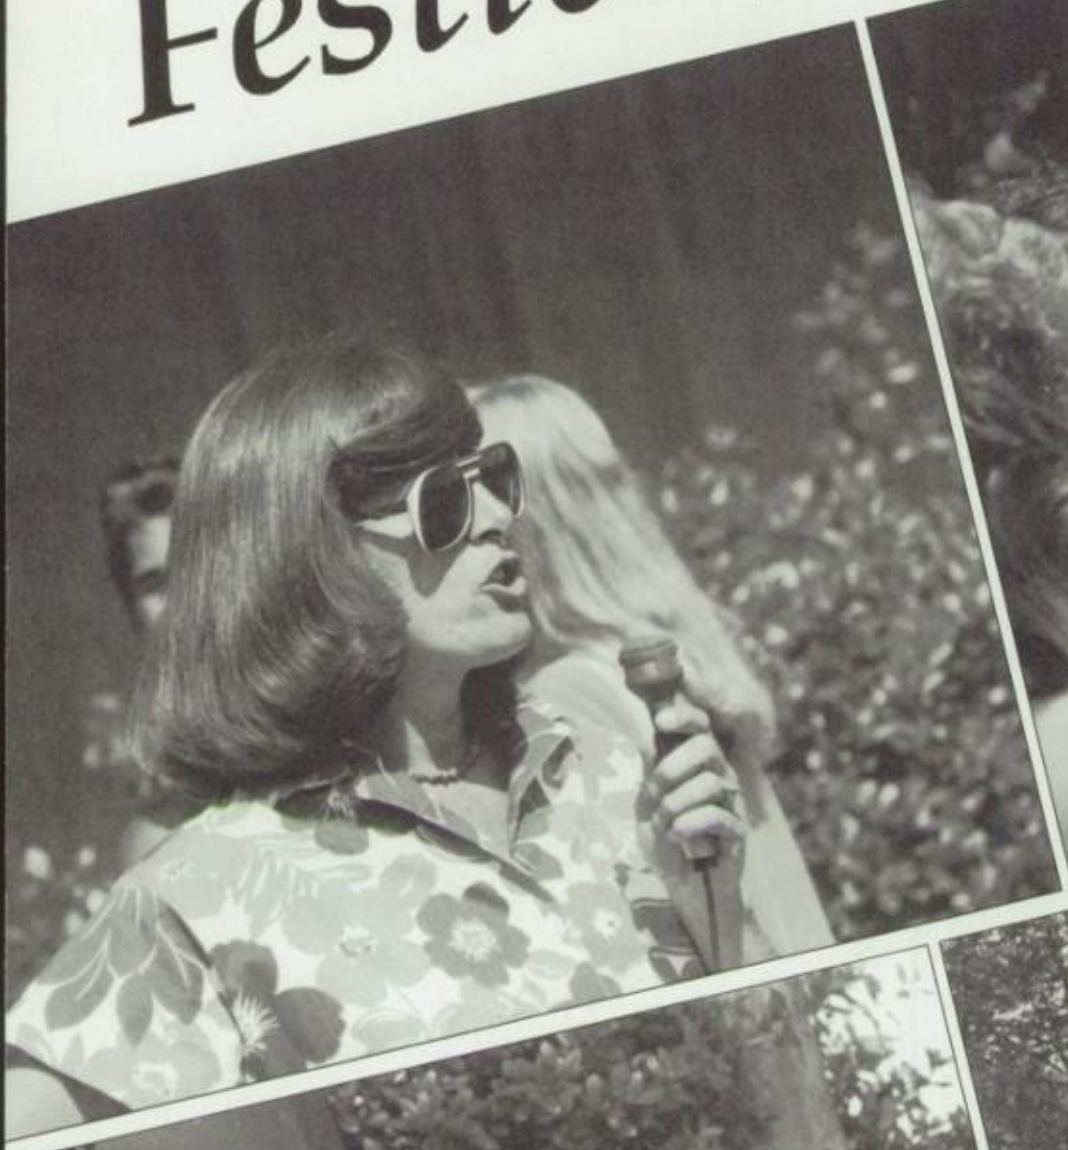
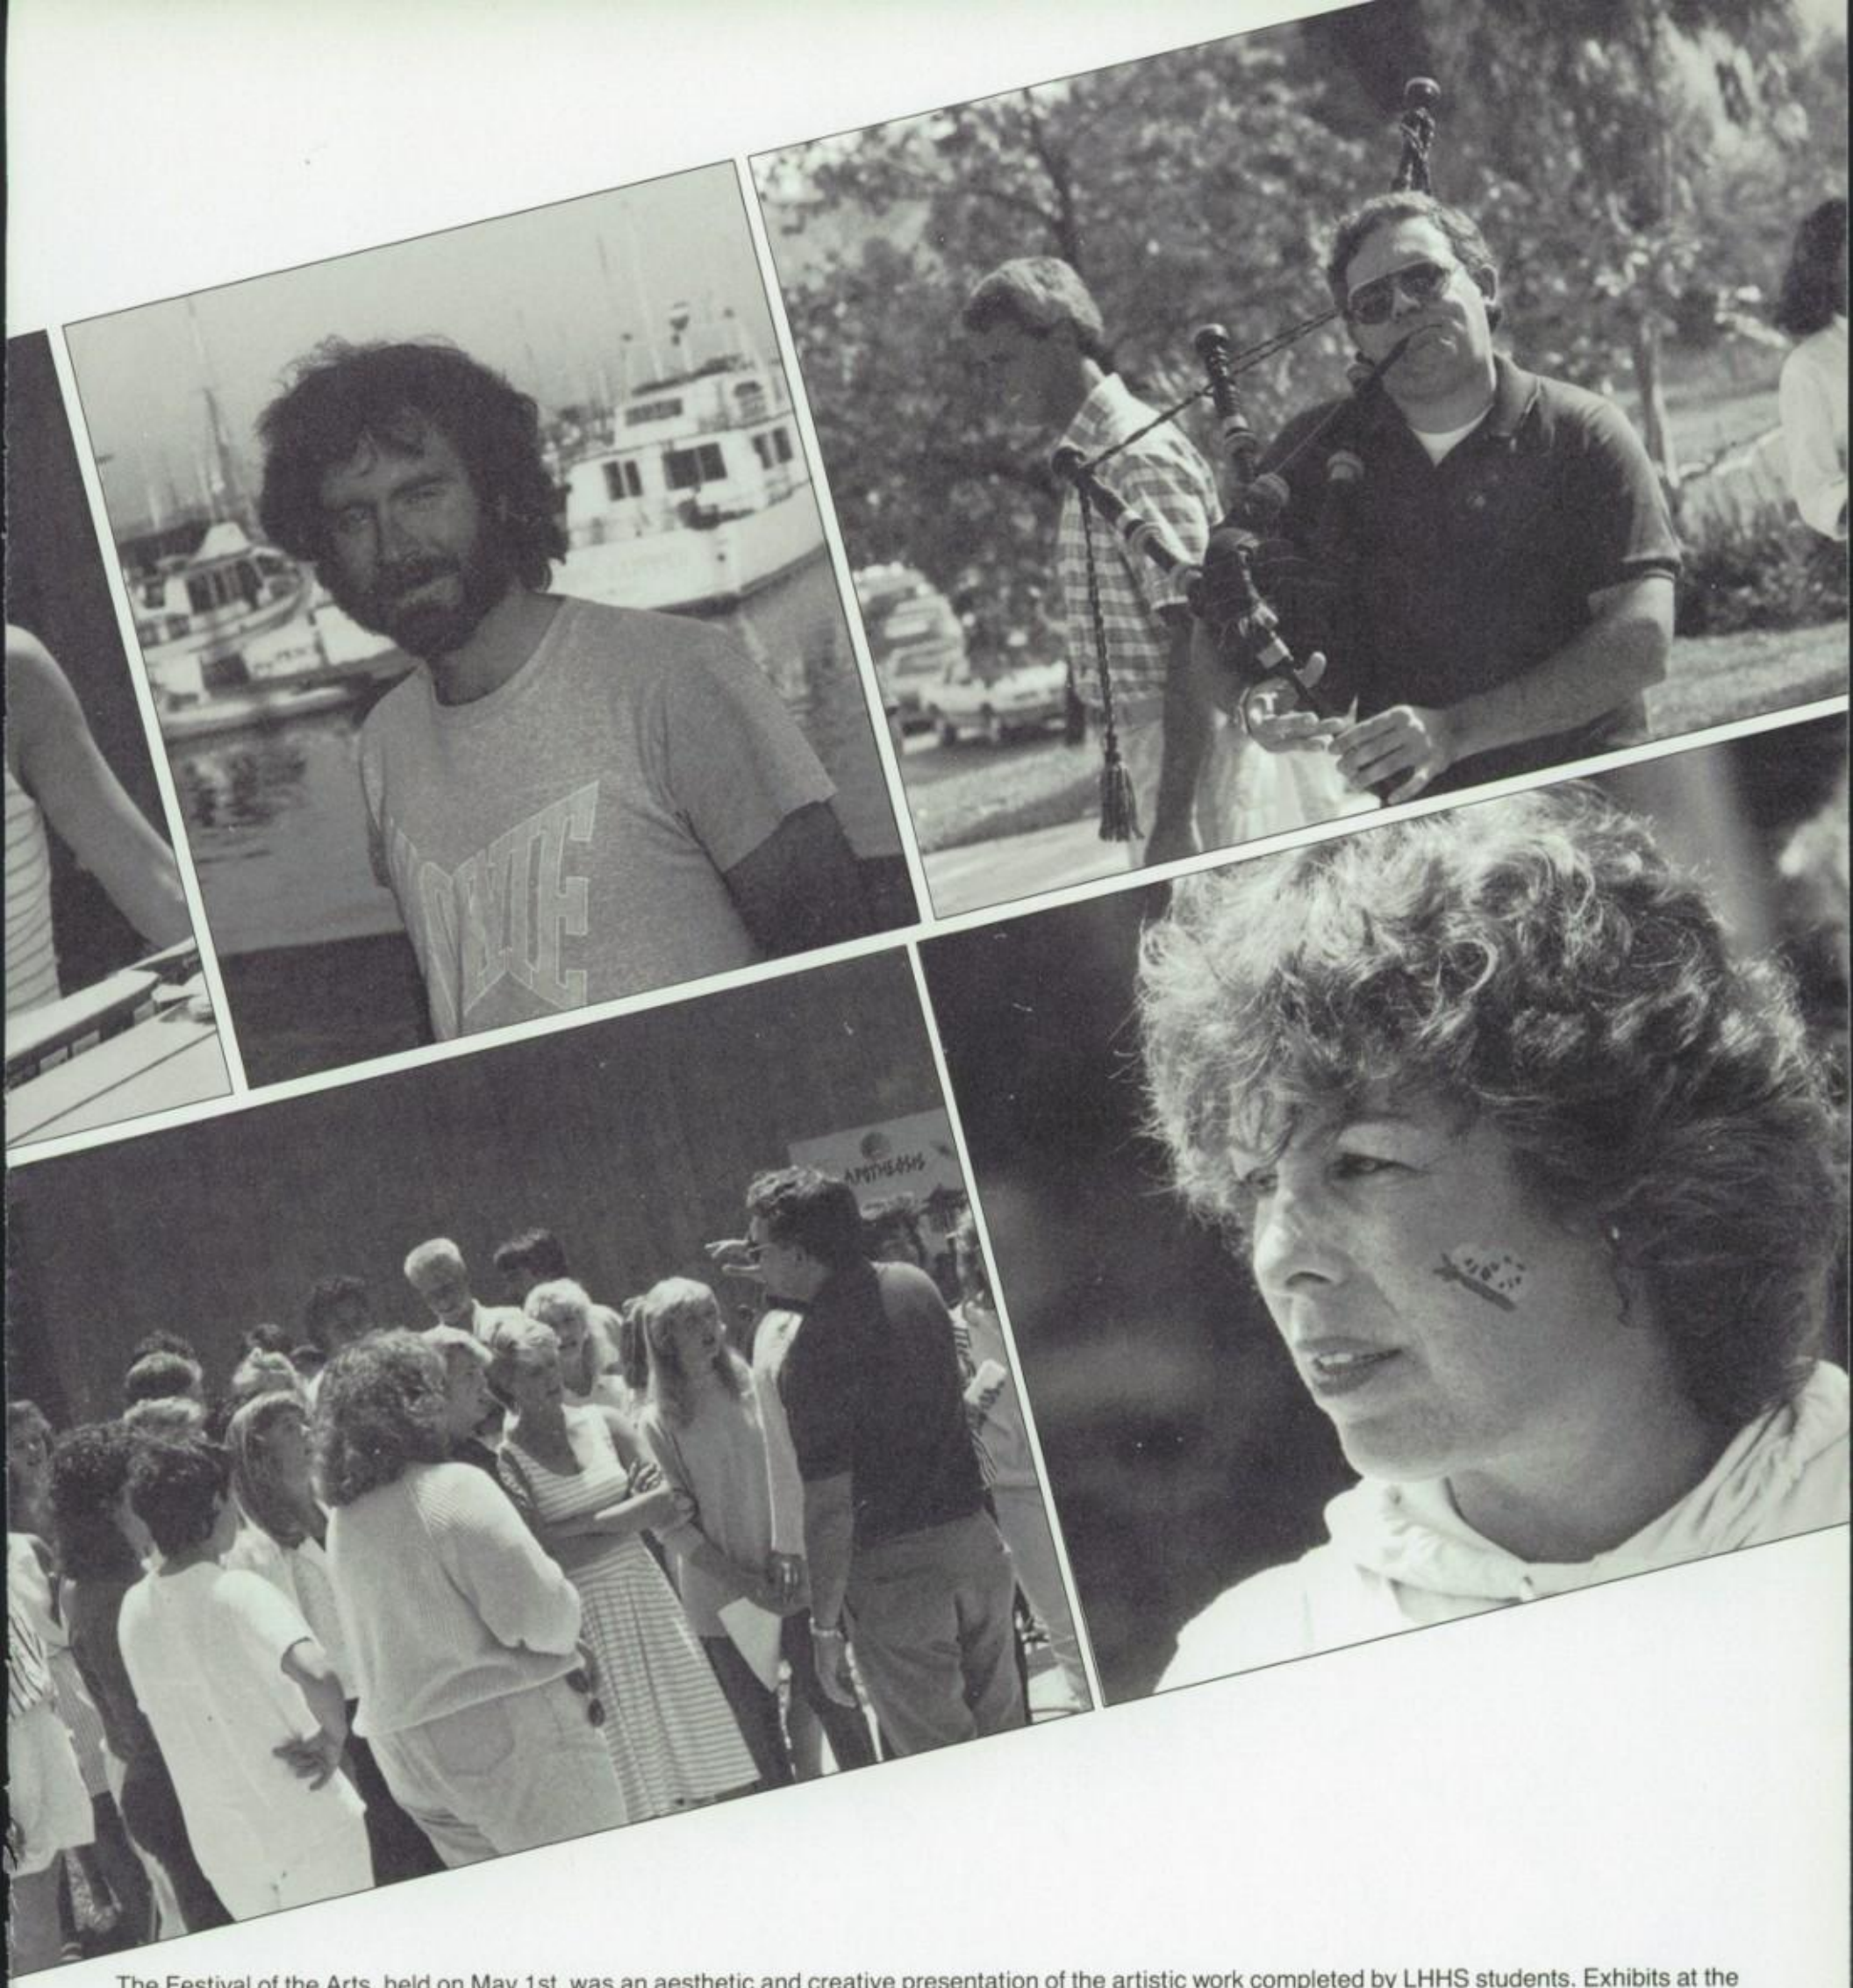
Festival of Arts





The Festival of the Arts, held on May 1st, was an aesthetic and creative presentation of the artistic work completed by LHHS students. Exhibits at the Festival included modern art displays, student achievements in creative arts, photography, and ceramics. Performances by the LHHS band, orchestra, choral and drama groups also occured throughout the day. Refreshments were provided by various clubs on campus as well as the Academic Boosters Club. Apotheosis '87, sponsored by the Creative Writing Club, was on sale throughout the day. It featured the best in student poetry and short stories from the LHHS Winter and Spring Creative Writing contests. The Festival was an enjoyable experience for the entire student body.

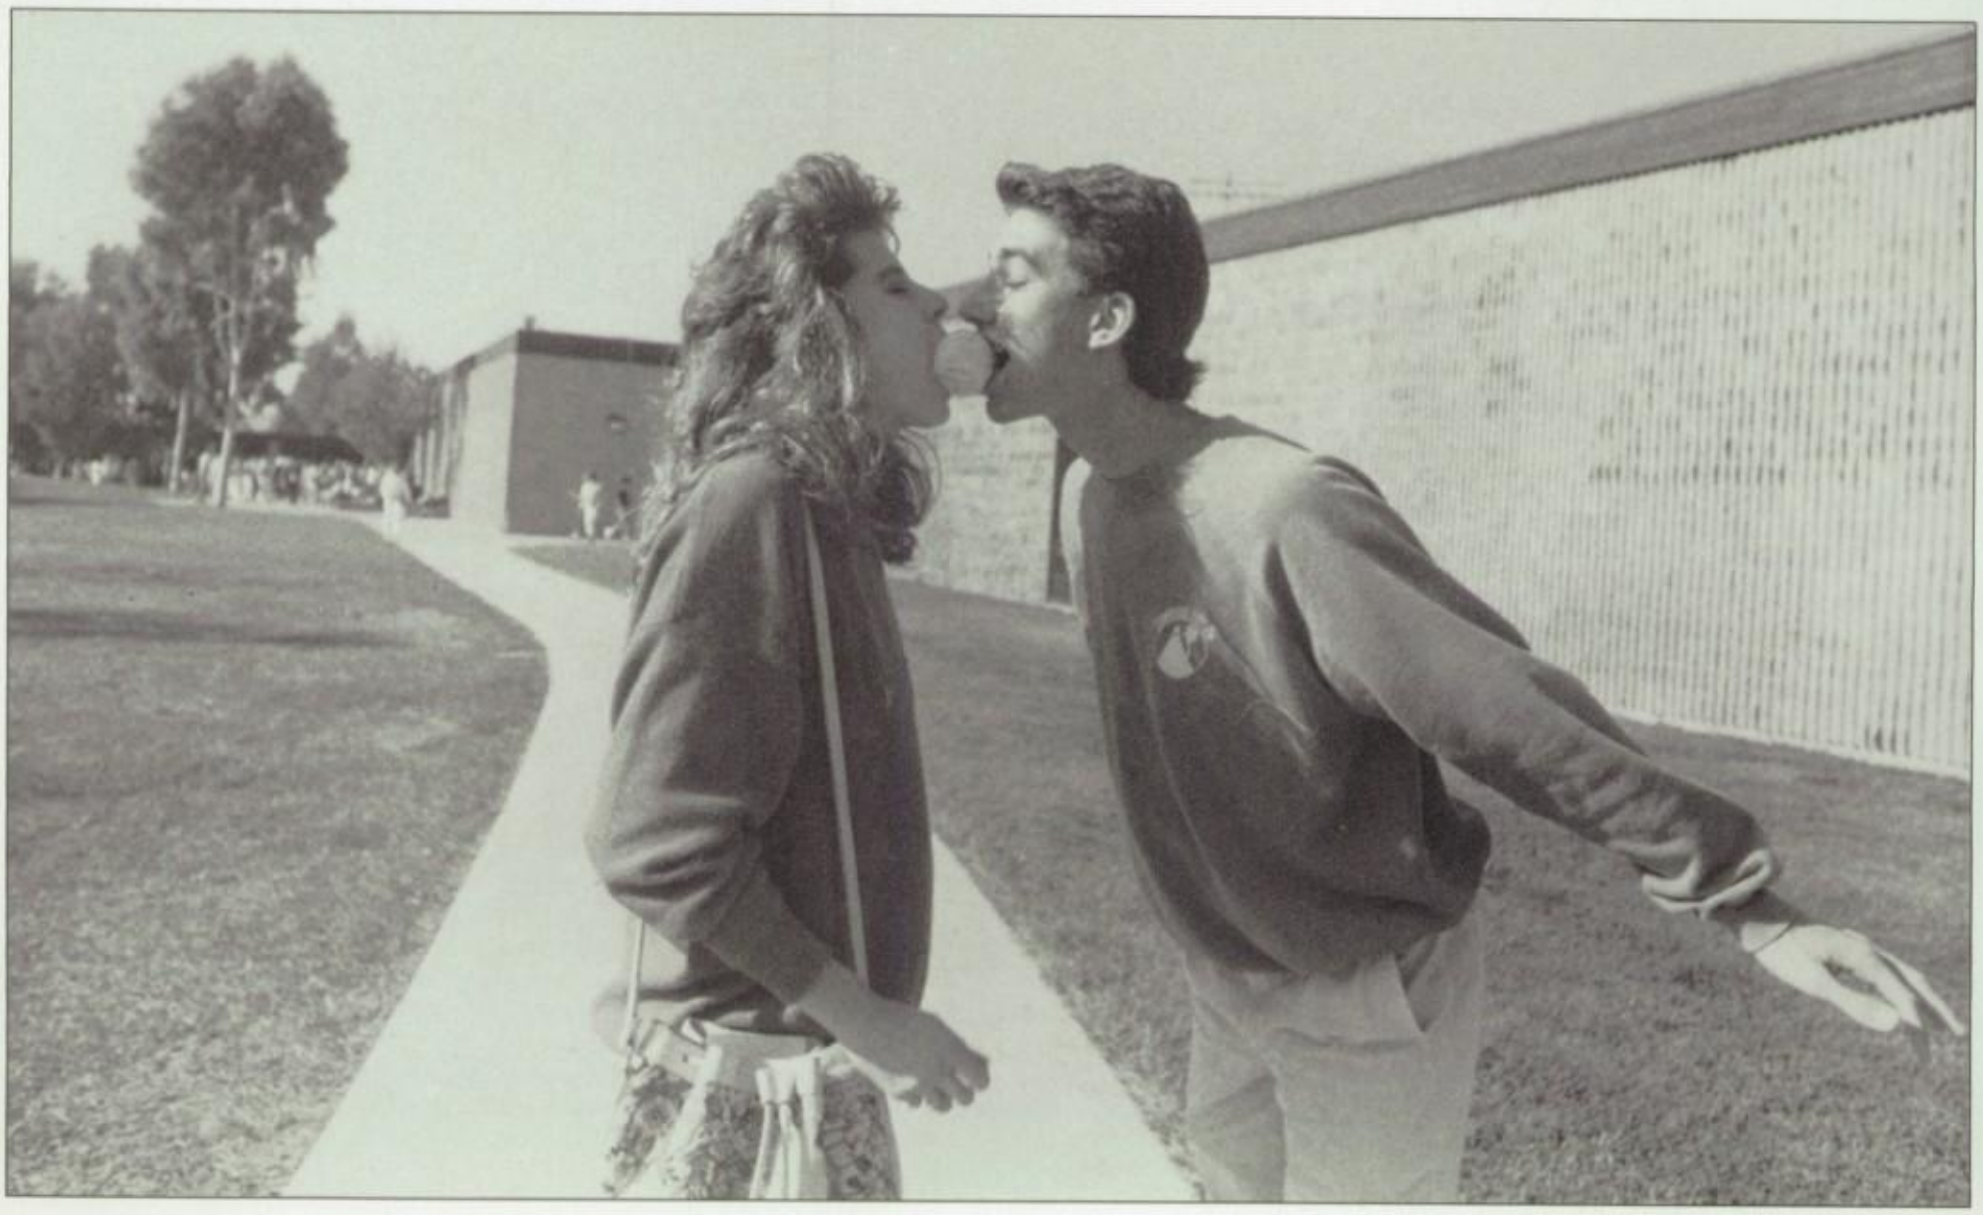
New Roof



New Dreams

Consider this, in retrospect —
As the hawk sees it or the helmeted airman;
All the golden memories which illuminate our past.
Suddenly, the passage of time is halted,
and all the intensity and brilliance of a moment
Of glory —
Is captured, treasured for its inspiration always to
"Go for the gold!"
Everyone has such a cherished moment,
Like a bright torch lit to guide his path.
And it is the gold, heart-enveloping memory
Of the times held so close to heart
That make goals and dreams so clear and obtainable;
As is the great round sun —
A sheet of gold
That swings out of the clouds and swoons along,
Alight with hope
Gloriously soft
Lighting the minds of every man with motivation
And seen only on a gleaming gold-white day.

Golden Lifestyles

So, continue on the goal-laden pathway
That leads us all through life
And is rich with experiences as good as gold.
Because, someday . . .
When trees have shed their leaves,
And against the morning's white
The golden birds beneath the eaves
Have sheltered for the evening . . .
We'll turn our faces inward —
Toward the memories that always linger.
And we'll left our eyes upward —
Toward the Power that always inspires,
Giving strength and vigor to increase self-worth
And strive for golden perfection.
Life is truly golden.

That you have dreamed of.

Gold symbolizes much more than the metallic substance found in the gold rush days luring so many prospectors out West. Those pioneer days were rich in new beginnings, golden opportunities for our forefathers. Panning for gold nuggets and digging for metals led to greater wealth and the start of a nation. Discovering the pot of gold at the end of the rainbow led to new and intriguing chances to be taken so that each American could witness old, treasured dreams become reality and goals fulfilled to one's potential. Gold is the light shining deep within each soul, reflecting faith, pride, courage, honor, and the will to supercede all limitations. Gold represents the value of special bonds which man shared with another. Golden is the love between friends and family members — the moments shared among them that become lingering, treasured memories. Gold always stands supreme, daring to be noticed, challenging its opponents and adversaries. It is a prize winner's medal — the instance when illusion blossoms into reality. It is the symbol of eternal integrity — forever gold.

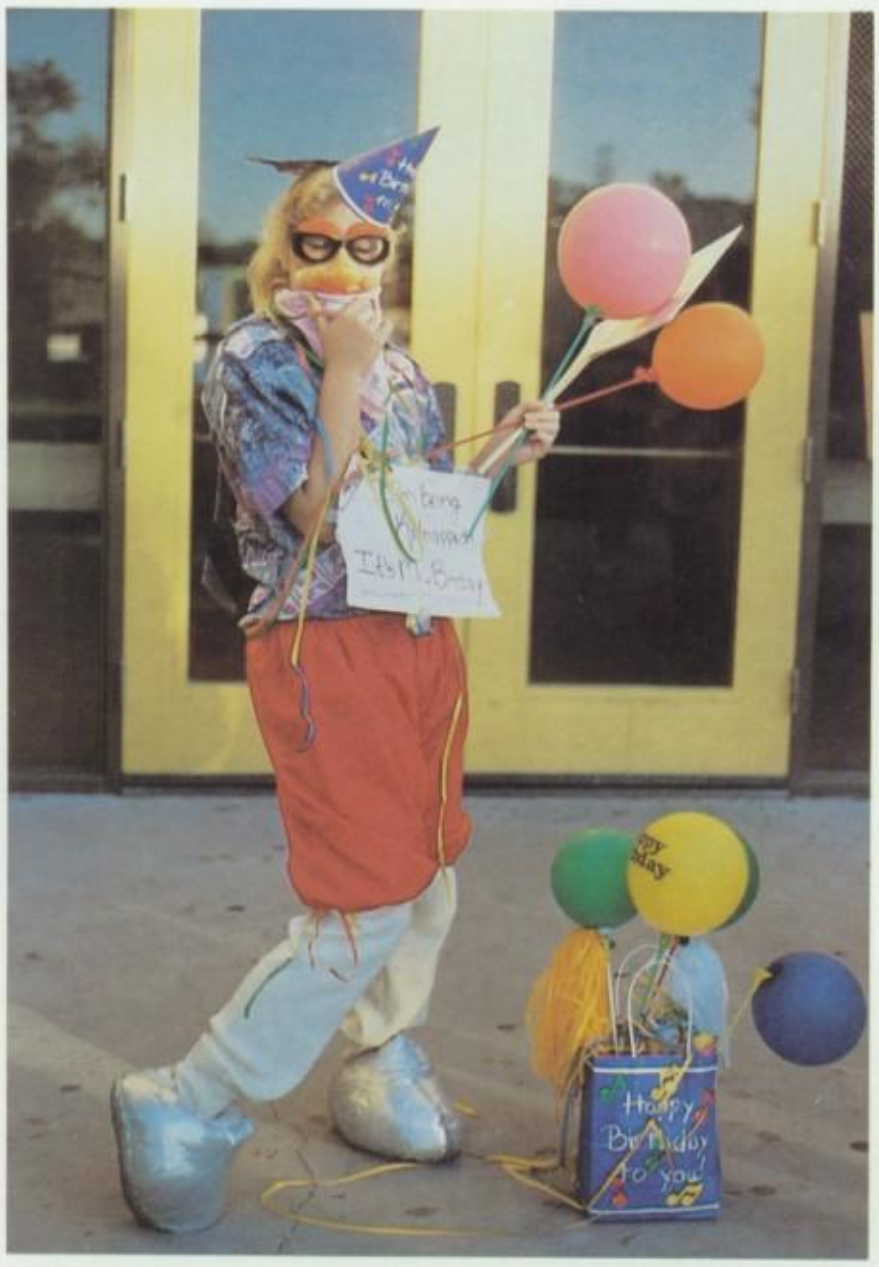
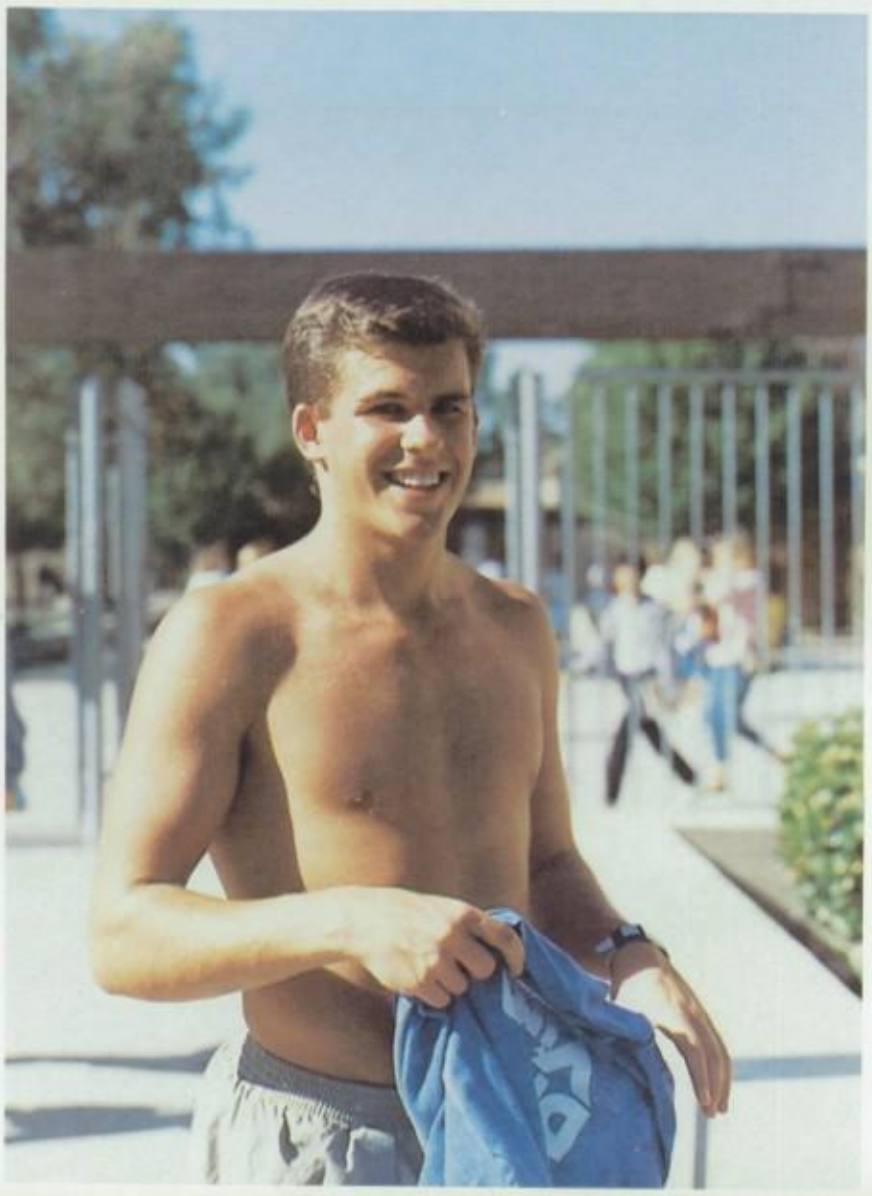
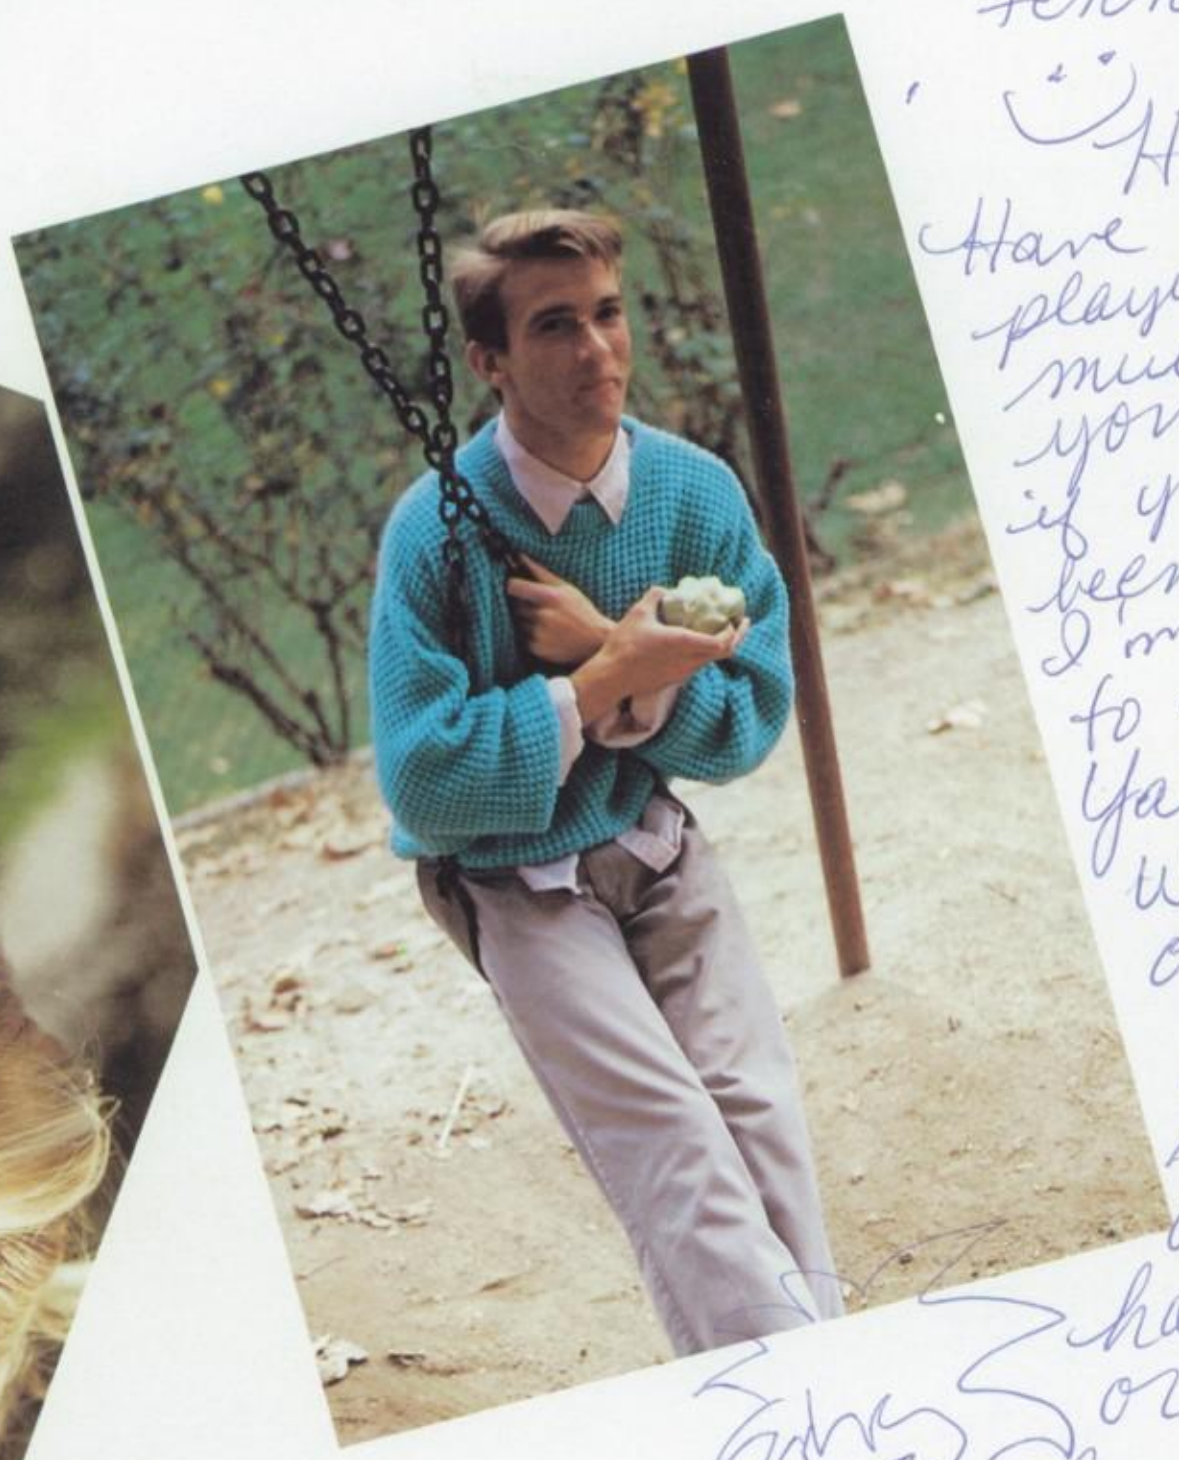
Daring to





Be Noticed



All of us want to be noticed. Some find it easy, others need to make an effort. Daring to be noticed is a healthy part of growing up. We want to prove we are mature and independent. We can make right decisions and turn our dreams into reality. We stand tall, to surpass our insecurity, swallowing our pride and extending beyond our limits to reach for the stars. We are individuals, unique in style, daring to be noticed.

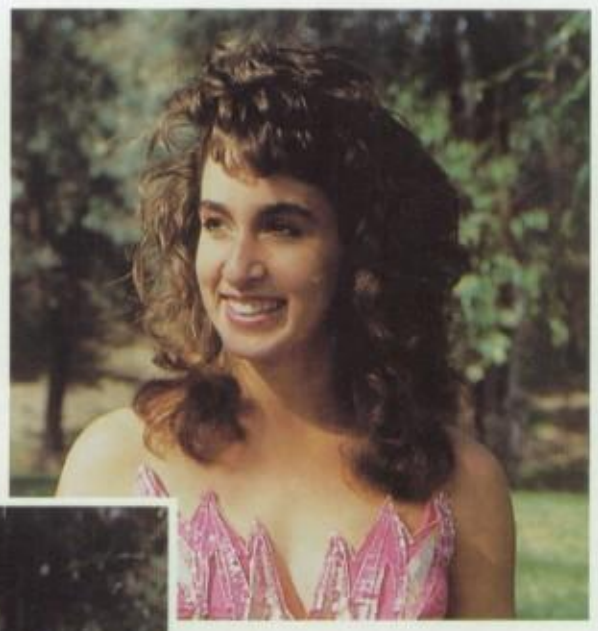
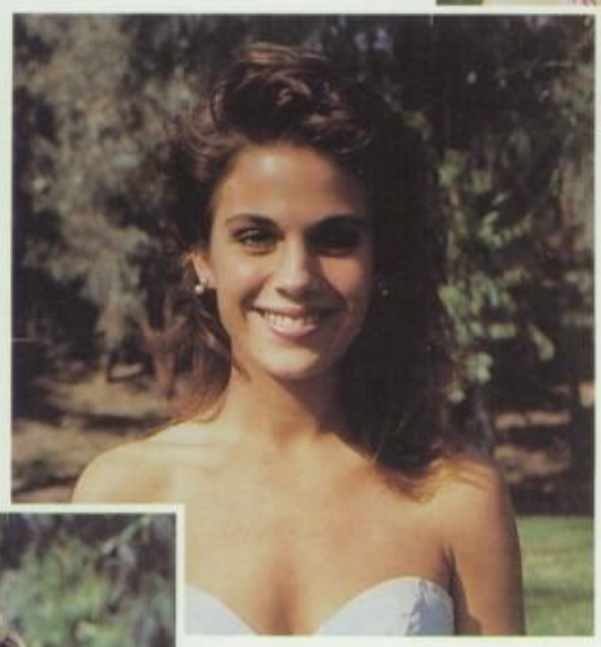
There's No Place Like Homecoming

The whistle blew and the kick was off. Enthusiastic cheers came from our crowd of spirited Hawks. It was 1:30 P.M., October 25, 1986. The proud tradition of Homecoming began with the highlight football game and ended with the Homecoming Dance. Homecoming, however, also symbolized the unity among our fellow students, old and new alike, as well as the honor and beauty of the Queen and her court. It represented triumph and celebration, our undying spirit and faith in our Alma Mater. It allowed us to express our pride in the brown and gold — Laguna Hills High School.

Anxiously waiting for the court, the Tin Man, Scarecrow, last year's Queen **Jenny Rodie,** *and the Lion stand in front of the entrance to Oz. Shortly after* **Tami Blume** *appears, escorted by her father, the marching band and color guard keep the crowd entertained while the stunning court is introduced. With strength and determination,* **Vince Cegars** *brings down an Orange Panther.*

Follow the Gold Brick Road





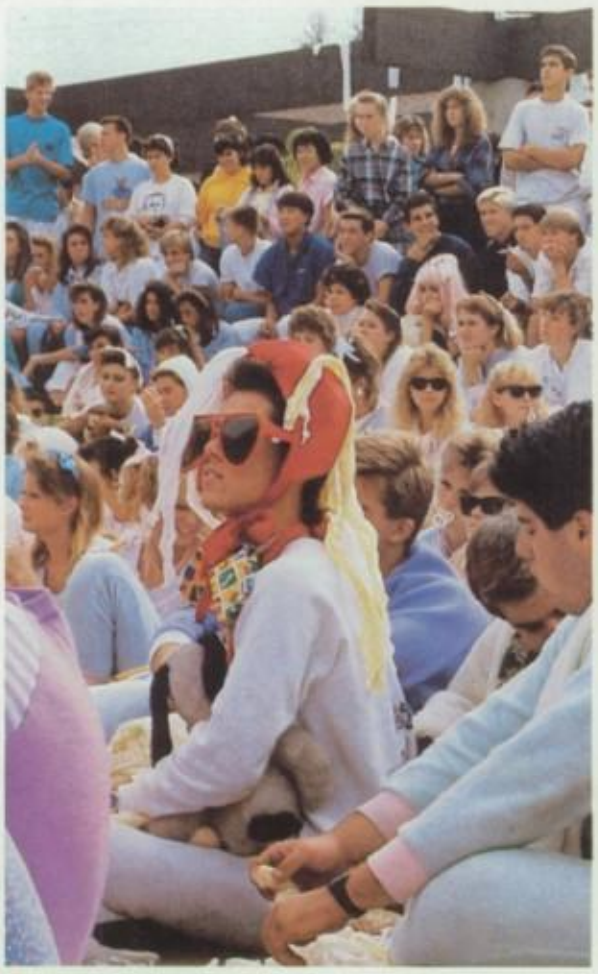
Queen **Tami Blume** *is flanked by homecoming princesses (bottom to top)* **Erin McGuiness, Jennifer Todd, Tami Alms,** *and* **Jennifer Valencia.**

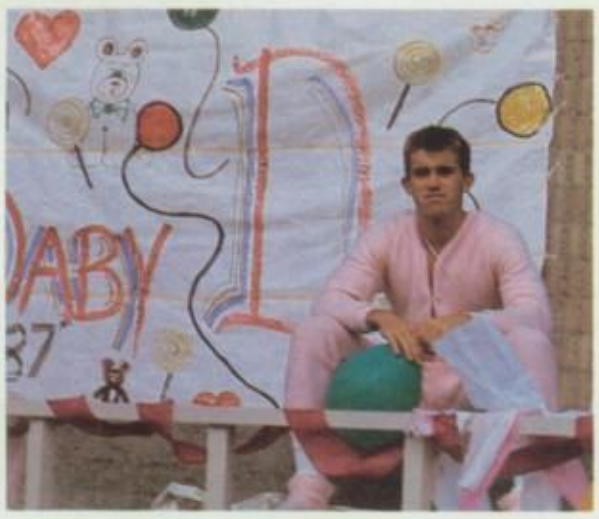
This year's court underwent a rigorous selection process before making the finals. First the seniors nominated the top ten semifinalists. From there, ASB interviewed the candidates and selected the five finalists. Then, during the Homecoming Assembly, Mike Castillo emceed with tricky questions which the girls answered with wit and charm. Finally their journey on the gold brick road was complete. The students enthusiastically voted for the lady Hawk whom they felt displayed the best personality, the best communication skills, and most importantly, dedication to scholastic activities.

Tami Blume emerged as the 1986 Homecoming Queen. She is 5′3″, 105 lbs., and has blonde hair and green eyes. She plans to attend a university and major in elementary education. She actively participates in Key Club, Spanish Club, is an ASB Commissioner of Publicity, plays Varsity Tennis, and is a page editor on the journalism staff.

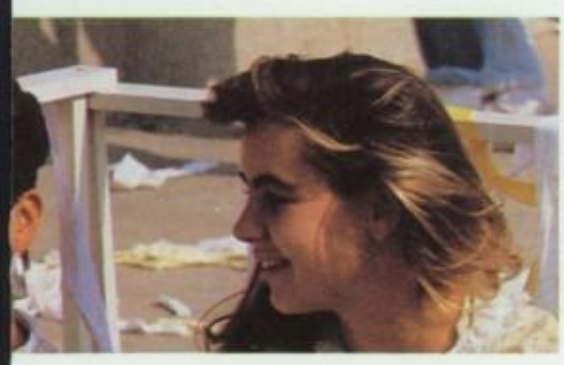
to Oz

The Homecoming Dance was a great success this year thanks to the 1986-87 Pep Squad and the precious time and effort of their advisor, **Ms. Joan Kilby.** *Original decorations transformed the gym into the magical land of Oz as the radiance and upbeat sound of the music beckoned. Students arrived in semi-formal attire as demonstrated by* **Amy Lytle** *and* **Jason** Arnold. *Meanwhile* **Jay Christianson** *and* **Erica Ziencina** *danced the night away to great tunes. The evening was characterized by laughter and socializing — a night of fun soon made into golden memories.*





Golden Babies



Returning to their youth with pacifiers and blankets, the seniors celebrated a day dedicated solely to them. Dressed in diapers, frills, and sleepers, the babies transformed the campus into a nursery. The day began with infants feasting on donuts and apple juice prior to playing exciting games of red rover, duc-duck-goose, and simon sez. As the day progressed some babies took naps while teachers recited Dr. Seuss and Mother Goose tales. Finally, as the day drew to a close, the seniors regretted the end of their day. They gathered their blankets, and rattles and said good-bye to their youth.

Seniors enjoying baby day (top to bottom, left to right) **Chris Johnson, Phil Walton, Alfred Crabtree** gulp their Gerbers. All the babies listen to music. **Jay Christenson** feels abandoned. **Terri Young** and **Dave Delmonico** eat their marshmallows. All the babies smile for the birdy. **Greg Piazza, Dan Ringler, Greg Nelson** rest. Golden Dreams

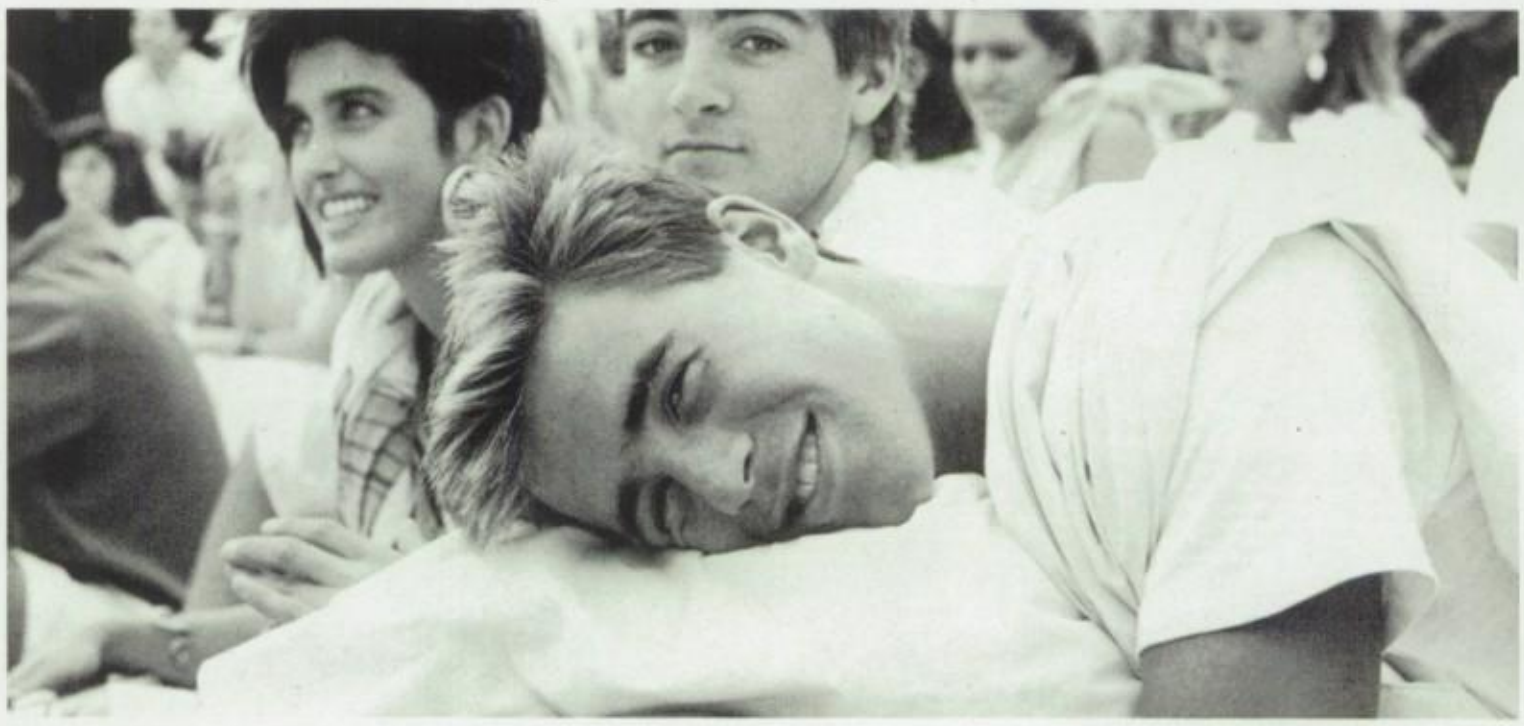
Ancient

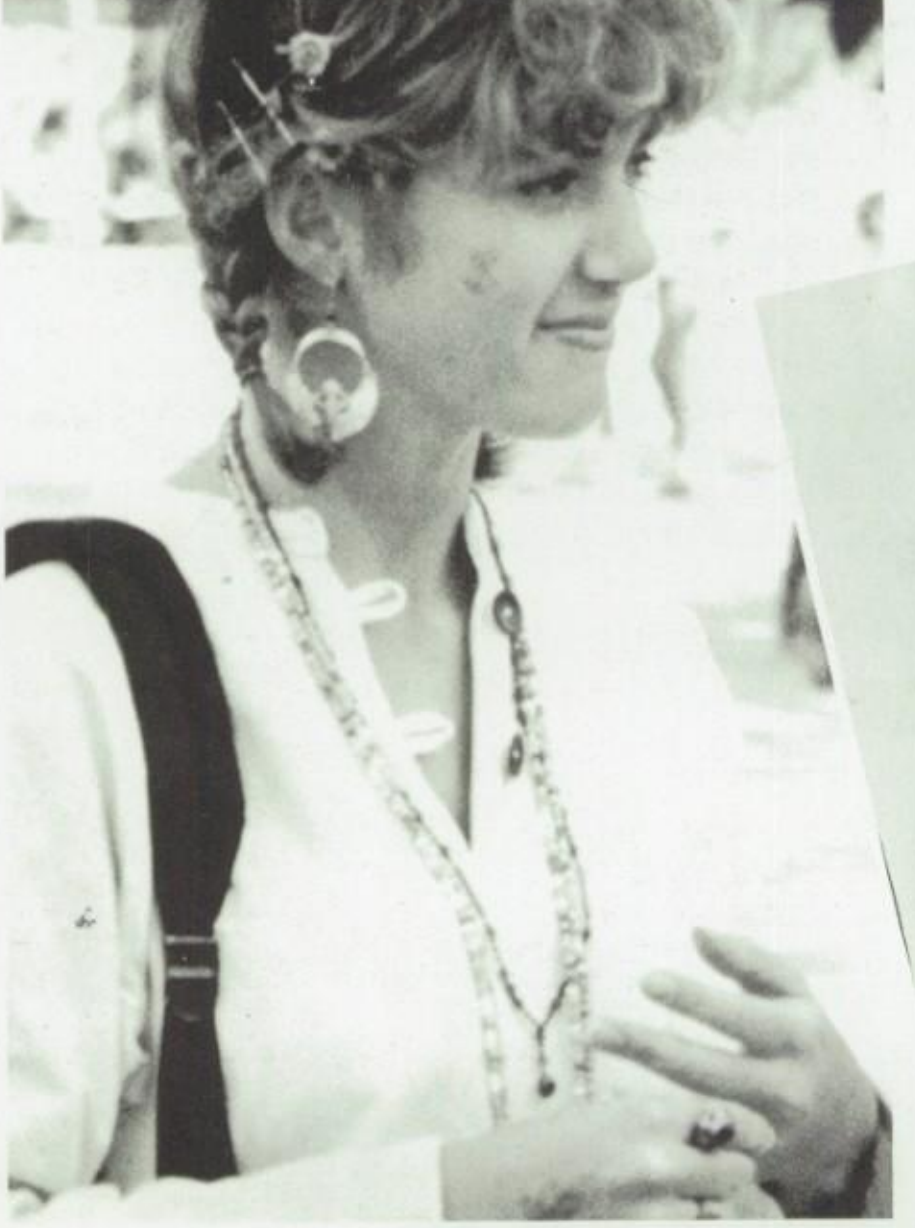
Clad in togas, ivy and laurel wreaths, sandals, and sunglasses, the Class of 1988 celebrates Spirit Week Roman Style.



Romans

"When in Rome, do as the Romans do!" was a popular phrase among the juniors, but they didn't need to travel to Rome to practice the Roman traditions. On October 22, the halls were filtered with fleets of Romans wrapped in white sheets and authentic sandals. The students glorified Roman tradition, adding garlands and golden jewelry to adorn their costumes. Resembling Greek goddesses, the girls were radiant with flowered wreaths in their hair. The Roman boys depicted heroic and gallant warriors. The class was united, participating in a common activity.

Golden



Flower Children

On Wednesday, October 22, the class of 1989 brought back the golden age of hippies. The sophomores were very spirited and dressed in the same style as the 1960's. Looking through the tinted glasses, **Debbie Rose** spread the word of peace. Some other activities of the sophomores were chanting to music and singing songs from the era. Flower child **Karen Stevens** listened to "Mr. Tambourine Man." Looking around the quad that day you could see hippies like **Cami Bullock** and **Heather Hare** who modeled their idea of groovy clothes. The hippie day was a great success and showed the tremendous spirit of the class of 1989.

the Nerds

Argyle sweaters and socks, taped glasses, braids, lunchboxes and plaid pants . . . The Nerds. They can be seen from afar, one sock up, one sock down; a trail of papers falling from behind and a look of complete confusion on their faces. Nerds were everywhere! They were in lunch lines; they sat in math classes; they invaded lockers. They were objects of jokes in their horn-rim glasses and flowered Hawaiian shirts. The nerd invasion occurred on October 22, 1986. Dressed like Pee Wee Herman and Martin Short they cheered for their class, tore an effigy of a nerd apart, and rode big wheels around campus. Soaring spirit engulfed the campus as nerds, hippies, and Romans all invaded Laguna Hills on the day of spirit competition.

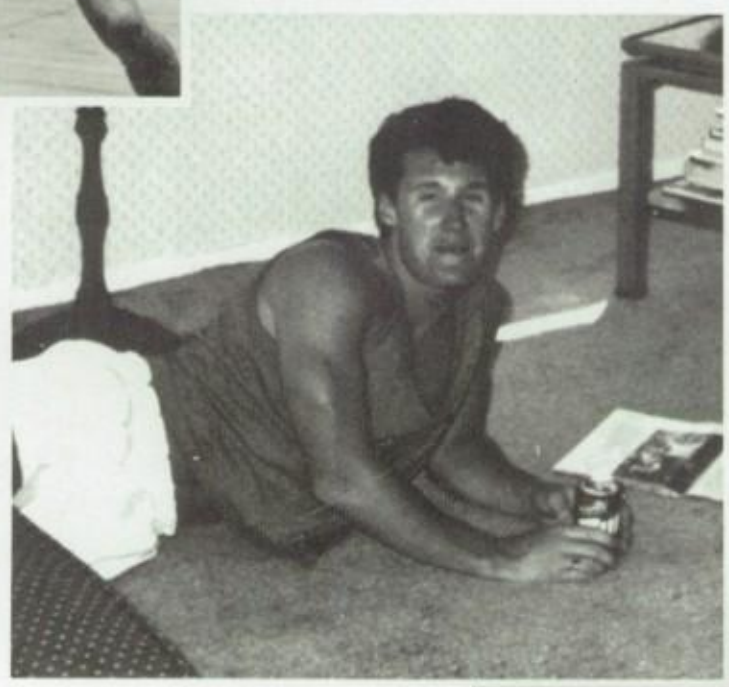
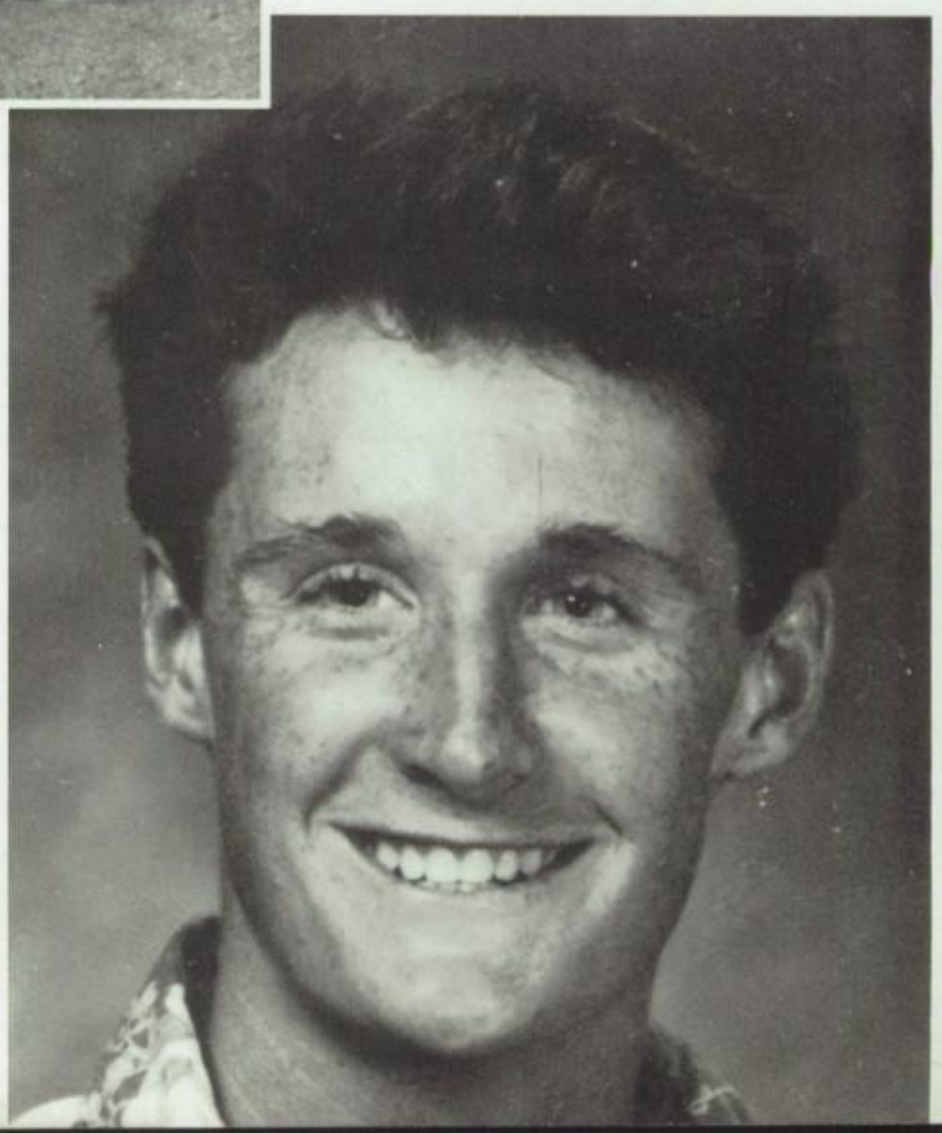
In Loving



Most of us recognize sadness,
As when a good time comes to an end.
But the actual feeling of sadness,
Is felt from the death of a friend.

The tendency after a crisis,
Is figuring what went wrong.
But the only way of solving sorrow,
Is joining together and being strong.

Jason Lance



For those of us who were fortunate enough to know **Jason Lance,** he will always remain in our hearts. He was a loving son, caring brother, honorable student, dedicated athlete, and a true friend. The sparkle in Jason's eye and his encouraging smile always brightened up our days. His unique character was one you could not help but like. The memories we shared with Jason are the bonds that will last for eternity.

Shirelle Hill

Memory

The departure of a loved one,
Is a pain that isn't fair.
But we must bring our love
together,
To make the pain easier to bear.

We all must support each other,
They will do the same from above.
We all must portray what they had
Which is kindness, friendship, and
Love.

Mark McCue

Nicole Clerc

Athlete, scholar, friend and companion. Those are the attributes and qualities that describe **Nicole Clerc.** Her athletic ability which enabled her to letter in three sports was only equalled by her beauty. She was recognized by her unique style and wit. For those who were not blessed with the opportunity of knowing Nicole, she was the type of individual you seek when in search of a friend.

Everyone would agree that Alfred Crabtree is LHHS's number one Teacher's Nightmare. He's the first person to know when there's a substitute. Likewise, Julie Willich was nominated for her tendency to challenge authority. Luckily, there are those who are eager to please their teachers. You'll always find Teresa Brunstetter at the teacher's desk while Jay Christianson doesn't seem to leave his teacher's side. Consequently, both were chosen Teacher's Apple Polisher. What about the ones who always cheer us up? We can always depend on an encouraging word or warm smile from Krista Richards and Marc Mc Cue. Because of their optimistic and effervescent attitude towards life, they were chosen Day Brightener. The two who really know how to put on an act are Linda Riggs and Paul Mayjack. Linda has starred in various plays and performs well. Paul has also participated in numerous productions from drama to comedy. "Let's Party!" Does Matt Mc Daid ever say anything else? No, that is why he has been chosen Life of the Party. But who is also at every party, right by his side? Terri Young, the female nominee of the title. On the other side of the spectrum, the future presidents prepare for their "inauguration." At the head of their class, Iris Veneracion and Ram Duriseti have been chosen Most Likely to Succeed. Carrying a load of college preparatory courses and high aspirations, they will undoubtedly follow a successful path through life. And who are the most creative and imaginative? Often found writing and inventing new and original ways of doing things, Kim Donihue and Marc Cangnan have been voted Most Creative on Campus. What about the ones who are the first to catch the "flu" — sometimes just for one period at a time? Shawn Magnusen and Jon Willard both fit the role and have been voted Most Likely to be Sick on a Test Day. The leaders of the fashion circuit are Michele Lostracco and Keith Henderson, always ahead of the others in the latest fashion apparel. Watch out!! If there's an opportunity to fight, the two Most Likely to Start a Revolution, Mike Gallucci and Denise Harvey, will be in the front lines. "Hurrah! "GO, HAWKS, GO!" Meagan Hutcheson and Dan Ringler have been chosen Most Spirited, always rooting for LHHS unity. Donna Barr and John Rivera have been awarded the title of Most Original Hair. Besides being outstanding athletes, both Erin Mc Ginnis and Sean Hardy are superb and loyal team members. And who are the ones most artistically inclined? Tami Alms and Eric Hernadez have been nominated Most Artistic due to their ability to draw intricate and detailed work. The two with the Best Legs, Phil Colquette and Kellee Luce, can be seen sporting their lean, tan legs year round. And, of course, it is nice to know the ones with the Cutest Smile. Andy Kuver and Tami Blume, are always flashing us a beaming grin. Colleen Mc Farlene and Todd Young (what a couple!) have been awarded Most Desired to be With on an Island. Congratulations, seniors.

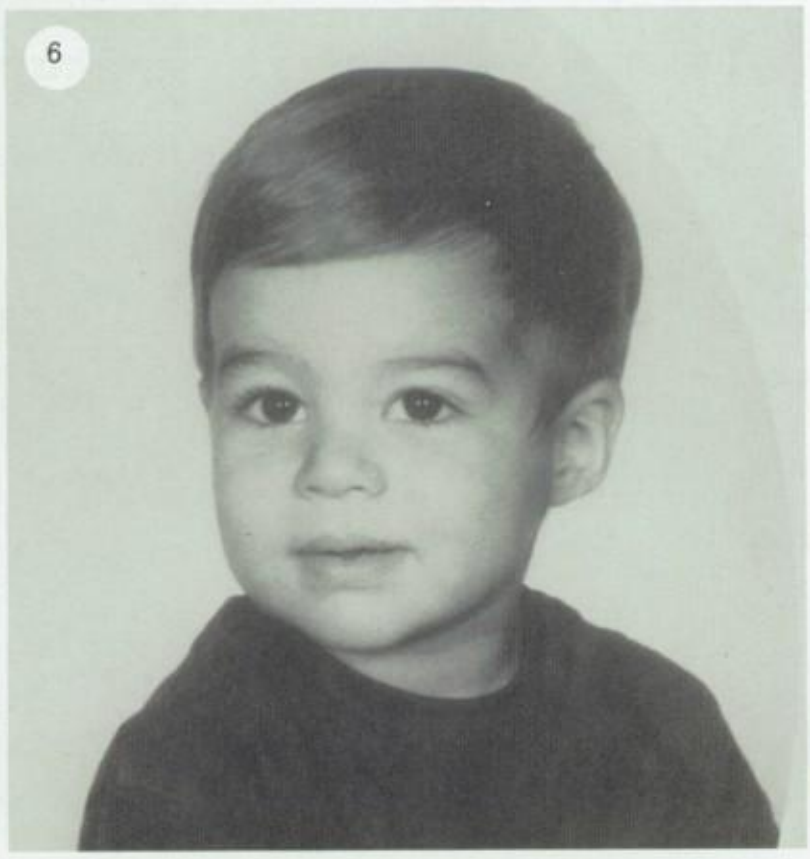
That Golden Age



Peek-a-boo! Guess who! Yes, it's our senior babies. So young and cute, Mommy's pride and joy, who went through years of cartoons and toys. They are at that Golden Age again, where a new step into the future is marking a path for them to follow throughout their lives. It's fun to look back on the childhood memories of growing up. Special moments of sharing and caring remind us of those happy times of tender youth, and also teach us all well the gift and beauty of youth. Our childhood memories and experiences, to remember and last a lifetime.

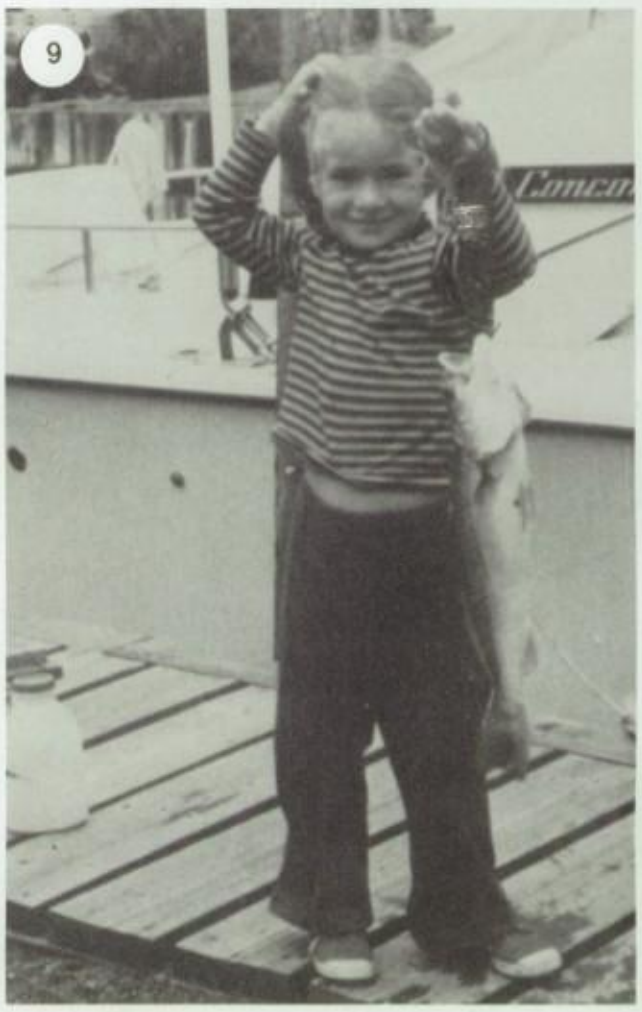
Baby, Spread Your



Wings and Fly

Looking back on these smiling faces brings us a feeling of happiness, as we are reminded of those special moments we experienced during our tender years. Whether it was the moment of triumph after hours of learning how to ride a two-wheeled bike, or the loneliness felt on the first day of school, we all have treasured memories locked up within our hearts that remind us of those years of growing up. These are the years for sharing special feelings and experiences. Those happy times of tender youth serve to teach us the beauty and gift of childhood. Being seniors, this will be the last year of growing up together. We all are learning and guiding our paths we intend to follow. As individuals we all must part our separate ways to fulfill our dreams and destinies. But these years of childhood and growth will be the happy memories to guide us through our lifetime. Looking back, we'll see these smiling faces and recall the happy and sad times of growing up, but at the same time we look back and say, "Hey, you've come a long way, baby."

Life Is Golden

Wave over wave
Of simple sunlight
Set my eyes to dancing
Or to staring straight ahead
Hoping I can cause sun spots
To come together
In a single golden shade.
Not just a haze of happiness
  Absolute . . .
A steady shine so it
Will ring out the reverberating
Message: "Life is golden."

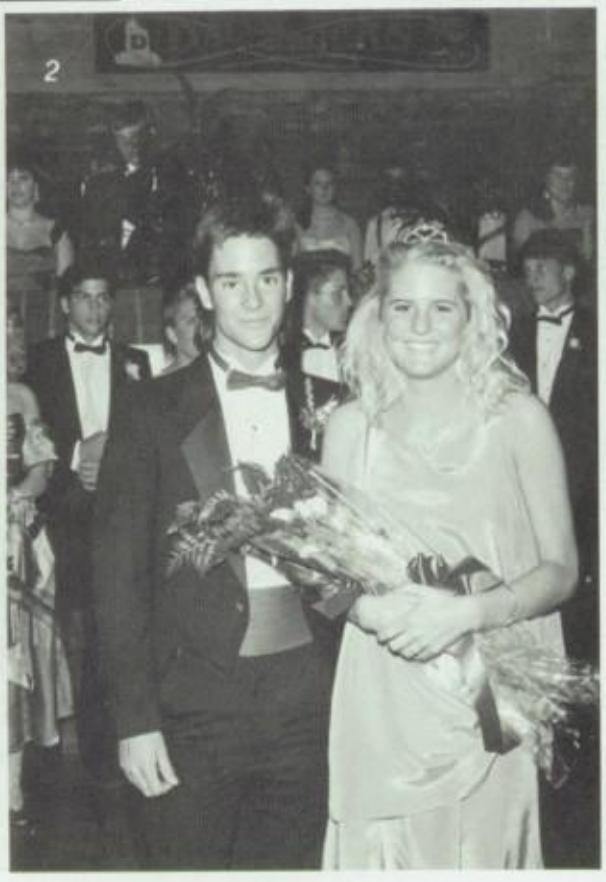
Somewhere in the Night

W inter Formal 1987 turned out a big success, as Laguna Hills High illuminated the luxurious Plaza de Cafe. Being escorted in a limousine to your favorite restaurant overlooking the ocean, eating a very exquisite meal, and being enchanted by a loved one, was undoubtedly just the beginning. Knowing that the night would soon run out, you head for the dance. Immediately your chauffeur scurries to a crowded scene of tuxedos and elaborate gowns. As you and your date proceed to head for the dance floor, the lights dim and your favorite love song comes on. Then the long awaited crowning of the King and Queen would soon follow.



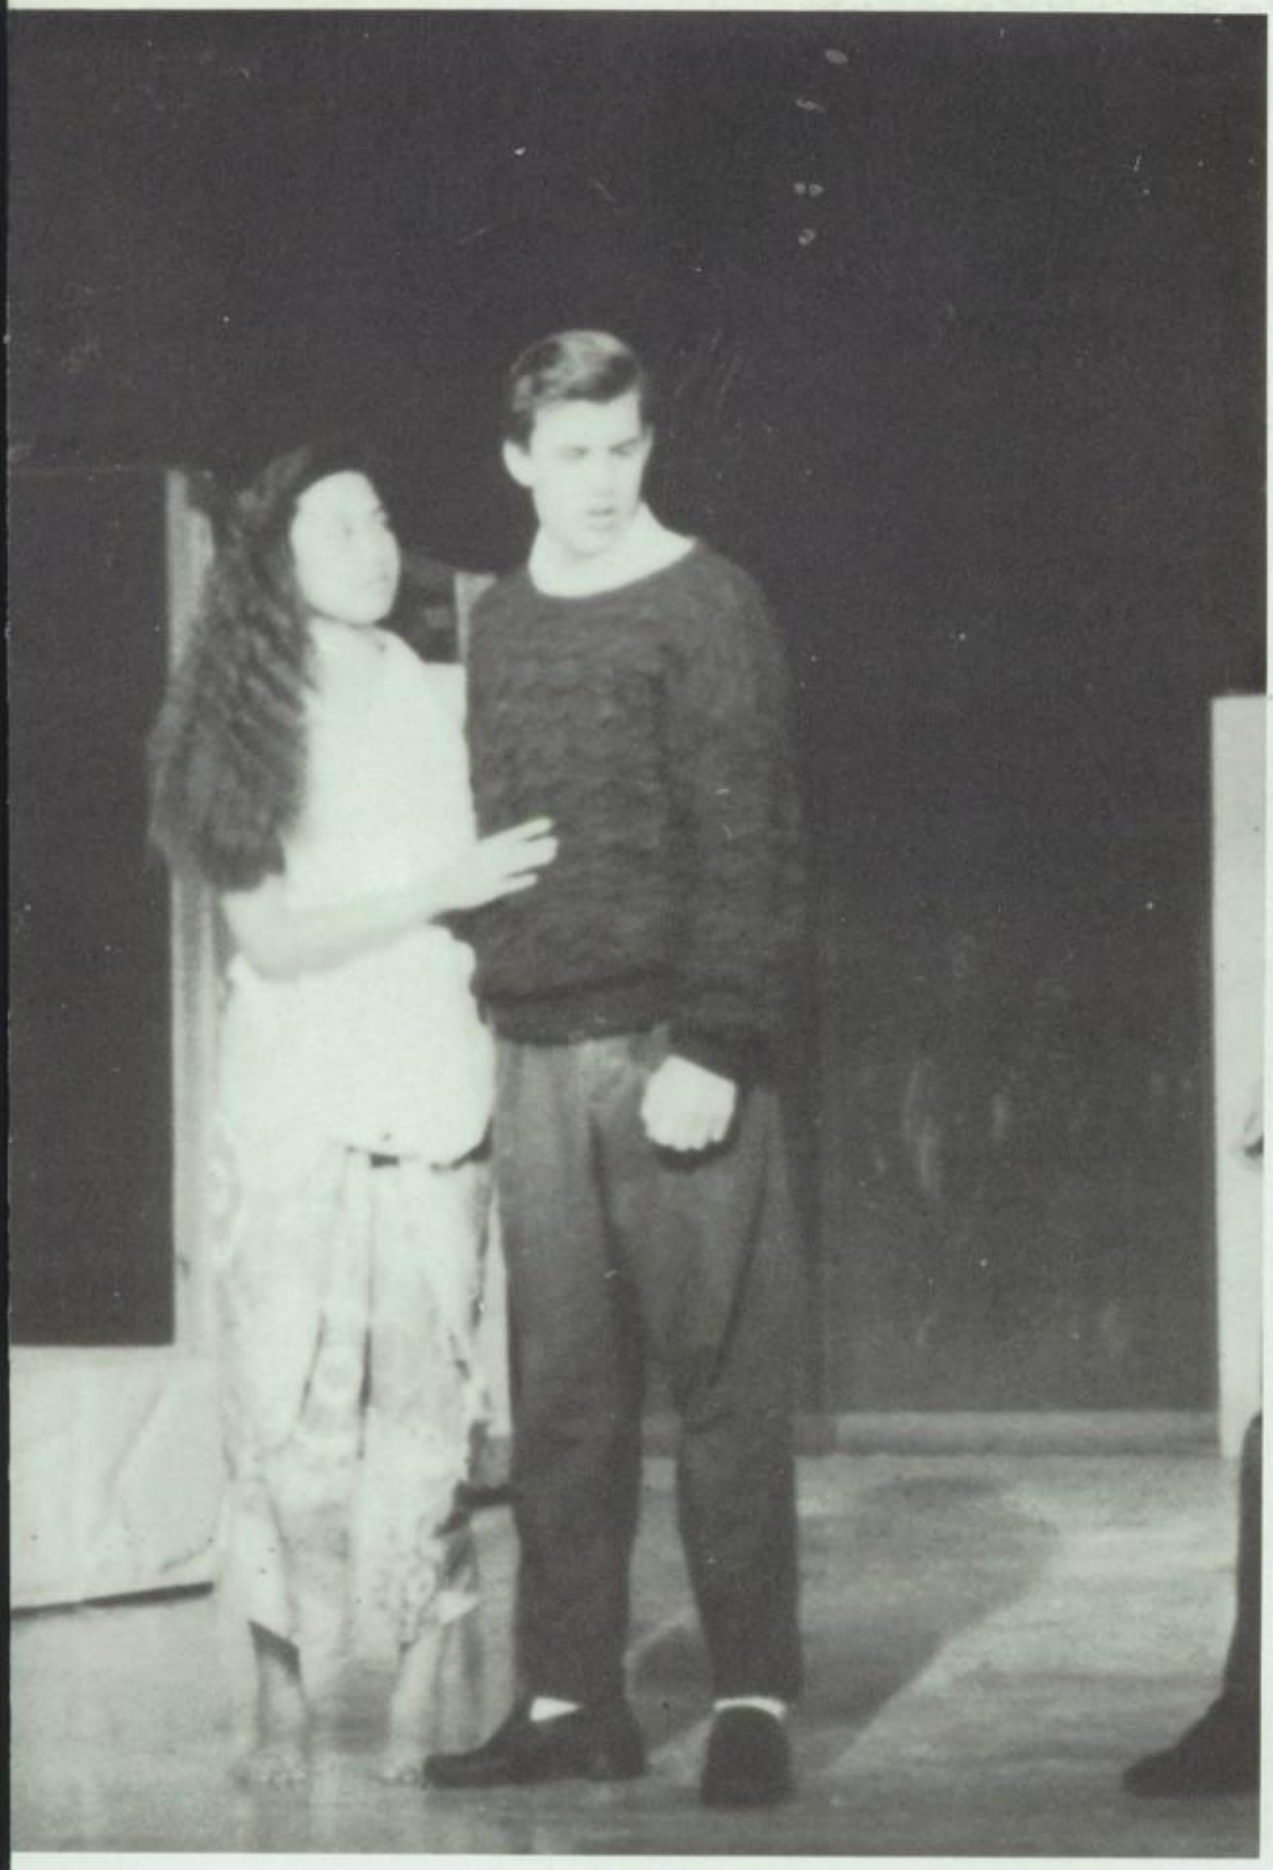
Time, you found time enough to love; and I found love enough to hold you. So tonight I'll stir the fire you feel inside until the flames of love enfold you. Come with me . . . somewhere in the night we will know you're my song-music too magic to end.

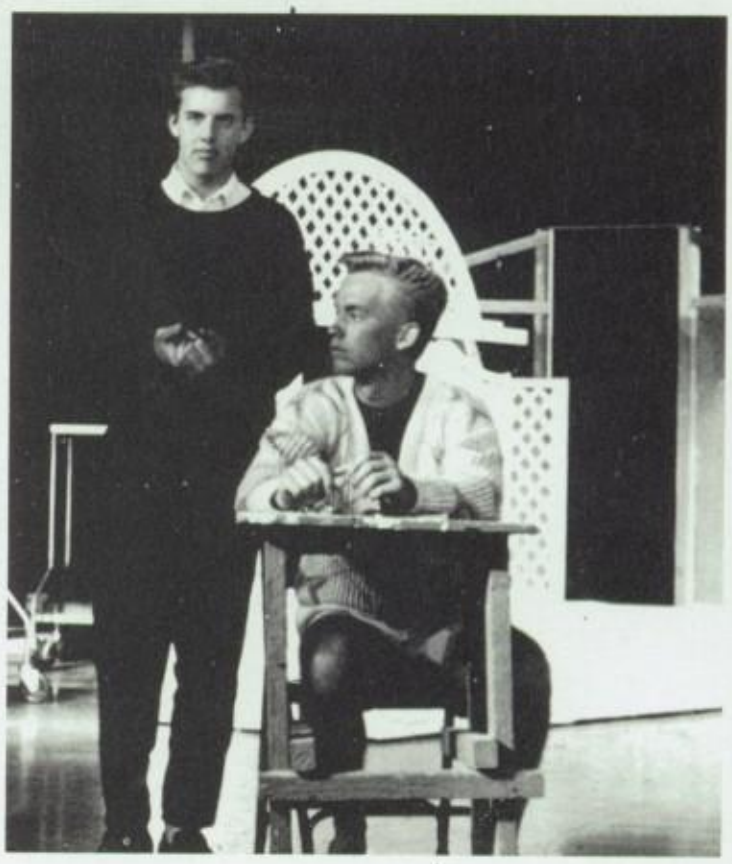
The court consisted of: Senior **King Jon Willard,** *and Senior* **Queen Shawn Magnusen.** *Junior Prince and Princess* **Pat Richards** *and* **Heather McIntyre.** *Sophomore Prince and Princess* **Rob Milo** *and* **Amy Lytle.** *Freshman Prince and Princess* **Aaron Wassinger** *and* **Julie Bennett.** *As the night slowly fades away, you realize it's over too soon, but forever will hold with you the memory of the 1987 Laguna Hills High Winter Formal. (photos numbered in order)*

Spring Musical

The spring musical South Pacific was based on four chapters of James A. Michener's Pulitzer Prize winning novel, co-stars **Erin Reidy** and **Kam Nejad** as the pretty Navy nurse and the middle-aged man who captivated her. The touching, bittersweet story of her heartbreak at learning the fact that he once had a Polynesian wife, forms the main plot. This is echoed in the sub-plot about a lonely, up rooted Marine officer who loses his heart to a dainty Tonkinese girl. **Greg Hendrickson** portrayed the American youth torn between the prejudice he has brought from Princeton and his love for a gentle South-east Asian maiden who was enacted by **Rosanna Zaragoza.**

Some Enchanted Evening





Candy Malim played the mercenary native woman, Bloody Mary, who sang the exotic ballad, "Bali Ha'i." **Denny Faye** enacted the enterprising, irrepressible "Big-Dealer." Luther Billis led a chorus of hard-boiled Seabees in their famous incantation of longing: "There is Nothing Like a Dame." Other leading roles were played by **Matt McDaid** as a preppy Naval Captain and **Paul Mayjack** as a regulation Naval Commander. The LHHS production was directed by **Laura Ott** with **Gerard Jones** as orchestra/vocal conductor and **Joan Neumann** as choreographer, *(more photos in supplement).*

Lip Sync

The 1987 LHHS Lip Sync proved to be another A.S.B. success. Between 7:30 and 9:30 on February 26 and 27, the students and parents of LHHS enjoyed the great performance. The audience sat quietly in the Little Theater as Masters of Ceremony **Mike Castillo** and **Amy Lytle** read the winners of the 1987 LHHS Lip Sync. "Third place," read Mike, "Supremes — **Dave Delmonico, Brian Fleming,** and **Todd Sperber;** second place "Missing Persons" — **Banke,** and first place Elvis — **Greg Hendrickson."** Screams came from the crowd as the winners lined up to receive their much deserved applause and check for as much as $100. As the Associated Student Body closed the door to the theater all that was left was the memory of the 1987 Lip Sync. Students went home with tunes of "You've Gotta Fight For Your Right" by **Greg Still, Charlie Packard, Greg Piazza** and group; Janet Jackson performed by **Shawna Banks** and **Joelynn Tinch;** "It's Getting Late" by **Karisa Kelly** and **Francis Valencia;** "Unchained the Night" by **Heikke Korhohen;** "Who Was That Man" by **Jana Phillips;** "Old Time Rock 'n Roll" by **Mike Castillo;** "King Tut" by **Tara Key.**

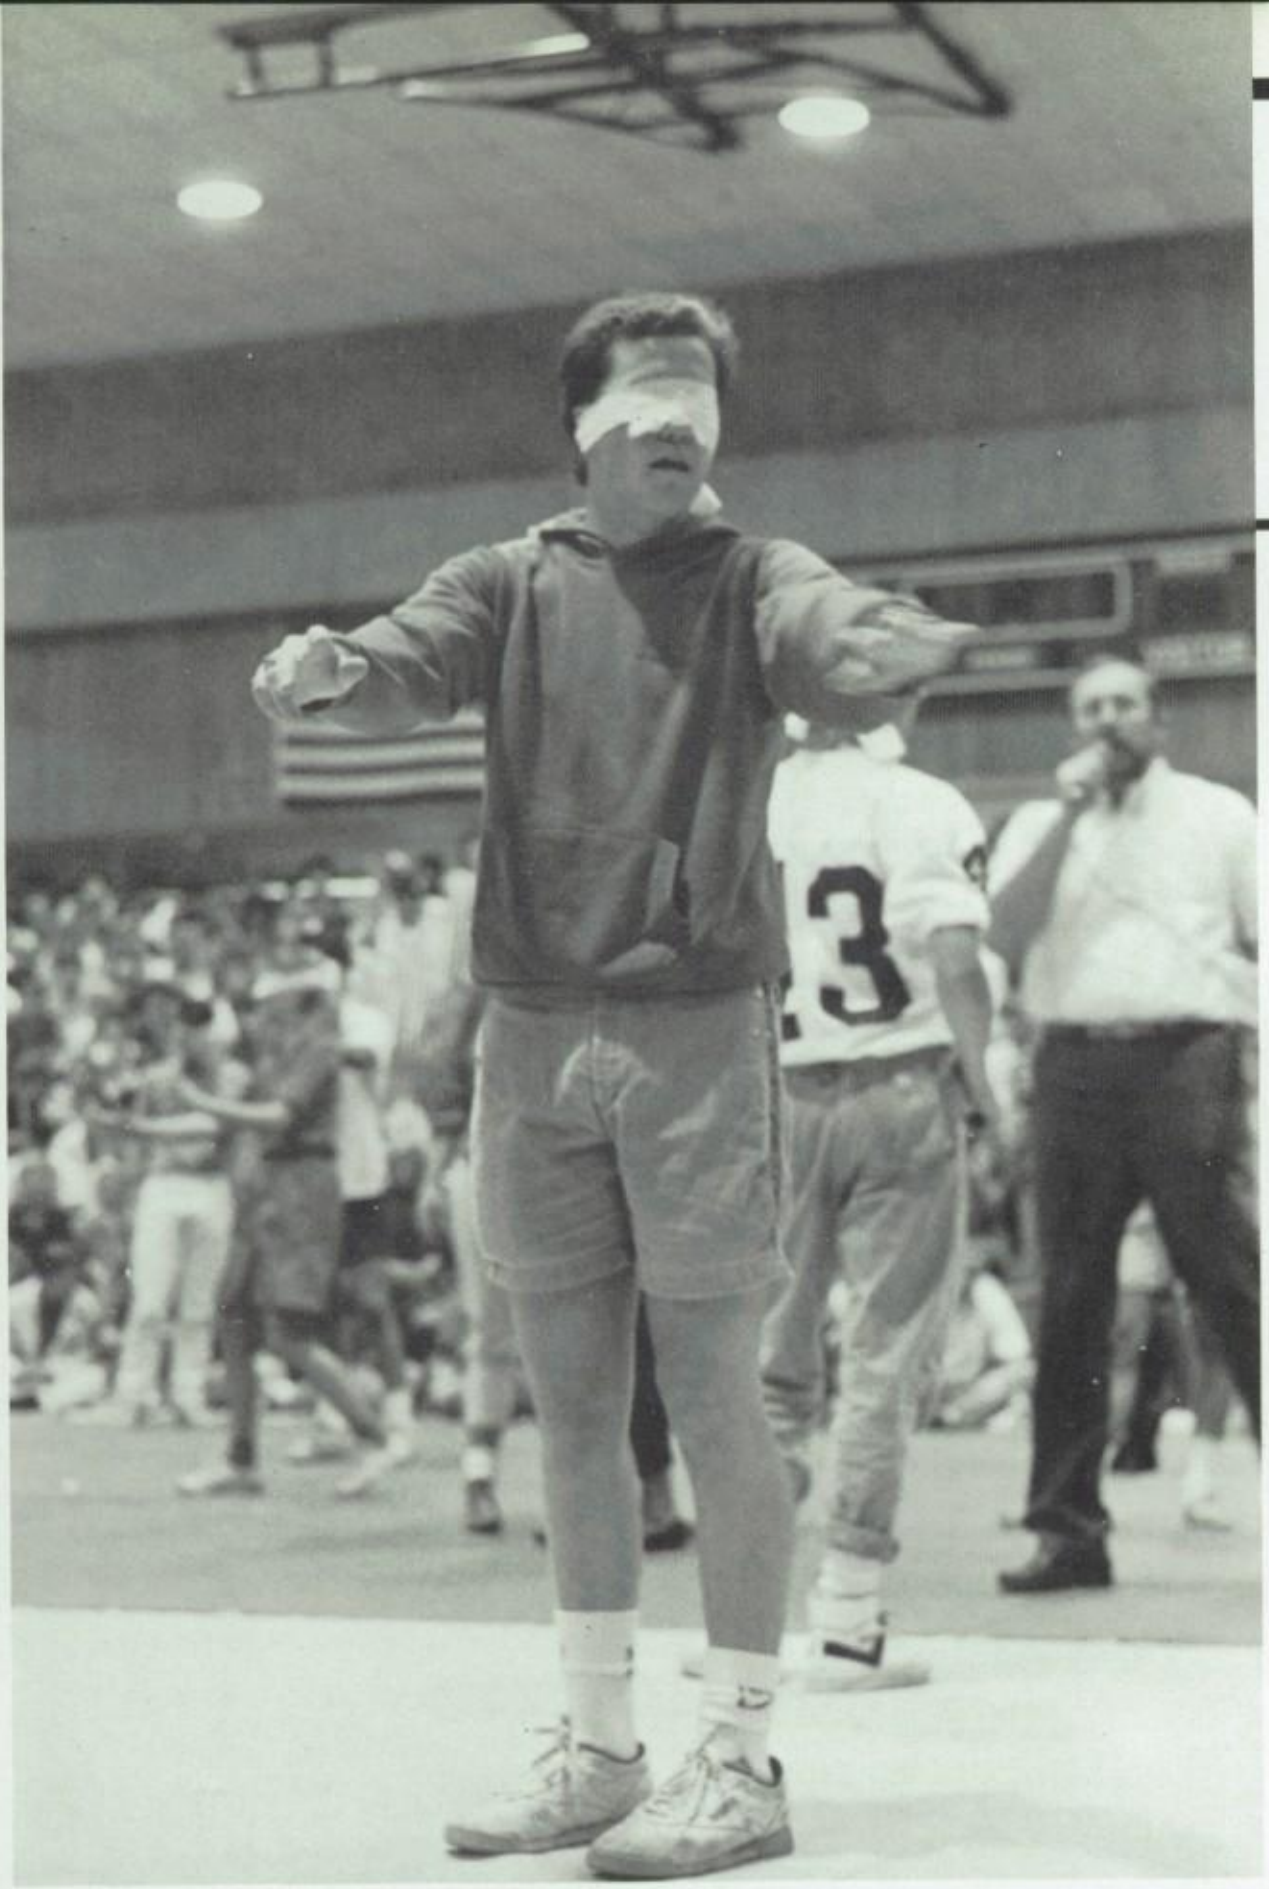
Hawk Assemblies

Johnny Hawk gets down the hawk music. **Dave Delmonico** shows off his best feature in the Varsity Soccer Best Legs competition. **Craig Holly** impresses the crowd with his talent. **Kevin Casagranda** doesn't know where he's going.



We've got spirit,
Yes we do.
We've got spirit,
How 'bout you!?!

Hawks! Go . . . Fight . . . Win! Assemblies show the true spirit of Laguna Hills High School. The awesome Hawks unite! Enthusiasm can be felt throughout the gym. The cheerleaders and colorguard perform their energetic routines for the school. Class competitions are popular because each grade has the opportunity to prove it is better and show its dominance. Each class challenges the other to see who is the best. The Spirit Flag is awarded to the most outstanding and enthusiastic grade. Often cheers are created among the classes themselves to display their increased spirit. Assemblies are dominated by spirit but also revolve around announcing and congratulating certain athletic teams who have exceeded their usual expectations. Each enthusiastic assembly comes to a close by the Hawks uniting to sing their alma mater. Remember Hawks . . . "Brown and gold, forever we stand!"

Underclassmen

"Click, Smile! You're on candid camera! Here we caught **Richard Torres** savoring every last bite of his ice cream while **Nicole Miller** tries to figure out what the person with the camera is doing hiding behind a bush. **Amy Brown** smiles for the camera while **Brian Lorenz** is deep in thought. Others, who are camera shy like **Kristy Page** try to hide behind friends such as **Jason Green.** Once again the hidden camera captures **Tony Gibney** who is oblivious to the snapshot. One last shot catches **Natasha Wenn** excited about her note.

A Choice at Last!

Off Campus Where to Go

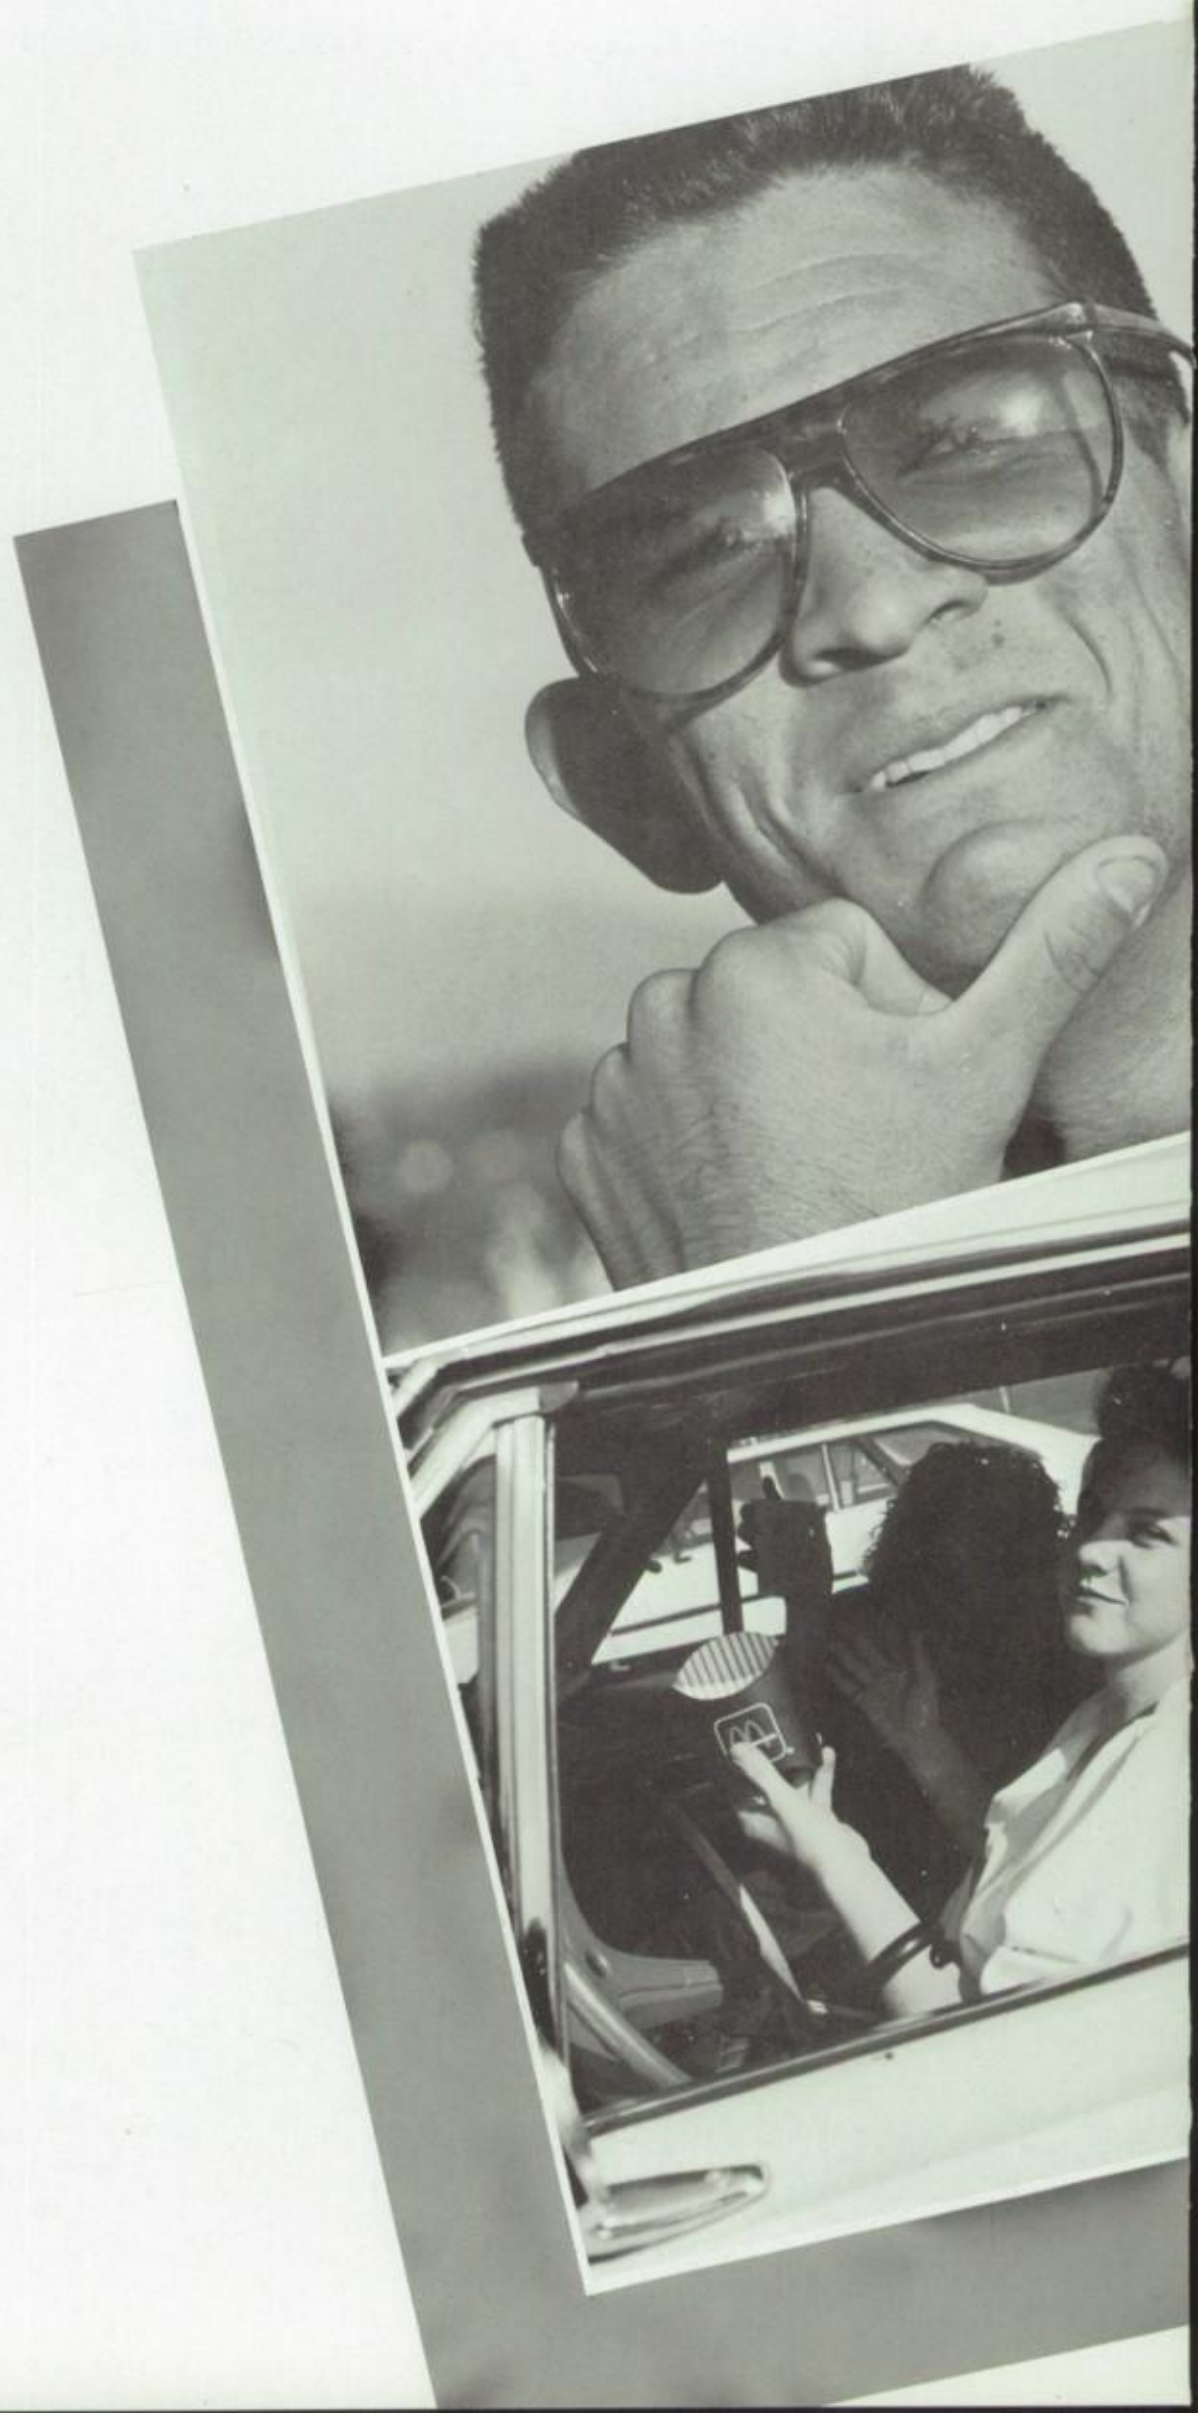
Dinggg! It's 12:32 P.M. and the bell finally tolls its long-awaited signal for lunch. Some hungry students hurriedly race to their cars to try to beat the lunch rush. However, not just any student can go off-campus. Among these lucky few, 50% compose the class of '88.

So where do they all go? Carl's Jr. on La Paz Rd. registers as the prime place to be while Fantasia Yogurt and Del Taco closely follow. When asked why, **Christy Grebel** quickly answered, "Carl's, for their fresh salad bar." **Tony Long** remarked, "I go wherever the driver takes me." With or without a car, juniors manage to go off-campus. Why ruin a great privilege?

Other juniors like **Eve-Marie Williams** prefer Wendy's or Togo's "because they're close and it's easy to get back on time." Heather McIntyre enjoys good ol' McDonald's or maybe a "beef 'n cheddar at Arby's." On the other hand, **Lindsey Rhebeck** suggests going home with some friends because "it saves money and you have more time."

The Junior-Senior off-campus policy not only proves to be satisfying to the stomach but is also a status symbol. "If you want to eat something good, you have to go off," **Brian Casagranda** observed. **Dave Ashcraft** added, "It's a nice break from the school atmosphere." And then there are those who are less fortunate; the freshmen and sophomores are required to stay on campus, but they patiently await their turn to experience the "privilege."

From fast food to fresh salad, from going home to spending money, the Juniors can at last exercise their freedom of choice.



Brian Fleming *ponders over which girl should take him to lunch.* **Mary Jean Helm, Shawna Banks, Shelley Walker,** *and* **Janell Thompson** *pose for a quick one before they take off for Carl's.* **Jason Cozens** *gives a satisfying look after his delicious meal from Del Taco. All gone!* **Kami Trefethen** *says after gobbling down her fries. Racing to beat the lunch time crowd,* **Gene Kim** *battles the traffic.*

The Road to Freedom

Sweet 16

To be a sophomore and to get a driving license often go hand-in-hand. As the sixteenth birthday approaches, excitement mounts. "There will be no more parental units driving me around," one sophomore says.

While fine-tuning their driving skills, sophomores dream of their ideal car. "A white Porsche with a black interior" is **Nancy Kedzierske's** future goal, but her friends, **Marne Palladino** and **Tracy Nelson,** prefer "old cars, especially old Corvettes." Some sophomores must meet certain requirements to receive a car from their parents. **Steve Lee** hopes for a Lamborgini; however, he has to score a 1600 on his SAT first. Financial problems can be obstacles as well. "I will be broke when I get my red Nissan Sentra," comments **Cindy Sicso.** In agreement, **Karen Stevens** worries about gas money for her "cranberry Honda Accord." One lucky sophomore, **Lynnae Delfenbach,** already has her mean machine, "a maroon and red Grand Prix." With all these new additions, the student parking lot sure will be hectic.

Many sophomores also enjoy revealing their sixteenth birthday plans. **Jackie Rathbun,** who is already sixteen, went night club dancing and it was "outrageous." "An awesome guy inside a black convertible Rabbit" is **"D" Shin's** dream gift. She also hopes to find a way to get ninth and tenth graders off-campus, but chances are slim for success. Some birthday parties will be different! **Matt Brubaker** will "hold a seance and worship the Great Carrot Spirit." According to **Gia Doyle,** "you always party on your birthday."

The sophomore year will always be a memorable one for these ex-freshmen. Cars, "sweet sixteen," and more respect from upperclassmen distinguish this special time of their lives.

Krista Wiekamp *looks back with amusement as she eats lunch on campus.* **Ryan Owings** *eagerly awaits the opportunity to celebrate his sixteenth birthday.* **Robert Choi** *has already turned sixteen but now awaits the car.* **Lori Short** *and* **Amy Foster** *are proud to be sophomores, eager to get their driver's licenses.*

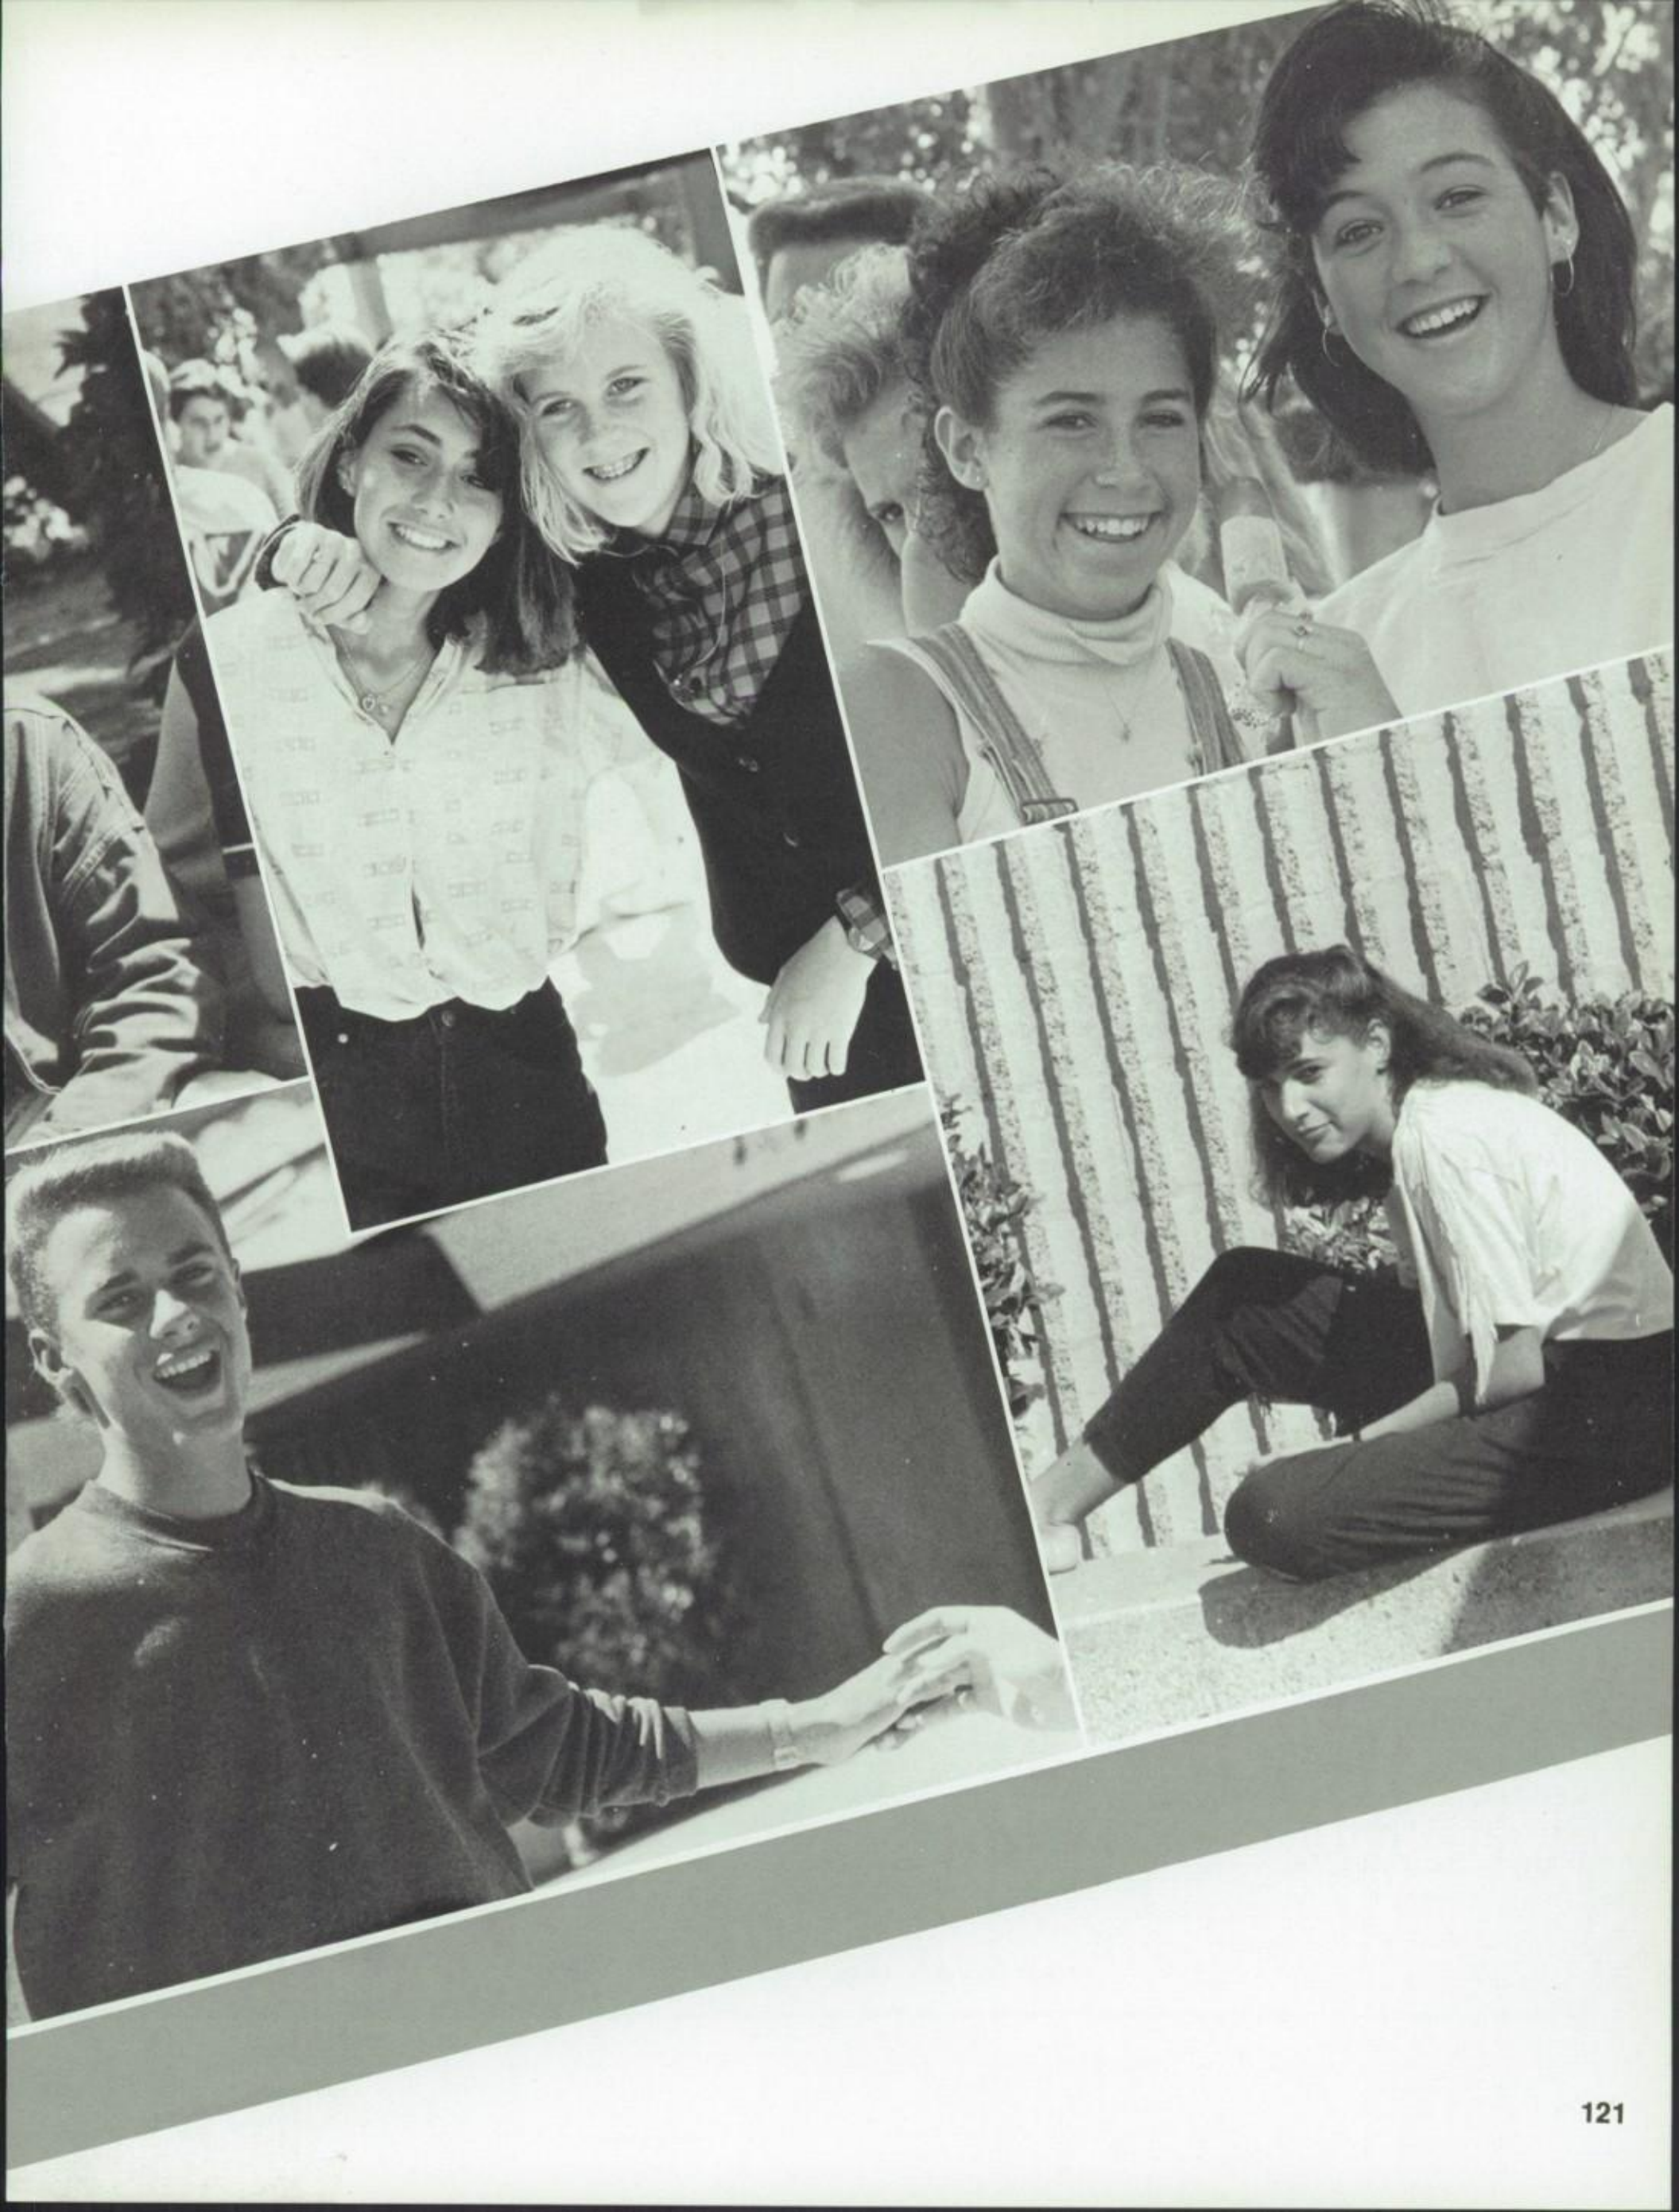
Culinary Delights

And Dislikes

Campus Food

Freshmen are confined to the campus during lunch. So, who better to critique the campus food than the ones who flock to the lunch lines daily? It seems the burritos are a favorite among the freshmen. **Denise Cochrum** recommends them, and sets aside money every day to buy one. **Stephanie Morrison** does the same, although admits she's "too afraid to try other hot food." **Chris Greggs** sticks with the pizza because the "hamburgers are green," disregarding the warning of **Bruce McNeil** that the pizza "tastes like rubber." **Tom Dignan** admits, however, that the hamburgers "do taste good now and then." Others can't afford the so called "over-priced, sub-quality food." **Mike Lee** not only buys the food but works in the lunch line selling it. "It's all pre-packed and high-priced. I'm not sure where it comes from, but I know it's all microwaved." Others like the food, regardless of the price. Though he rarely buys the junk food, **Chris Woolsey** makes it a point to purchase his daily hot dog. He especially likes the efficiency of the line, in contrast with that of his former school. **Marlo Smith** likes everything but the hotdogs, yet suggests that soda be sold because the vending machines "rip the freshmen off or are always empty." Others praise the on-campus edibles such as the cherry pies, chips, pretzels, ding-dongs, popsicles and "all other junk food." **Kim Cozar** looks forward to her daily donuts and her friend, **Amy McDonald** accompanies her in the line to buy " any sort of sweet stuff." Though the comments vary, the general critiques are favorable. The freshmen make the best of their on-campus restriction, and those who prefer not to venture through the lunch lines at LHHS, pack their brown bags full of goodies from home. **Jackie Rhodes,** though her mom "brown bags" her lunch for her every morning, always makes it a point to buy some milk and donuts. **Mike Symons** habitually packs a lunch and awaits the day he too may go off campus for lunch. In the meantime, the majority of the freshmen gravitate toward the lines to buy everything from "tasty sweets" to "nutritional necessities" to achieve their "culinary delights."



Academics

The thinkers: Gary Ridenour and Jenny Jech

Golden Opportunity

With one more hour
Another perhaps
A time of concentration
And education.
We will rise up
Surpass, surprise ourselves
And all of our ambitions.
Maybe even thrust
An unclenched fist
Through an empty cloud
Or pass a golden galaxy
And with some patience
And no little practice
Even touch the lower sky.

Reach out and grab a
Golden handful
Of the nearest cloud
As we sail even with —
Now past —
The sun.

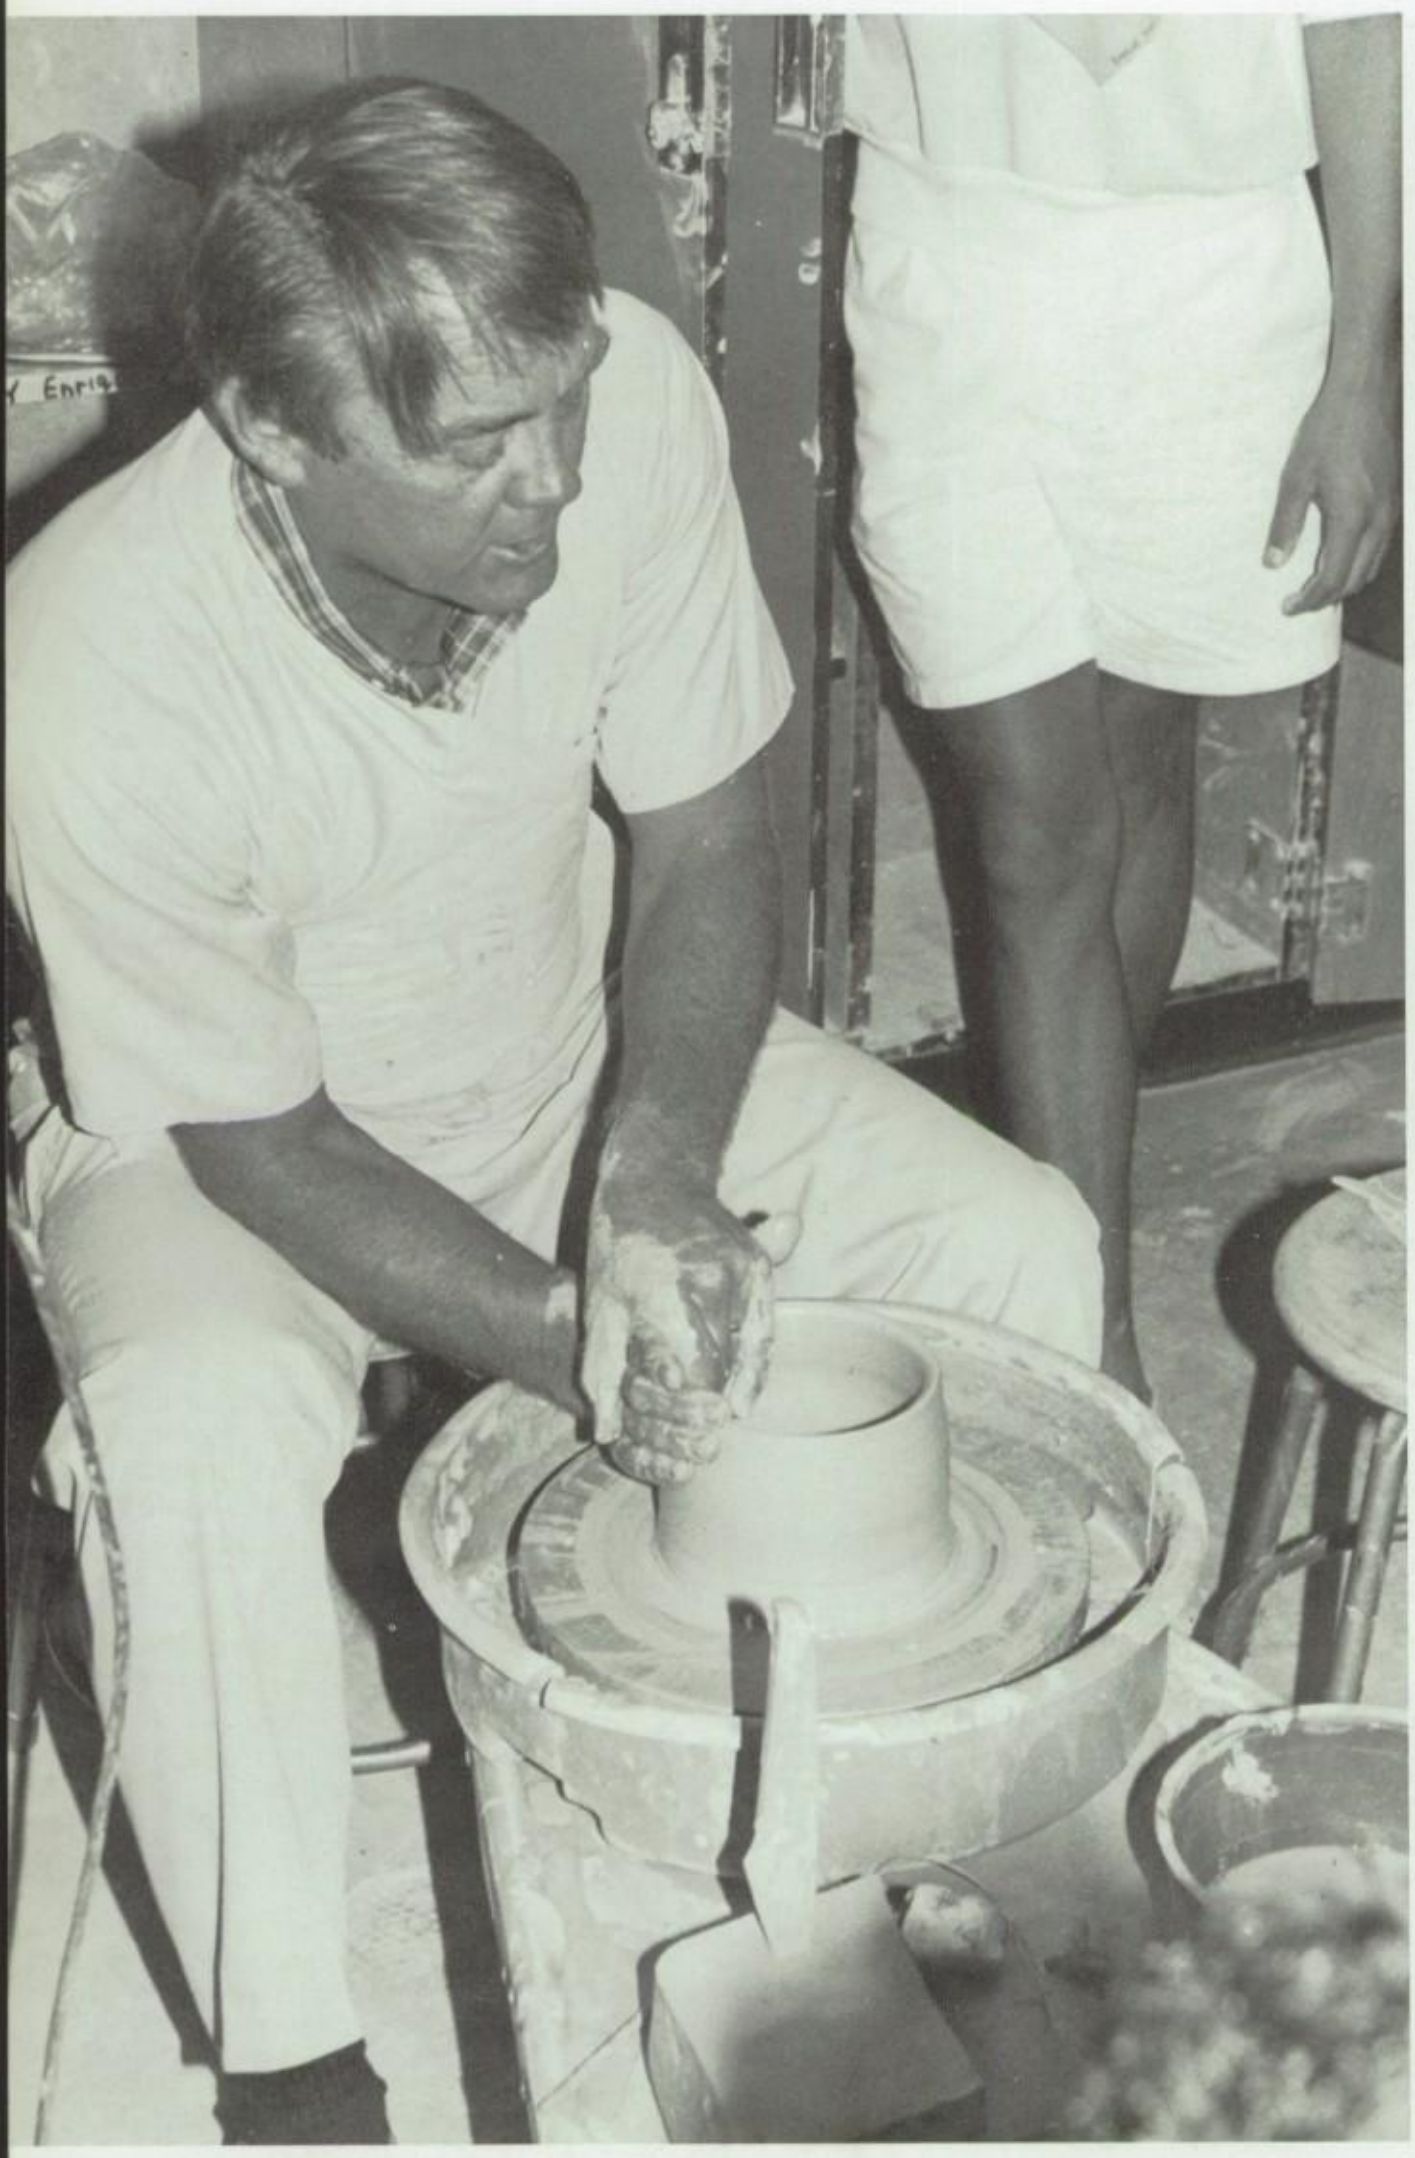
Technical Education

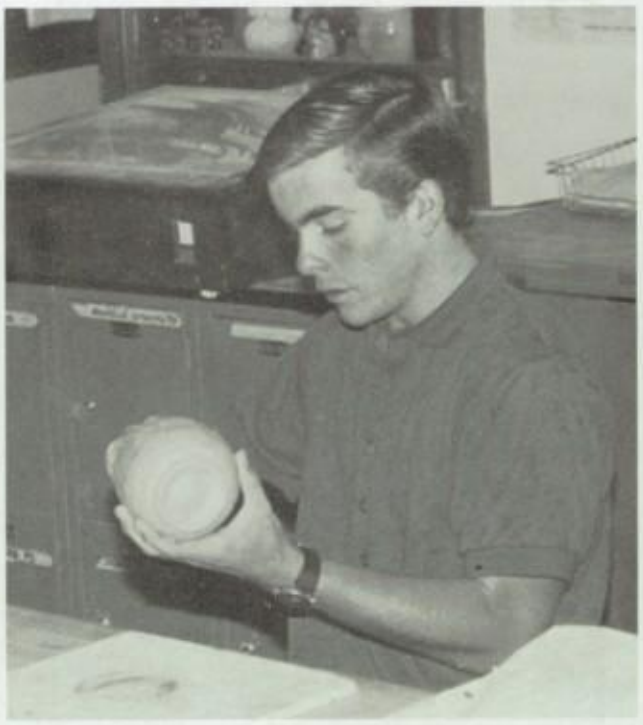
.Future

Auto Shop is a class offered to increase the student's automotive awareness. The students learn the basics of car maintenance and repair and practice general safety inspection measures. **Carolyn Anderson,** the only girl out of a class of twenty-four, is thankful for the opportunity to take such a course. "After taking auto this year, I learned how to handle my car by myself. I don't have to rely on others for help because when problems arise, I have some knowledge of what to do." The students practice oil changes, lube jobs, prevention measures, tranmission checks, and in-class safety tests. "The class takes dedication and commitment," says **Alfred Crabtree.**

Drafting, another technical course offered on campus, consists of both an engineering and architectural department. Students who have accquired basic drafting skills are able to read and interpret technical drawings as well as drafting equipment to communicate ideas graphically. The students gain insights into the manufacturing trades and in post-high school programs in drafting and engineering. "I took drafting because I'm interested in the building trades and a career in architecture. I've found that the class has taught proper design and drafting techniques," says **Mai-Trang Nguyen.** Advanced engineering and architectual students learn about word frame structures and computer application. **Clief Castleton,** an advanced engineering student adds, "I've learned about the capabilities of computer aided drafting through the hands-on experiences in the CAD program."

Greg Piazza *performs a safety check.* **Glenn Oliver** *learns about technical equipment for maintenance.* **John Chamberlain** *and* **Bill Giwoff** *work together on an auto project.* **Alex Marquis** *and* **Rob Ripley** *make a serious and diligent effort in drafting class.* **Charles Park** *relaxes and enjoys his drawings.* **Mr. Hilts** *is always willing to help his students.*





Arts & Crafts

- Creativity

Expressions

Arts and crafts are aesthetic and enriching courses offered at LHHS. Students have taken these courses in order to cultivate their artistic abilities and to provide a relaxing and enjoyable contrast to rigorous academic classes. Experiencing everything from hue formation to the proper degree of pencil shading, the students develop a greater awareness of the techniques involved in painting, drawing, highlighting, weaving, pottery, and ceramics sculpture. "I especially like ceramics. I feel that each piece of art I create represents a feeling, mood, or the backbone of what I wish to express," says **Curtis Stage.** Many students who participate in the arts and crafts discover artistic abilities that had long been overlooked. "I thought I'd never be able to draw, but there were a lot of times that I wanted to. When I first took art, I learned to create objects and artwork I never thought possible. The class was both hard and fun," adds **Yolanda DeCesare.** Others have merely increased their capacity in the field of art. The students are pleased with the individuality and personalization that is involved. The subjects are designed to appeal to the different tastes of the students, and there is ample opportunity to develop personal artistic style. Not only do the "artists" seek to "express their feelings through significant colors or scenes," as **Tami Alms** stated, but many have decided to pursue a career in the field of fine arts. "Since I took art, I realize that I want to enter a career in graphic design," says **Mary Doyle.** And, for those who seek the relaxation arts and crafts has to offer, there is a definite casual and creative atmosphere. **Heidi Lungren** adds, "The class is extremely confortable and stress-free, unlike many scholastic courses."

Mr. Jurgemeyer *shows off his ceramic expertise.* **Corey Gould** *concentrates on his creation. "What shall I make today?" questions* **Kathy McAllister.** *"Don't peek. I'm not done!" says* **Richard Manweller. Marcey Robinson** *touches up her new mug. Students enjoy their crafts class, creating and forming new and original masterpieces.*

ESL

- Language

我剛來美國不久
我很喜歡學英文

ฉันเพิ่งมาอยู่อเมริกา ได้ไม่นาน.
ฉันมีความสุขมากที่ได้เรียน

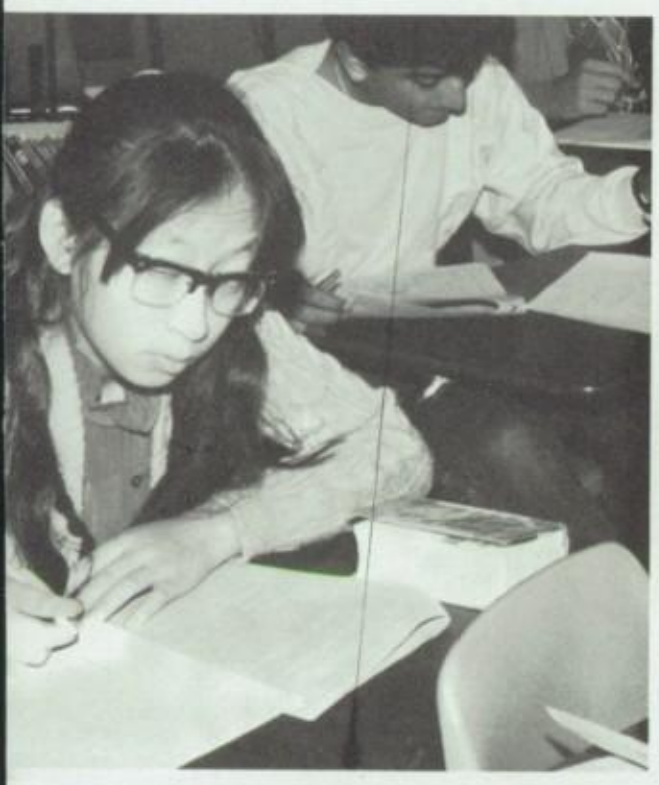
من تازه به امریکا آمده ام و خیلی خوشحالم
که می توانم انگلیسی یاد بگیرم.

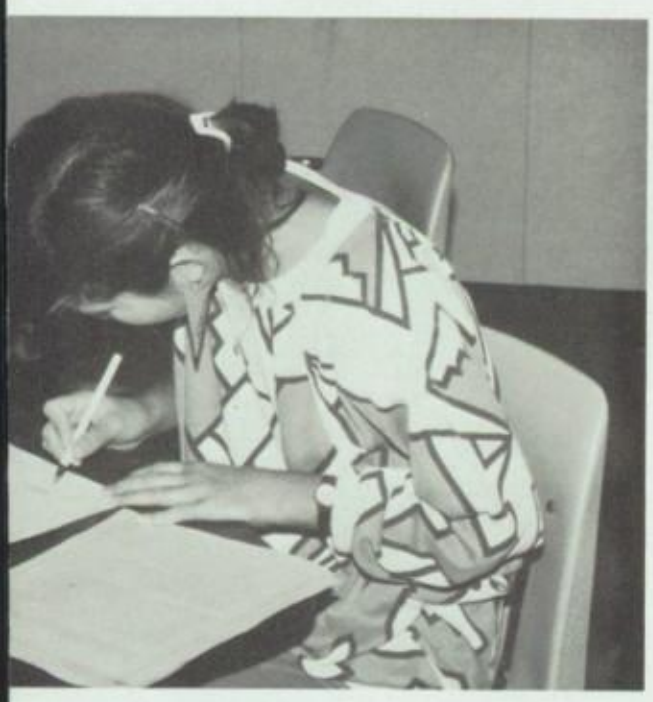
나는 미국에 갓왔으며 영어를 배우게되어 기쁩니다.

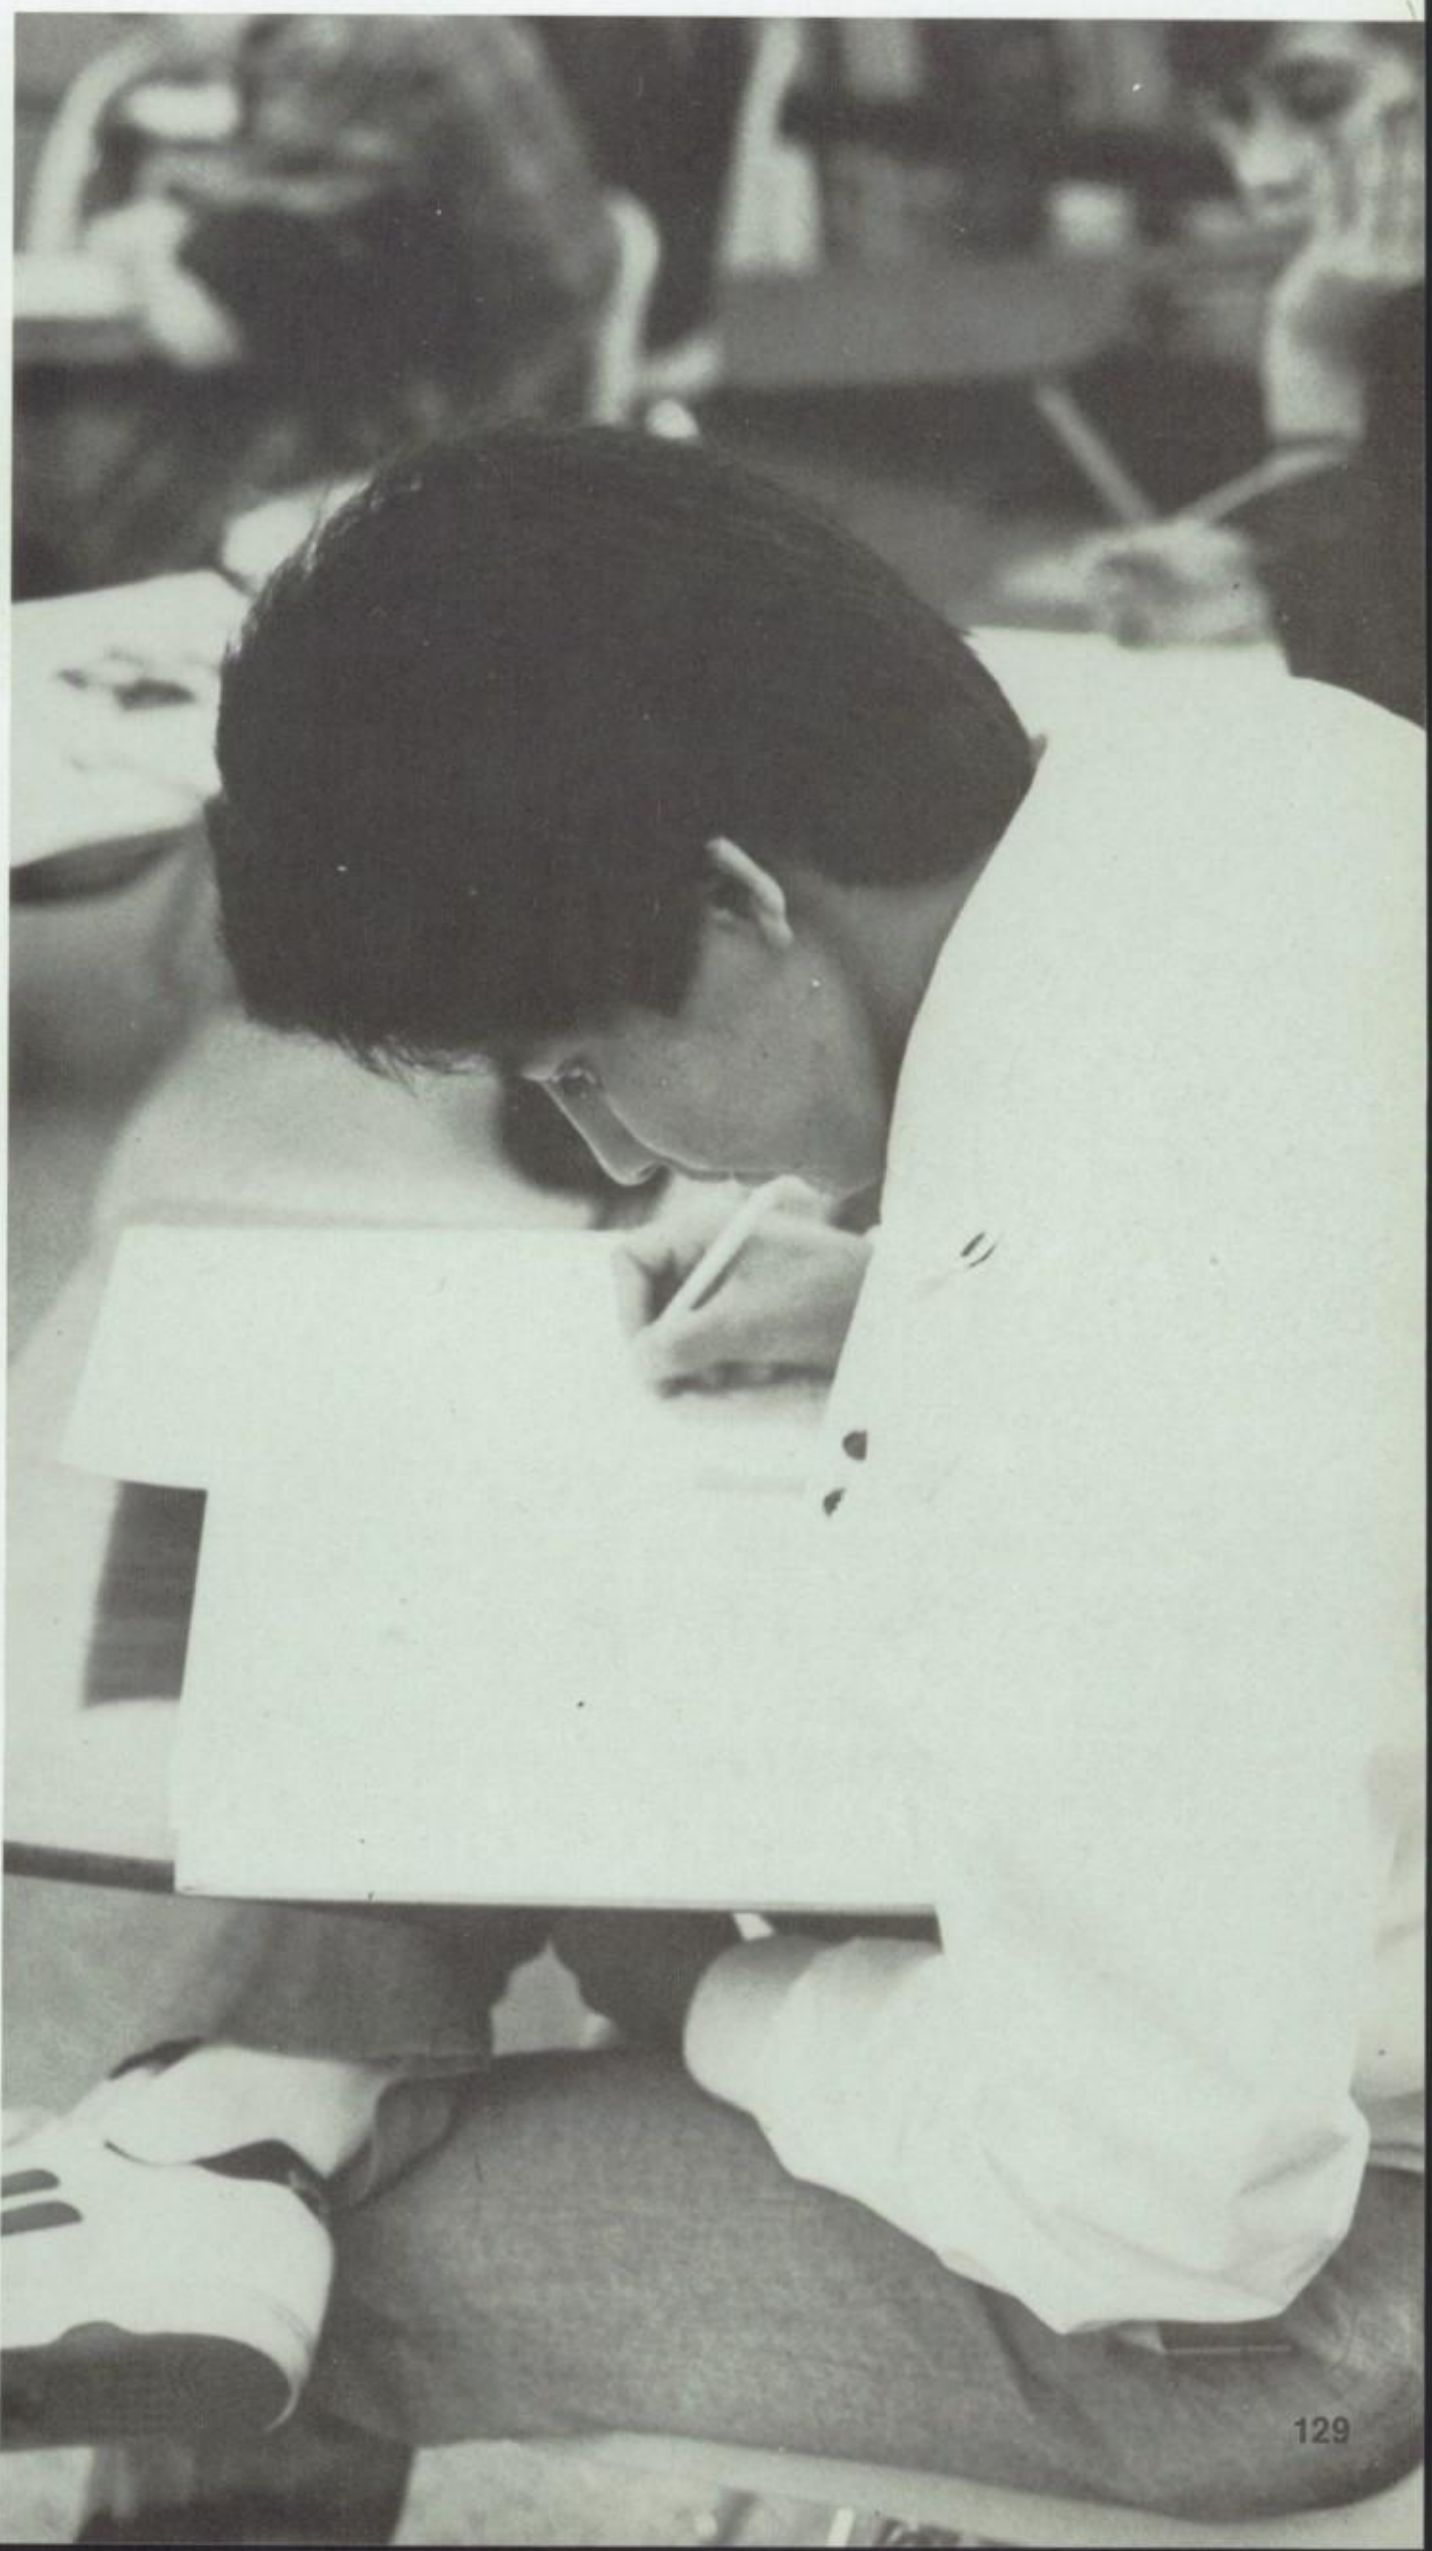
"I am new to this country and I am happy to be learning English." For many newcomers to America (such as the Chinese, Thai, Farsi, and Korean writers above) one of the most difficult obstacles to overcome is the language barrier. Some immigrants have little or no English background and need to acquire basic communication skills. The knowledge of English is especially crucial for the student. In order to make this transition as quickly as possible, these students enroll in ESL, English as a Second Language. There are two periods of ESL, taught by **Mrs. Van Buskirk** and **Ms. Bisson** who have 14 years of experience teaching these classes. **Mrs. Klein,** the teacher aide is a great help to the program.

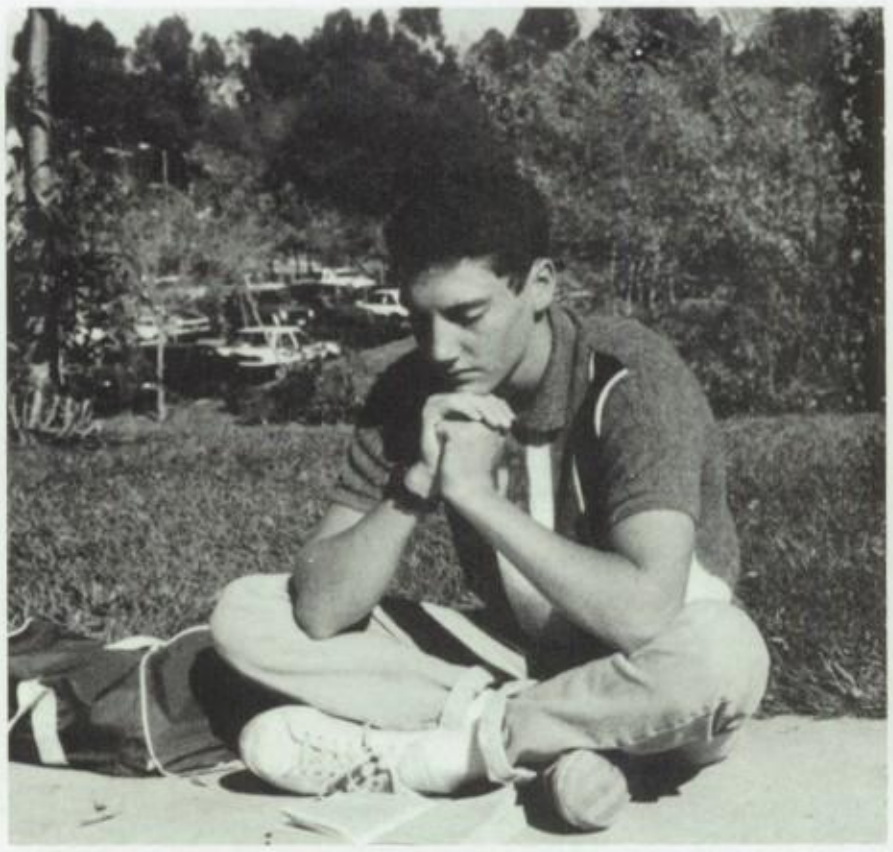
Through the use of pictures and workbooks, students are taught basic vocabulary and sentence structure. Many lessons focus on common situations such as a visit to the grocery store or a conversation between friends. The students are encouraged to use English as much as possible to improve communication skills. Charts and pantomimes are also used in the classroom.

Shabnam Frouzesh, a previous ESL student, remembers best the cultural activities. Each holiday is celebrated and often a special activity, such as pumpkin carving and Easter egg decorating, expose students to American traditions. The average ESL student takes the class for two years. Some students become top achievers in academics. **Ms. Bisson** and **Ms. Van Buskirk** agree that motivation and hard work are keys to success in the ESL experience. In addition to learning the English language, students learn much about America, their new home.



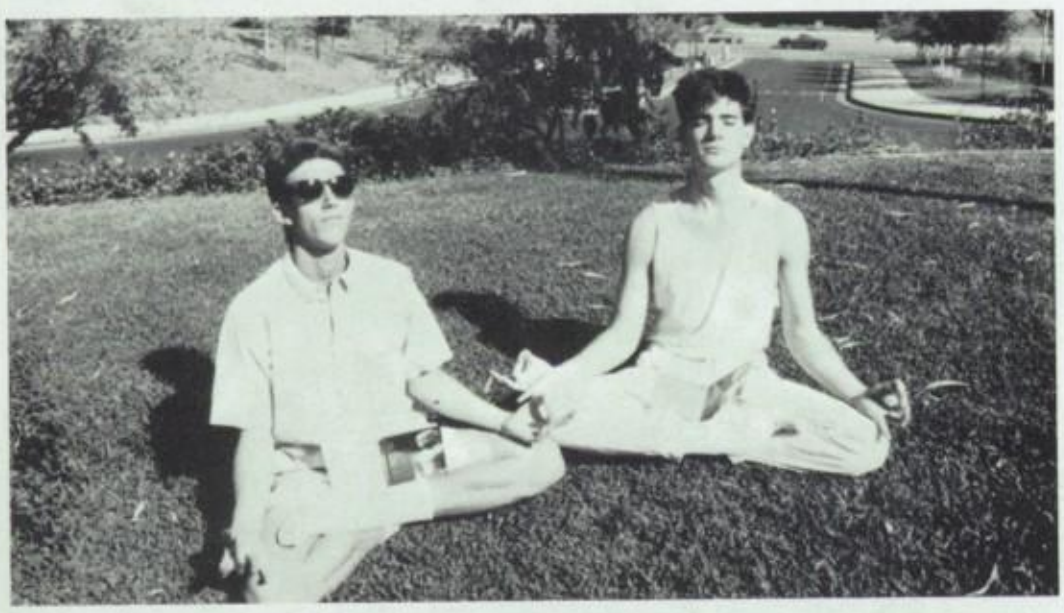






Humanities

– Seniors



Poets & Philosophers

No more stress reads the banner above the chalkboard in Mr. Sisman's dreaded Room 101. However, satire aside, Senior Humanities provides a creative medium for enlightenment, comaraderie, and intellectual growth — the essence of a challenging program conducive to college preparation. Humanities academia consists of AP Government and Politics, AP English, and Honors Psychology all encorporated into two periods. Although it may sound stressful it is more than just countless nights of studying. Humanities allows for one to learn beyond the classroom. The class participates in many cultural excursions that deal with related class subjects. These field trips give the students an opportunity for enrichment and much needed relaxation amidst their stresses and worthwhile accomplishments.

Mrs. Victorson *and* **Mr. Sisman,** *the bookends to a diverse collection of students and Cliff notes, are the instructors of the Humanities block. In the natural environment,* **Jack Miller** *can concentrate on his reading. In Honors Psychology, Mr. Sisman helps the students cope with stress. However,* **Amy Otto** *seems to have taken this a bit too far.* **Jason Ferber** *and* **Marc Carignan** *attain inner peace in the fashion of* **Siddartha. Jenny Todd** *is deep in thought as she synthesizes another brilliant essay.*

American Studies

-Juniors

Challenge & Creativity

Hardwork, lasting friendship, and study groups are only a few words to describe Junior Humanities. **"Mr. Gunderson** and **Mr. Stonebarger** make it enjoyable," comments **Sabina Malik.** Considering the course includes preparation for the Advanced Placement U.S. History test in conjunction with English III Honors, incorporating fun with learning is the ticket to success. A noticeable characteristic of the double-block course is the comraderie of the students. "Through honors, you meet your long term friends," observed **Shazeen Mufti. Diane Song** agrees and states, "Many of our friends in Honors are also enrolled in the same math, foreign language, and sciences classes." It is no wonder why study groups are a frequent practice among these special students. "It adds spirit to the class," says **David Hall.** Some memorable activities include the "Nature Walk," and stealing Mr. Gunderson's gavel. The Junior Humanities have gained true insight into academic growth and will be prepared to move on to yet more challenges.

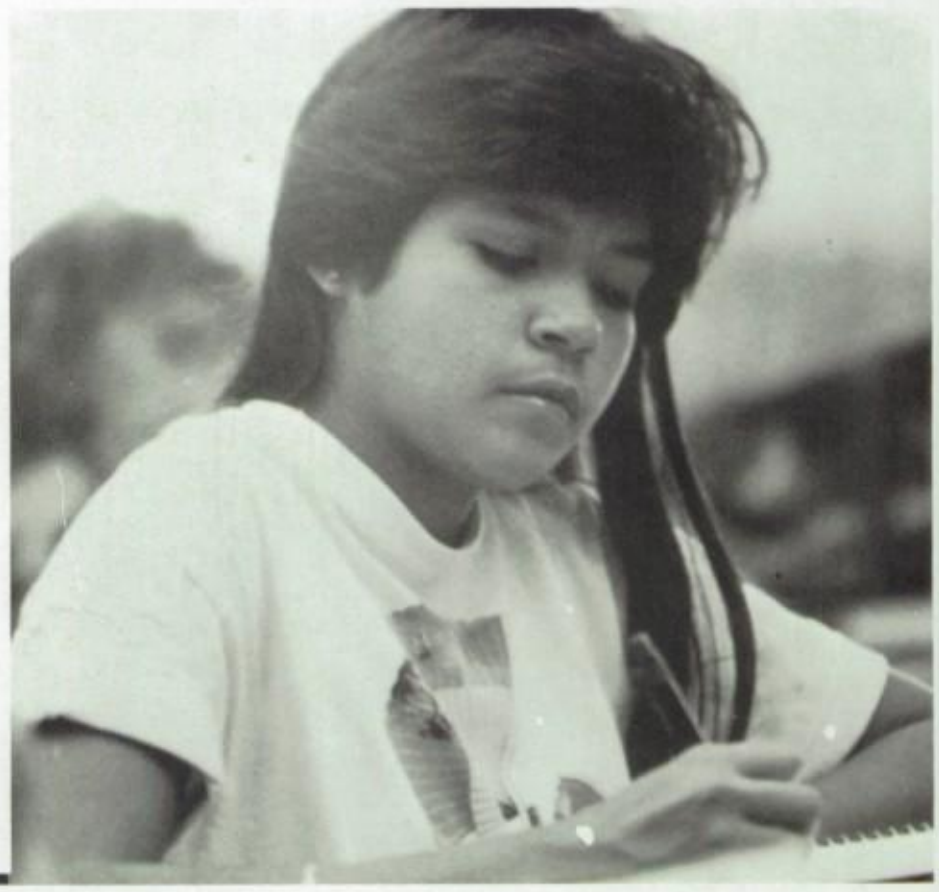
Lynn Lambert *tries to keep up with Mr. Stonebarger's lectures. Meanwhile,* **Don Hess** *is amazed with all the knowledge he is gaining.* **Kevin Casagranda** *seems to find History amusing while* **Todd Wolfe** *can hardly stay awake. Finally,* **Stoney** *sneaks in for the last picture with* **Jenny Foster.**

European Studies

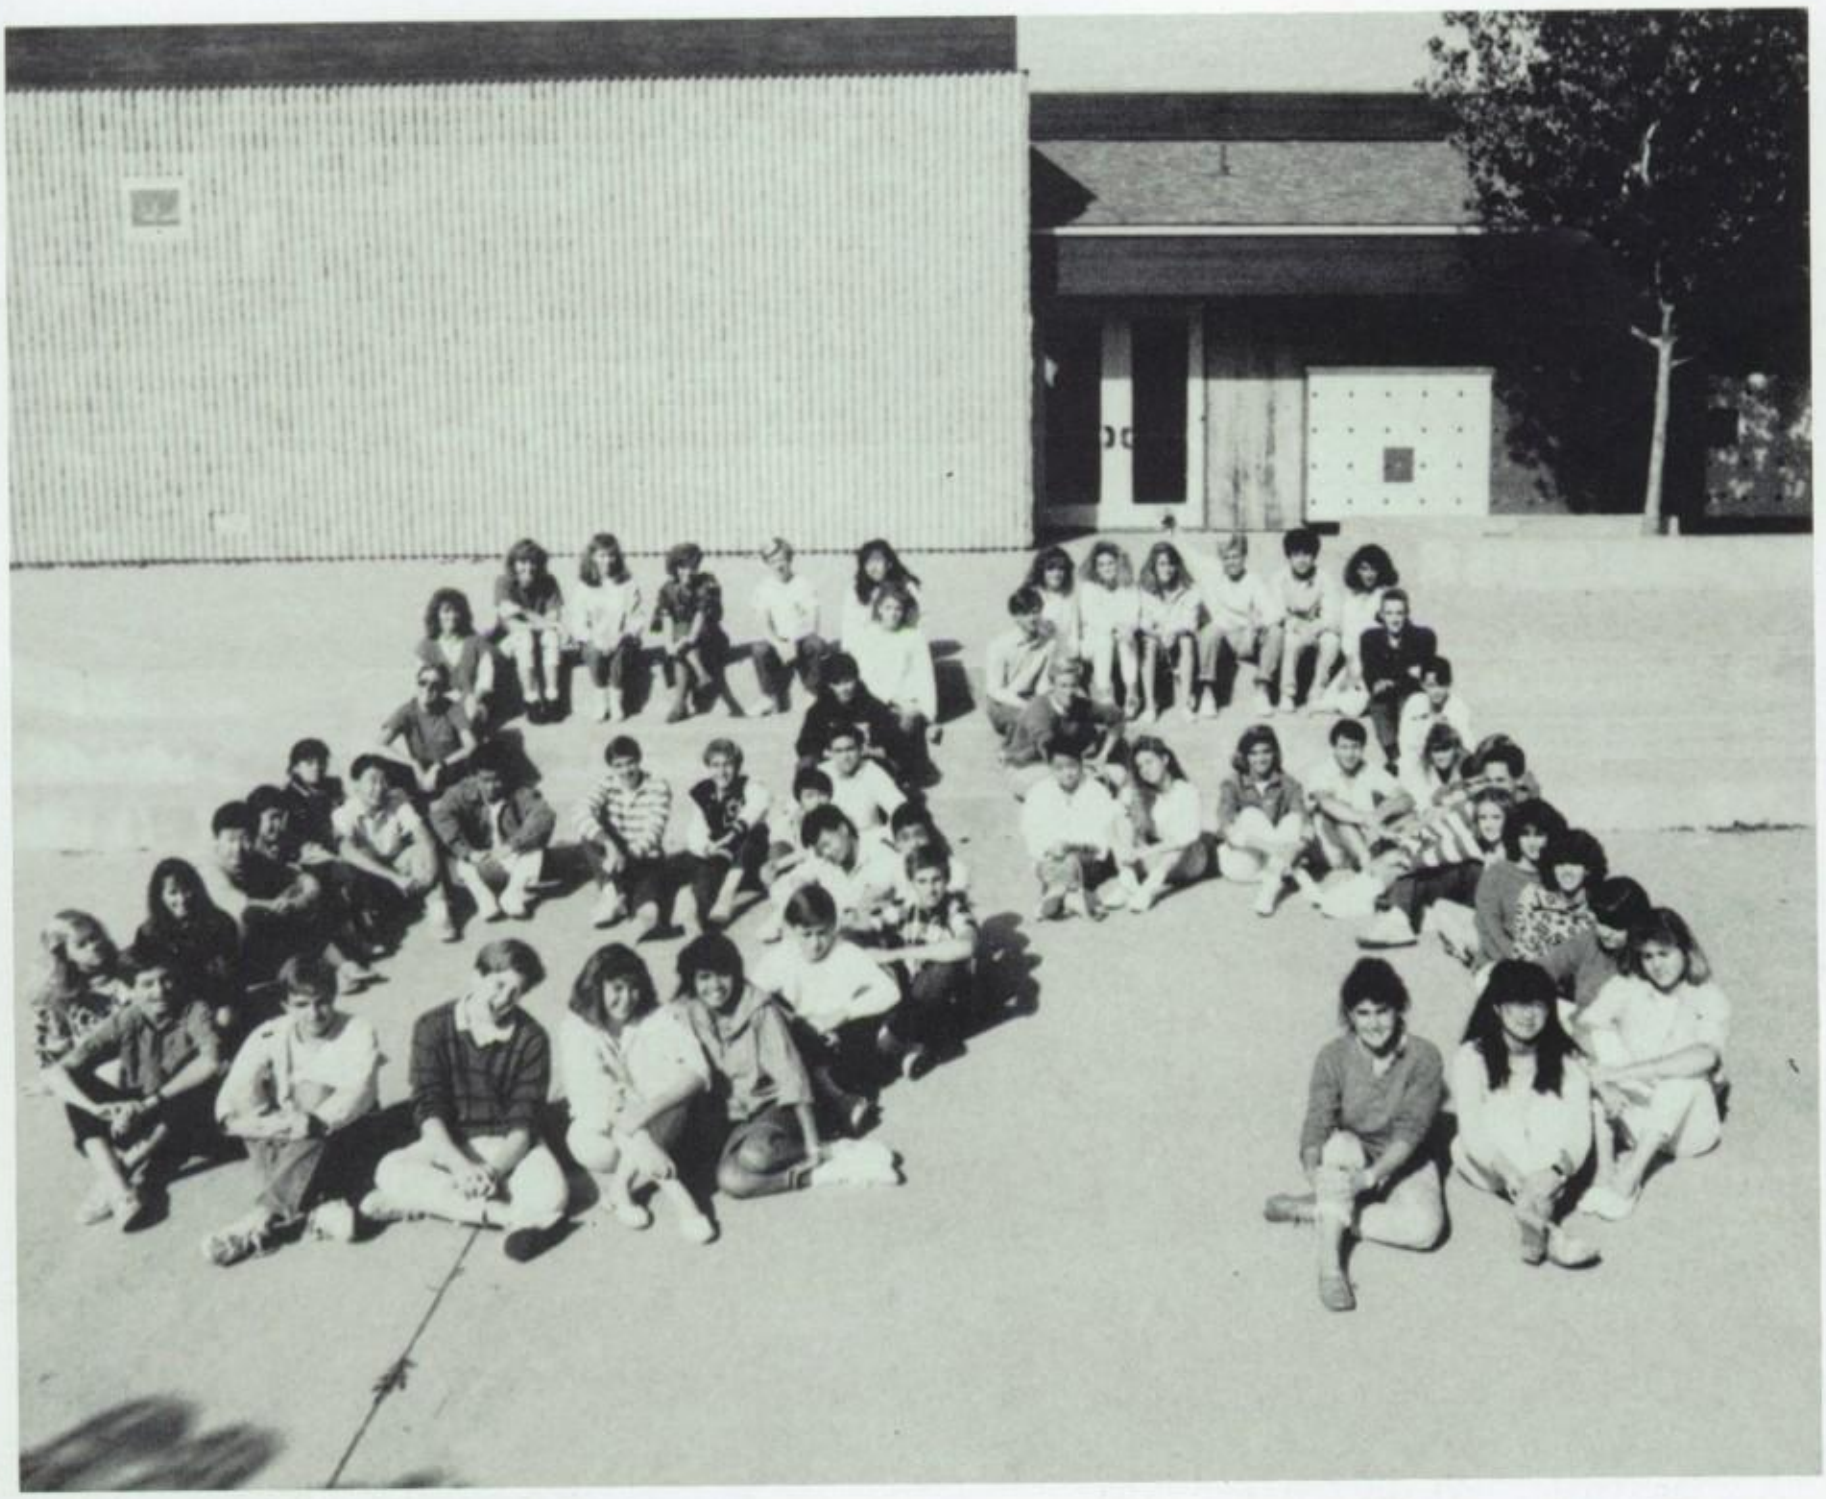
- Sophomores

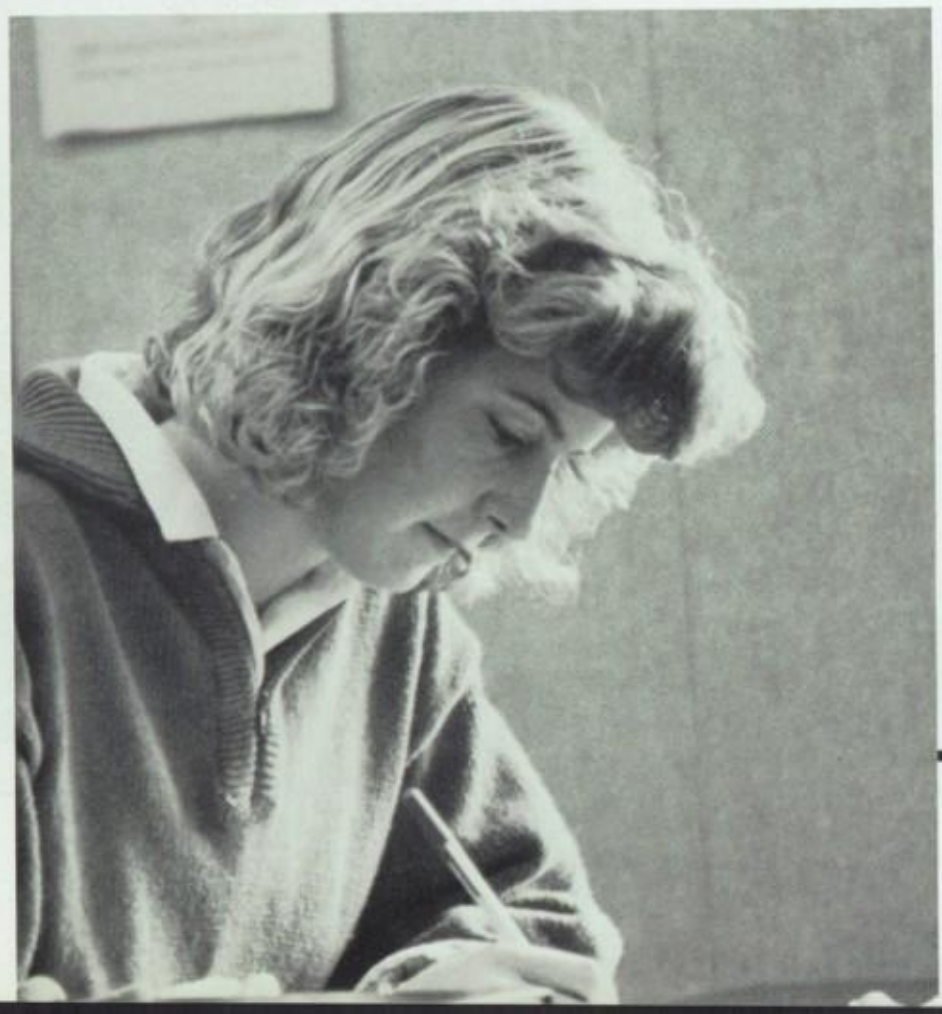
Agony & Ecstasy

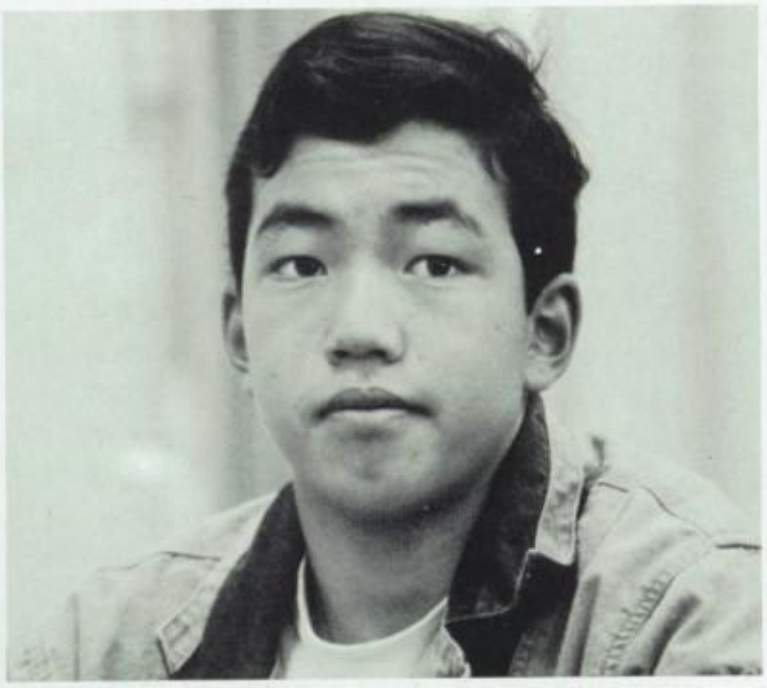
This year Sophomore Humanities consists of an English Honors class led by **Mrs. Bangert** and a new addition, European History A.P., taught by **Mr. Weinberger.** In the English class, students rapidly accumulate knowledge of subjects from the medieval times to the modern. Students are continuously pressured by due dates on research papers, comparison papers, quarterly tests, and even individually interviewed oral essays. If students pass the Advanced Placement European History test in May, they will receive college credit. "This year has been incredible," comments **Mindy Hill.** "I learned more than I thought possible in one year." Sophomore Humanities is definitely a "rewarding experience," according to **Heather Hare** and will have a great effect on the students in the future.



Tony Gibney *looks up, awaiting his next assignment.* **Guadalupe Martinez** *devotes careful attention to an in-class essay that must be completed. A united sophomore humanities spells out their graduating year, 1989.* **Lynnae Diefenbach** *is deep in thought as she proofreads an essay she has written.* **Eddie Baker** *sports a bewildered expression, wondering why he took humanities in the first place.*







Humanities

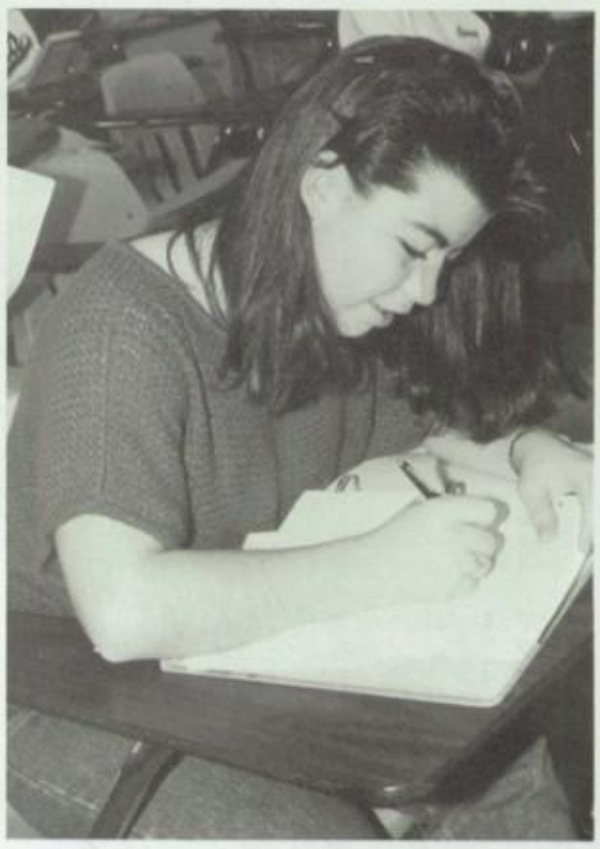
-Frosh

Enrichment

The class of 1990 will be the first LHHS students to participate in the world famous International Baccalaureate program. Honors students who choose to participate as full diploma scholars will study from a balanced curriculum of Humanities, Philosophy, Mathematics, Sciences, participate in charitable and creative projects, and write an original thesis. Full diplomas can earn a year of college credit at many universities throughout the world. Limited participation in the prestigious program is also available.

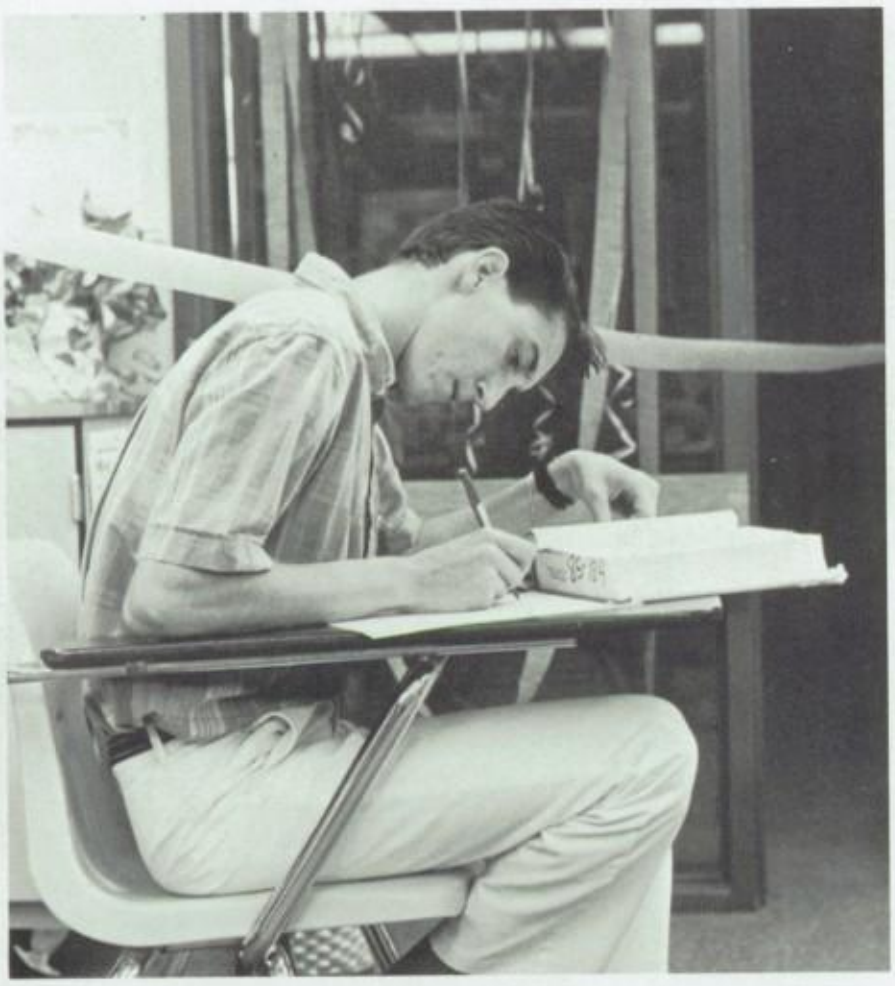
Freshman Humanities, an academic block of English Honors and World Cultures Honors, is a world within itself. The students experience higher education and an increased awareness of their surroundings. The block is designed to prepare the students for both college preparatory courses that they will be taking later in high school as well as college itself. "Humanities is interesting and adventurous. There is a lot of extra work involved, but it will pay off," says **Stephanie Lichtman.** "The overload of homework is worth the intellectual stimulation we receive," adds **Twyla Sauro.** The pressure is high to succeed among these students, but they agree that the daily challenge they meet is worth it. "Being in Humanities is an enriching experience that contributes to the well-roundedness of each of us," says **Doug Equils.** Others add that their involvement in the academic block is "cool and exciting." Presented with assignments that go beyond what is commonly expected, the students learn to think on their toes and open their minds to new possibilities in learning. At times, the students would like the load to be lighter, but the anecdotes that arise seem to compensate. "Whenever I feel the amount of homework is too much, I have to stop and laugh. **Mr. Taylor** is always making sound effects and jokes," says **Jeffrey Cook. Damon Sandler** adds, "The lectures we sit through don't seem so monotonous with the weird stories **Mrs. Lane** interjects." Overall, Freshman Humanities is a challenge and advantage, and as **Sharon Oh** adds, "it's even fun!"

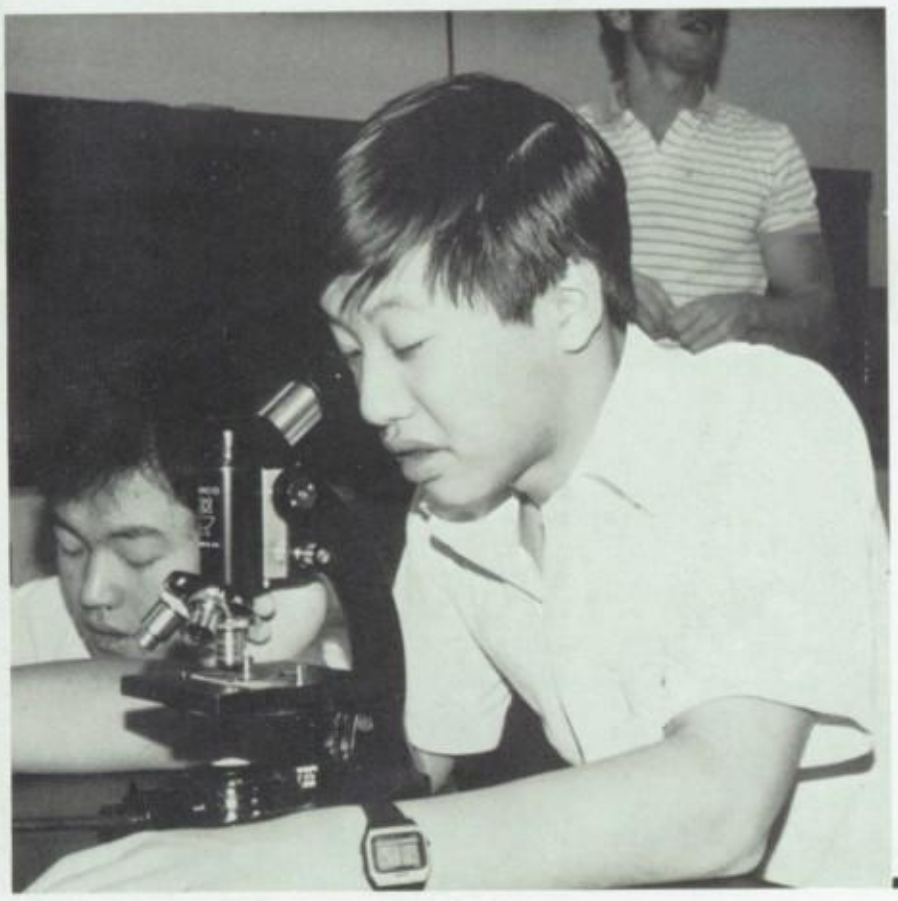
PARCO



Math & Science

- High Tech





Quirks & Quarks

Numbers, formulas, and concepts . . . these are the typical tools that an LHHS math or science student utilizes. Since three years of math and two years of science are required for upperclassmen (and even more for underclassmen) many Hawks find themselves carrying those Algebra and Biology books around.

Students enroll in a variety of subjects available to them. The mathematics field ranges from regular high school math like Algebra I to advanced Calculus. Math can also be taken through the Business Department in the form of Accounting. Whatever level they choose, students can sharpen their skills and learn new ones.

Some skills are already applied in many science classes. The science department consists of such classes as Anatomy and Environmental Science, all the way to Advanced Placement Physics and Chemistry Honors. Whether the class is easy or difficult, students enjoy lab experiments, informative films, and individual reports.

Math and Science are necessary components in education for the high tech world of the future.

I think that ameoba likes me! It just winked at me: **Jenny Jech** *tells* **Farzeen Mufti.** *Then, Jenny takes a second look to make sure.* **Bridgit Corich** *concentrates intensely on a difficult trigonometry problem. However,* **Phil Walton** *decides he's had enough algebra and takes a break.* **Alan Short** *is committed to solving the math proof.* **Henry Chen** *explains, "Ugh! That's what a paramecium looks like."*

Mock Trial

Law

Competition

LHHS Mock Trial team is a competitive and challenging law team that participates in the practice of law and competes in a mock court case. Consisting of both a defense and a prosecution team, the group has been extremely successful. The defense attorneys, **Catherine Myers, Kim Donihue,** and **Susan Flintzer,** and the prosecution attorneys, **Matt Manweller** and **Michelle Lostracco,** took advantage of their assertive and argumentative qualities. There were also witnesses who were crucial in crediting the case: **Diane Song, Chris Brozek, Eric Schrader, Nicci Klein, Paniz Bagheri,** and **Tanya Sampson.** The team competed in a series of three rounds at the Santa Ana Court House and the cases were evaluated by an actual judge and a practicing attorney. "I am very proud of this year's Mock Trial team. They rank among the best Mock Trial teams that LHHS have ever had," said **Mr. Sisman,** the advisor and coach of the team. The final scoring results were exceptional — the team placed ninth out of 48 schools overall. Matt Manweller was individually ranked among the top 12 attorneys out of 280. He was awarded an Honorable Mention for his commendable participation. "I've received incredible experience in dealing with genuine court room procedures. The competitions were extremely realistic," added Matt.

The benefits of participating as a Mock Trial member were plentiful. "Being an attorney confirmed my desire to become a lawyer. I enjoyed everything from debating and cross-examining to dressing in professional attorney attire," said **Susan Flintzer.** The team learned court room etiquette, and increased its awareness of the judiciary system. Extensive practices were held as the team met daily as a class and additional after-school practices. The penalty for false testimony during practice was to supply a bag of M & Ms for the team. **Kim Donihue** states, "The dedication and commitment Mock Trial required was well worth the effort. As a defense attorney I found it both exciting and ruthless to present our case in the court room." The team members developed close friendships. Not only was Mock Trial informative and challenging but all would agree that it was also entertaining and beneficial.

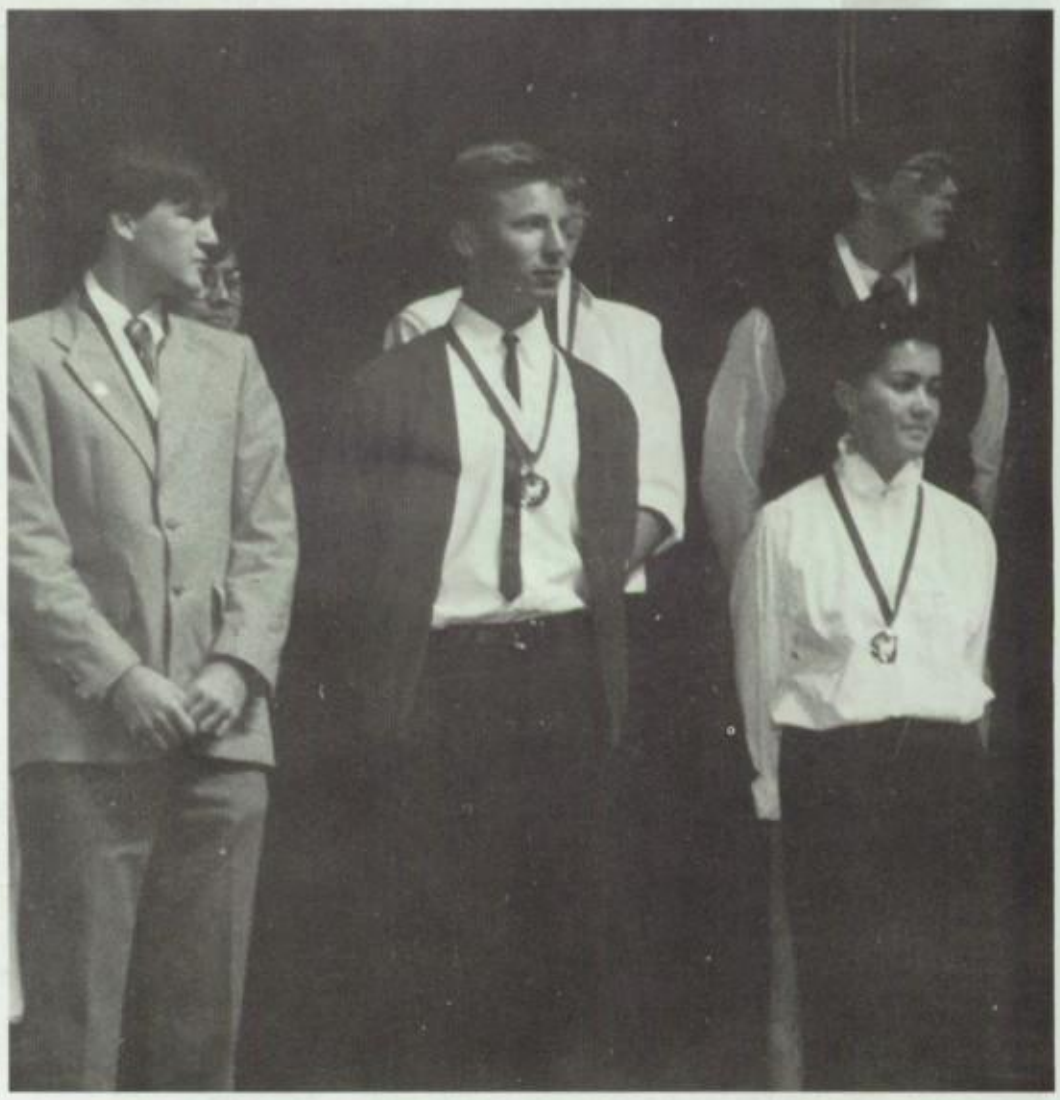
Academic Decathlon

Victory

Excellence

LHHS Orange County Academic Decathlon team, or OCAD, is a highly motivated and competitive academic team. The students compete against other schools in hopes of advancing to the state and national levels. Each member is tested in areas of English grammar and composition, speech, fine arts, social science, health, economics, current events, science, and mathematics. There is a junior-senior team, a sophomore team, and a freshman team, each consisting of six members. The team meets daily as a class to prepare for the competitions held in November, February, and May. Within the team, there are close-knit relationships and determination to achieve superior results. **Robert Cone,** a senior participant adds by preparing so often, the team members "have come to know the minds of each other intricately." They have often met outside of school, and the efforts have been profitable. "We were the only school in the Saddleback District to place in the top ten. I was excited," said another junior-senior member, **Jenny Jech.** LHHS placing first in the Saddleback Valley Unified School District each year since 1982, has kept us an outstanding tradition.

Some memorable episodes have left an impression in the minds of the team members such as Mr. Gunderson singing a Lyke-Wake Dirge with a Seventeenth Century Scottish dialect accent or making a speech on mail order brides from Asian countries. The students are optimistic about scoring well, and, as **Jeff Forester,** a sophomore team member adds, OCAD is a "great deal of fun, a place to make a lot of friends, and worth the hard work." **Leonard Weber,** a Senior team member who was called into Mr. Gunderson's room and informed of his participation says, "even though he drafted me by surprise two weeks into the new semester, I'm glad I accepted." **Mr. Gunderson** and **Mrs. Lane** have coached the team in a special class and have led the team to victory.



Leonard Weber *is called to the Podium for his first medal.* **Robert Healey** *and* **Jenny Jech** *proudly represent the LHHS team among the other students at the awards ceromony. At Play

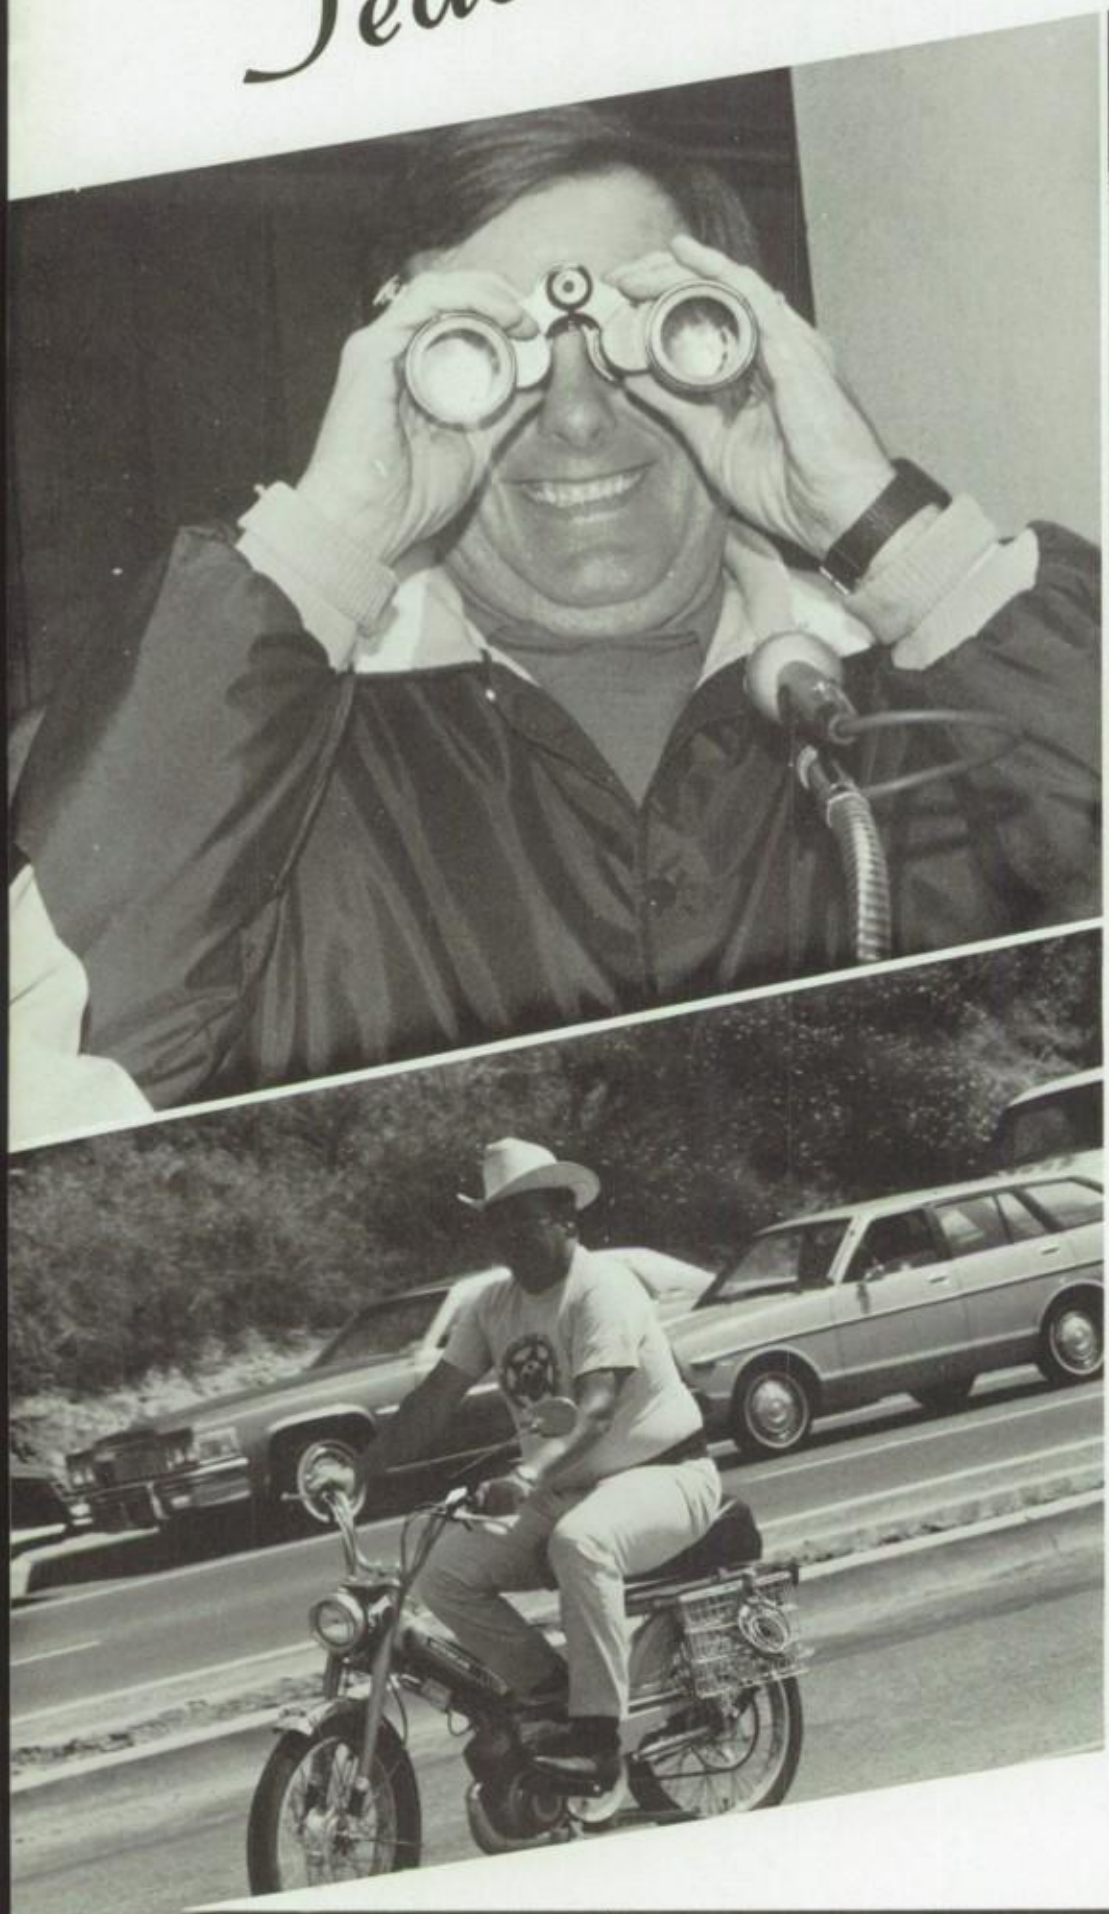
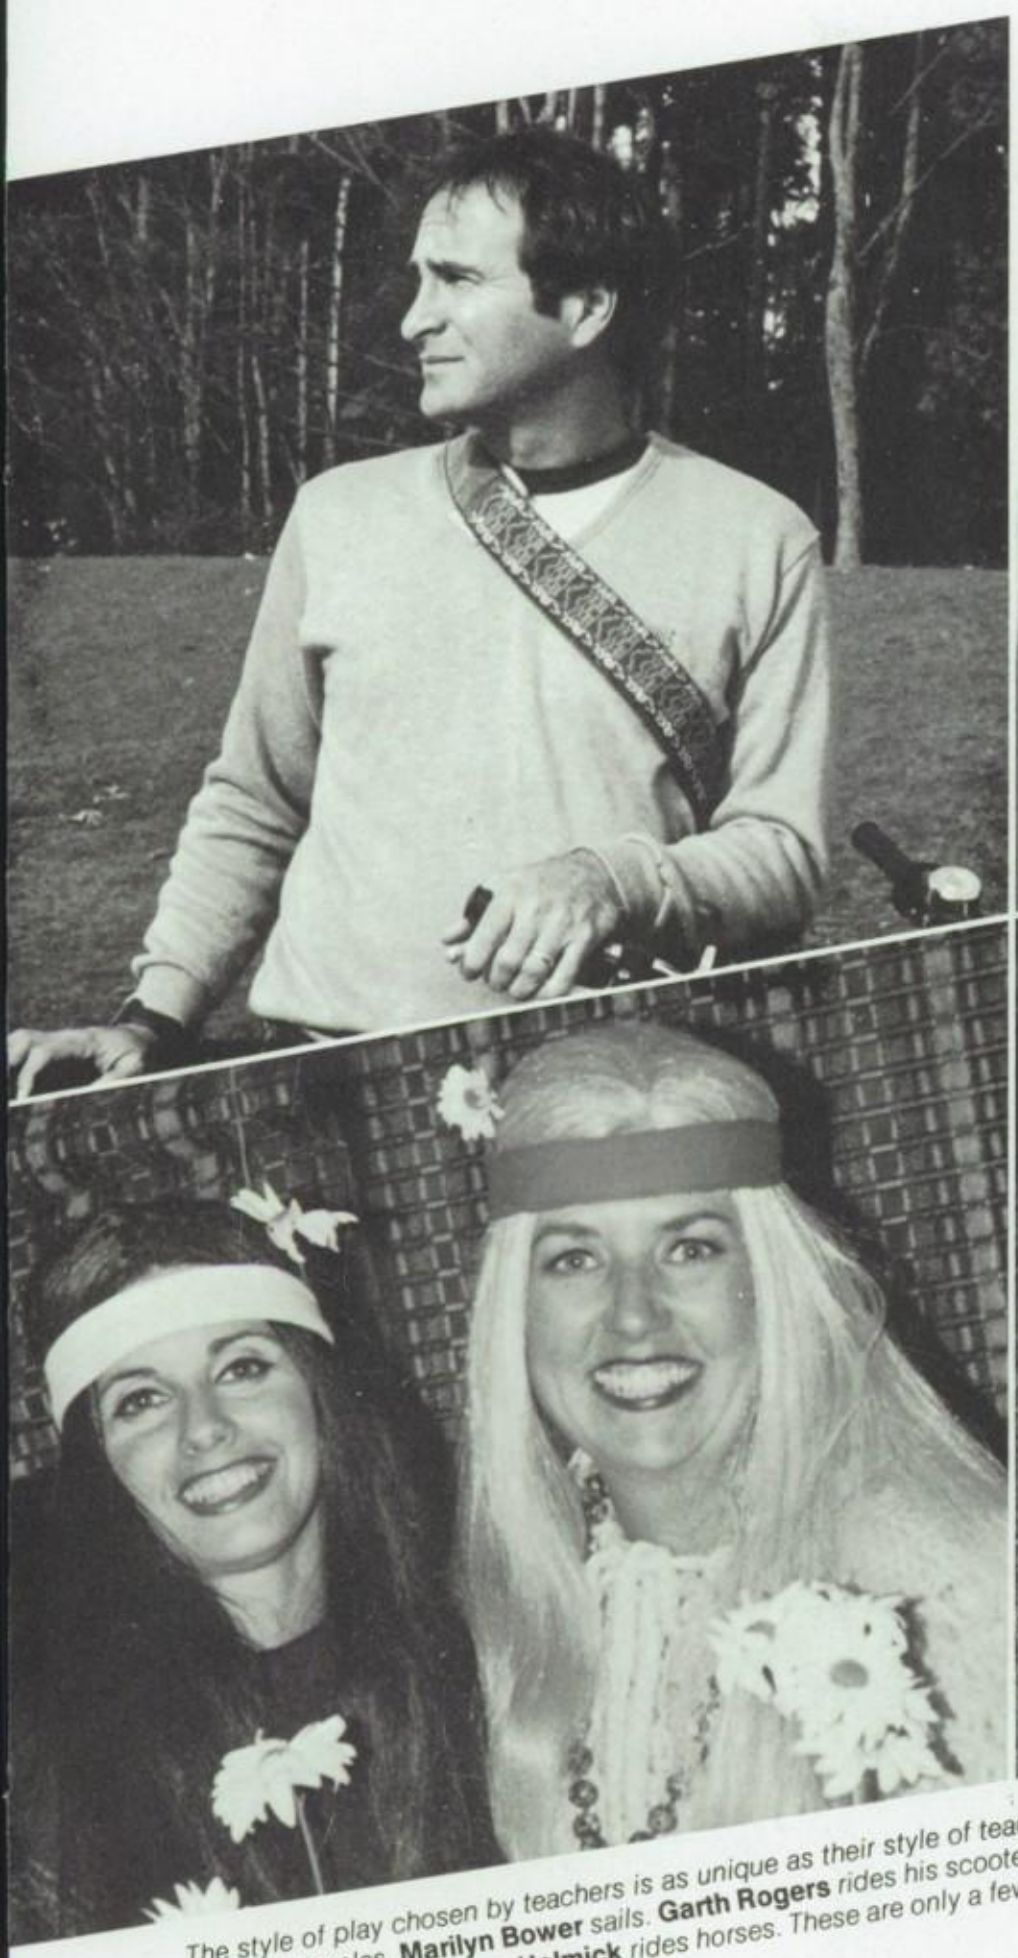
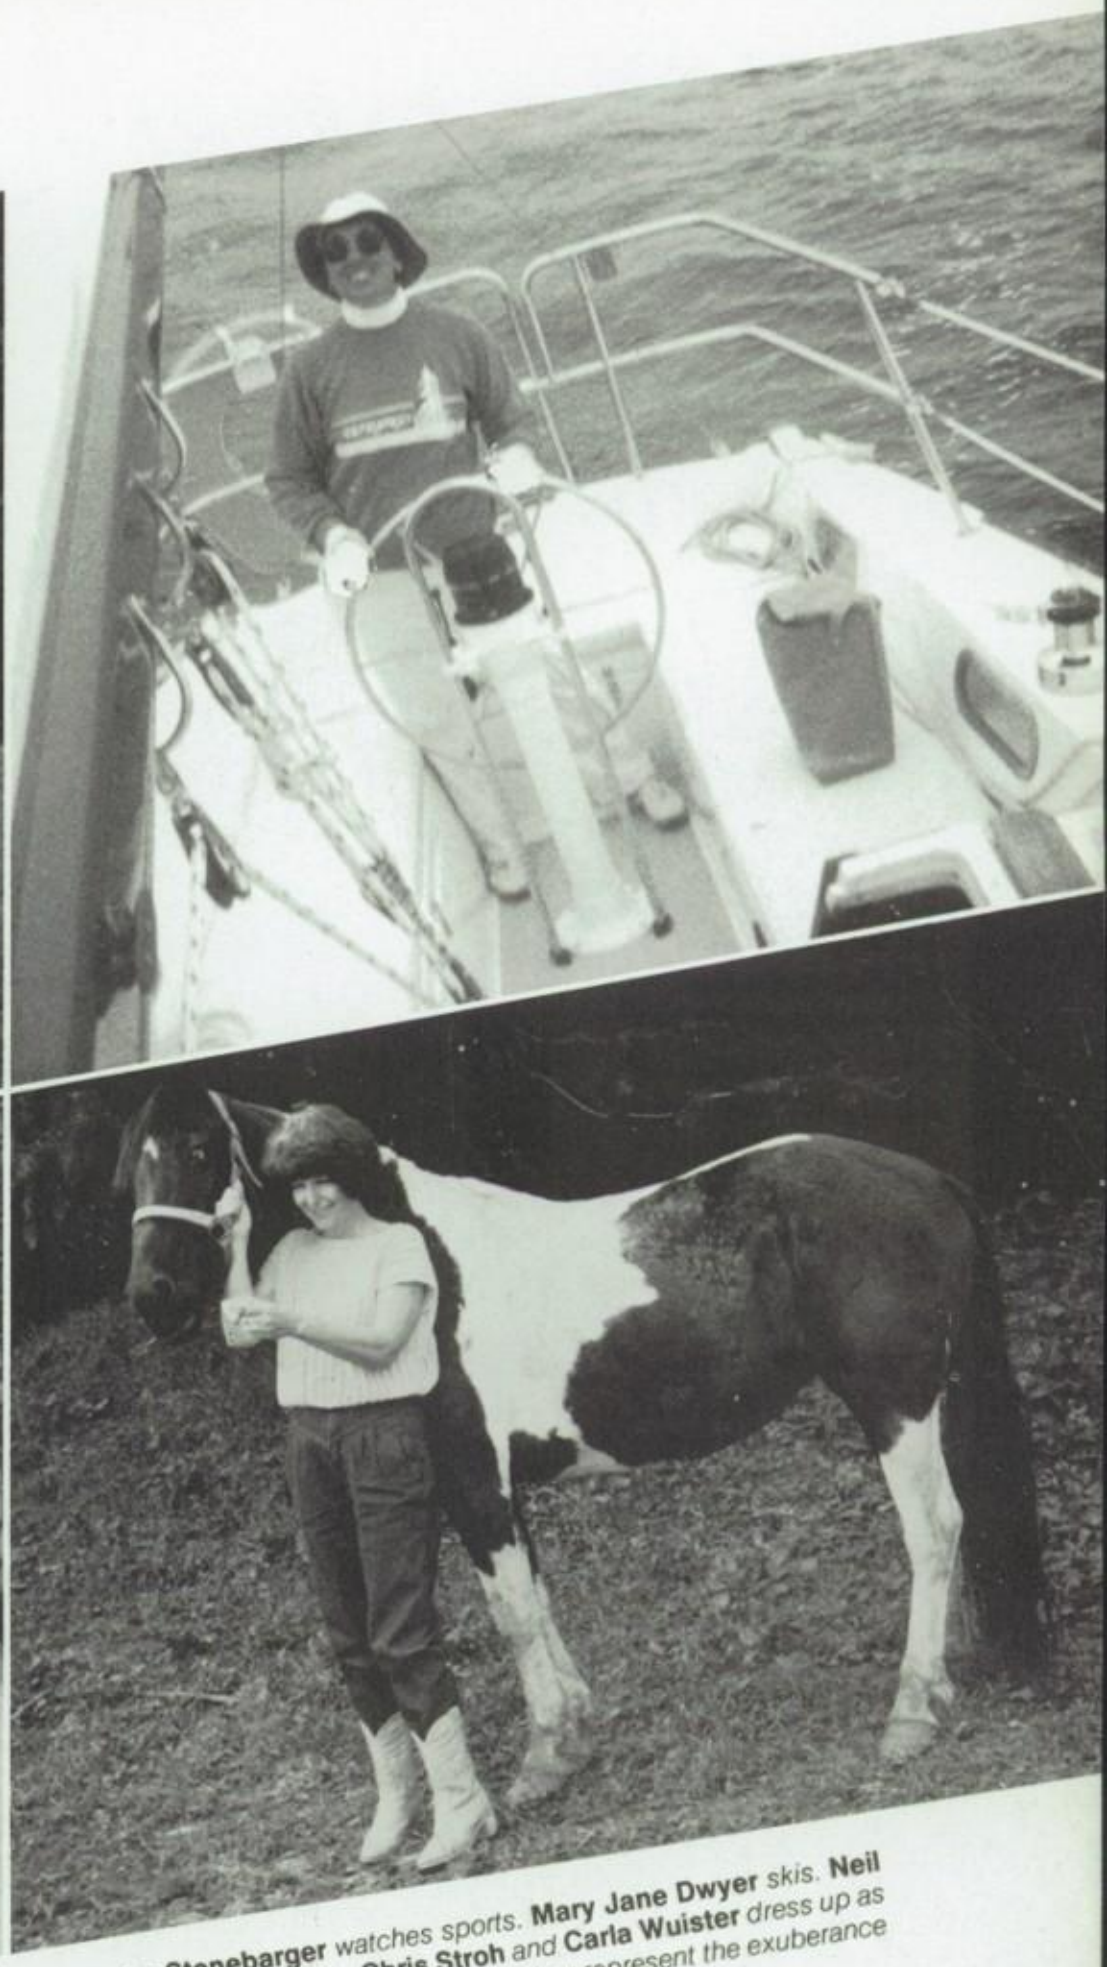
- Teachers



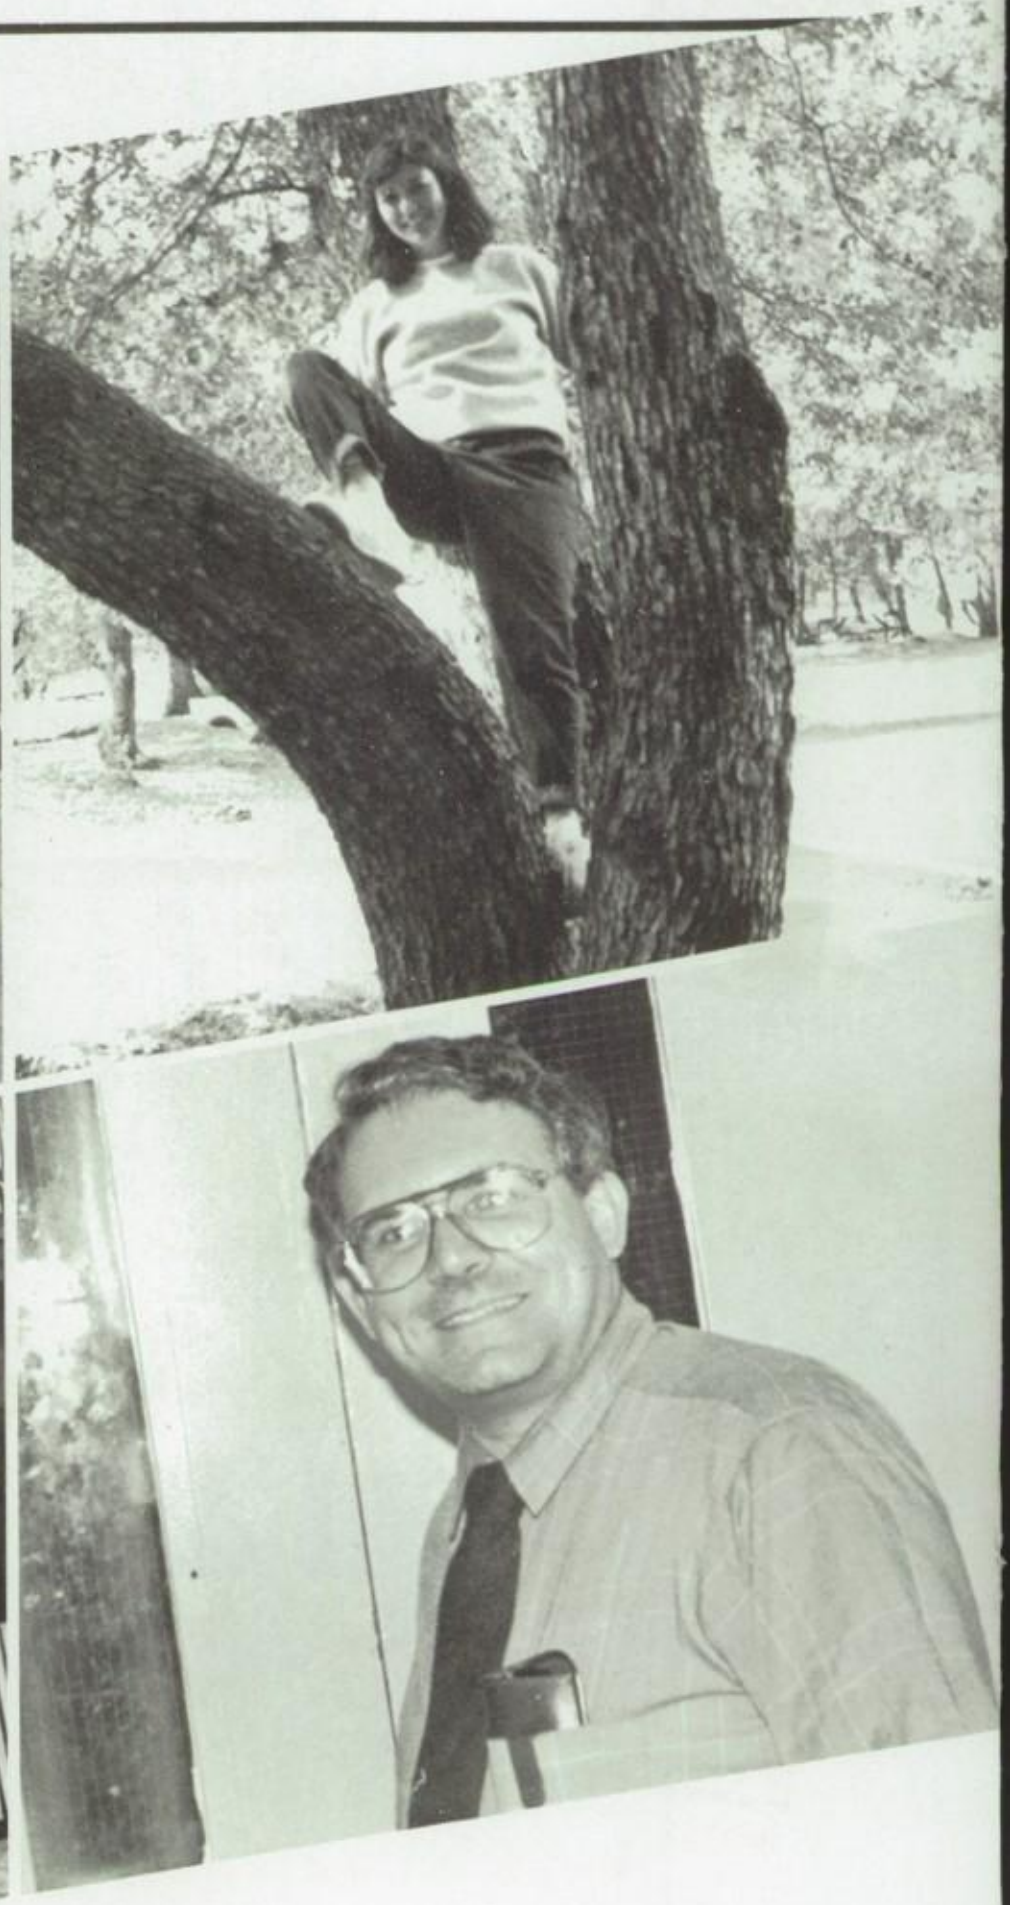


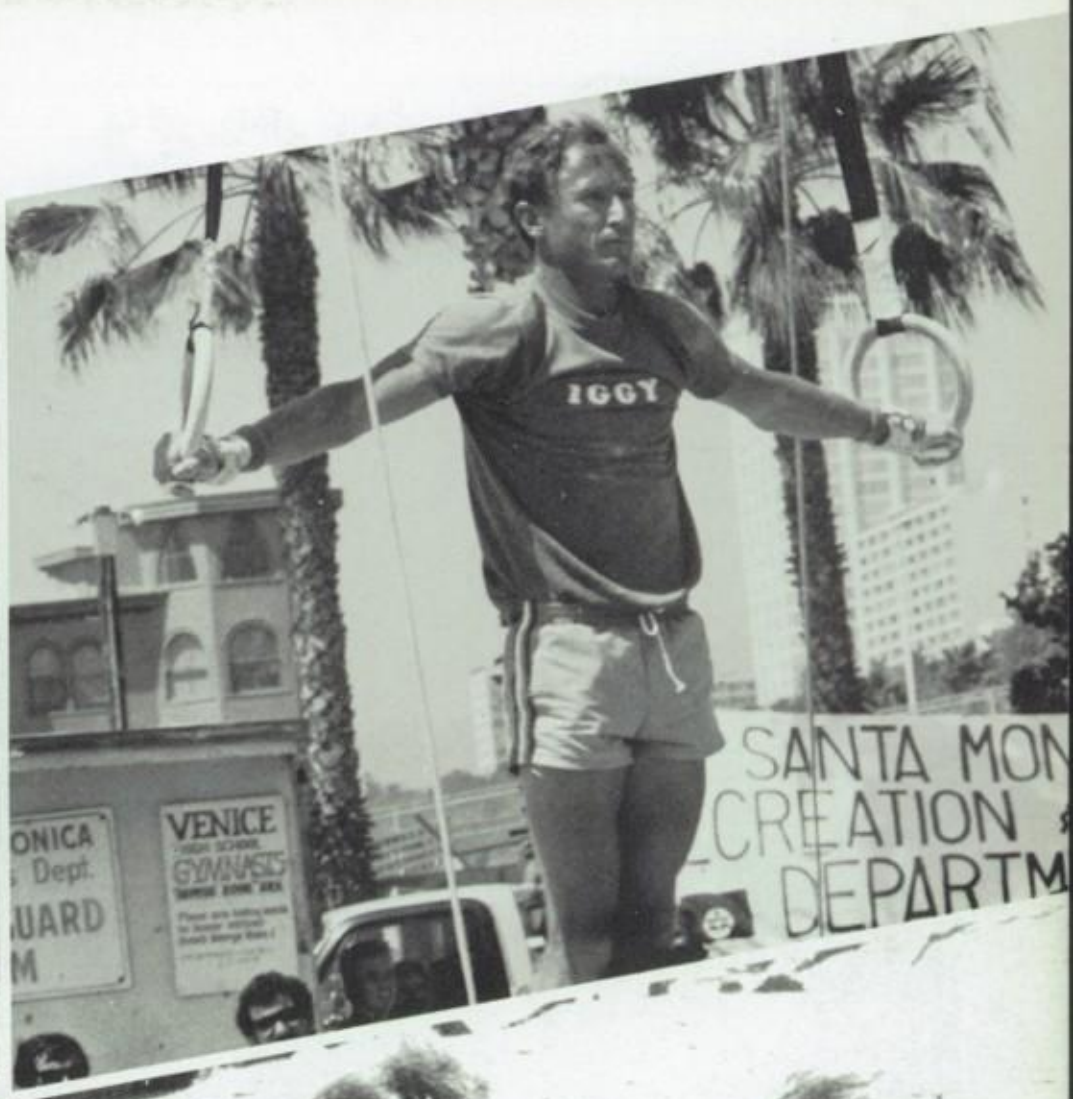


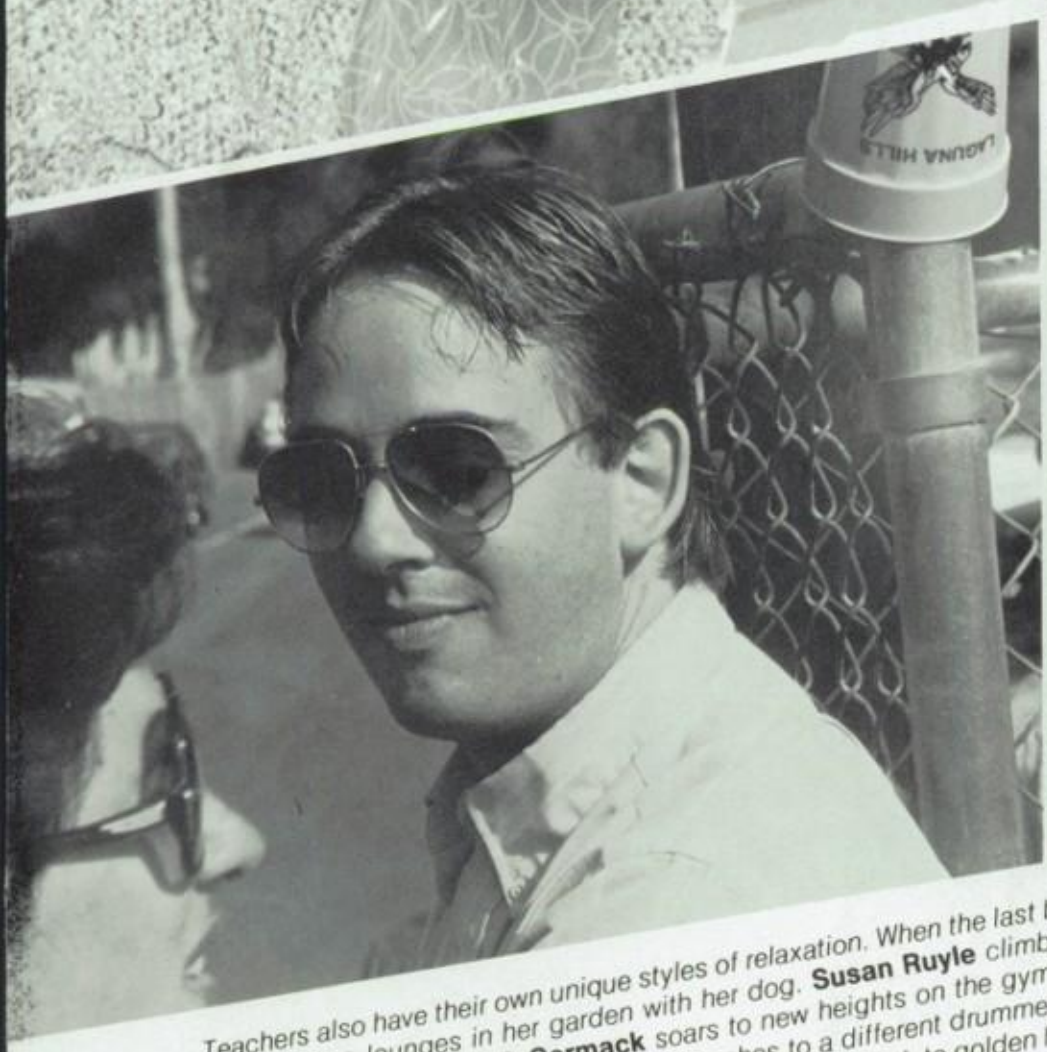
The style of play chosen by teachers is as unique as their style of teaching. **John Stonebarger** watches sports. **Mary Jane Dwyer** skis. **Neil Garber** bicycles. **Marilyn Bower** sails. **Garth Rogers** rides his scooter. **Tony Ferruzzo** waterskis. **Chris Stroh** and **Carla Wuister** dress up as hippie love children. **Dona Helmick** rides horses. These are only a few of the play-time activities of our staff, but they represent the exuberance and enthusiasm of our teachers.

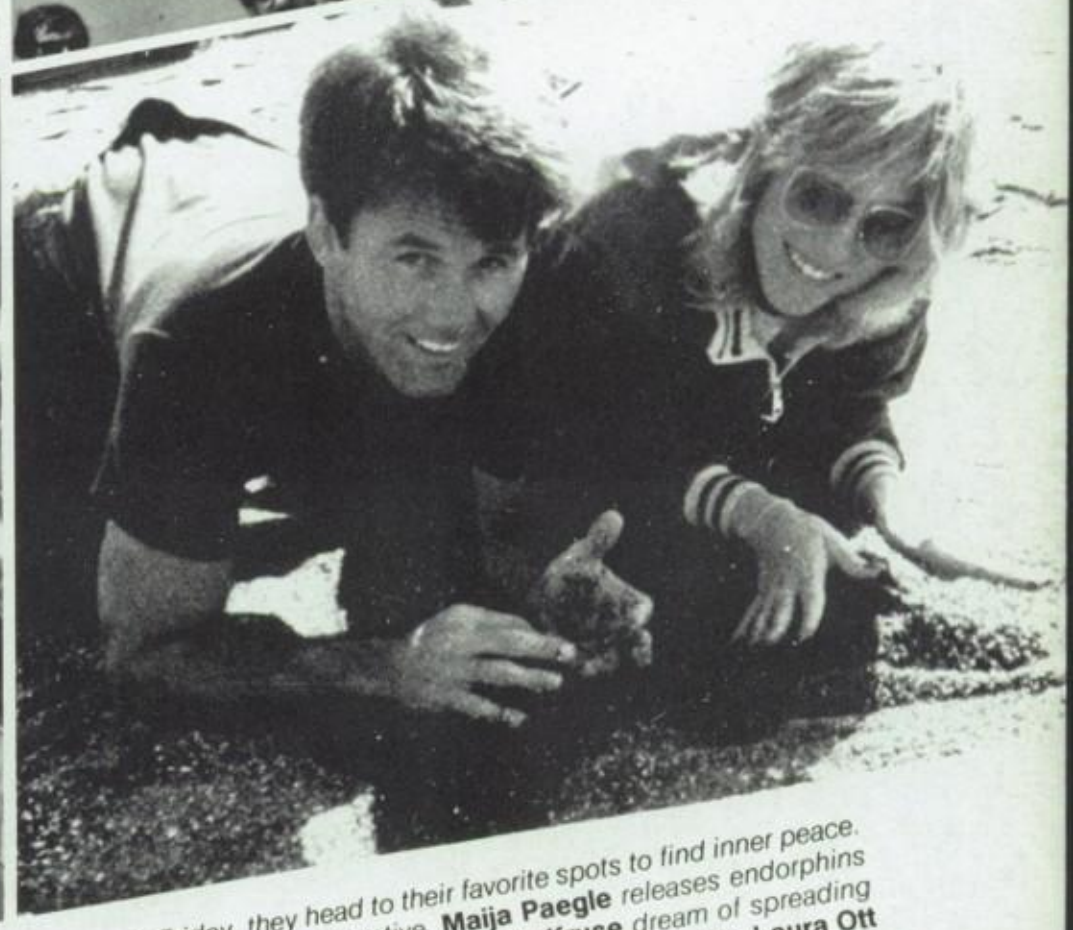
At Peace

Teachers









Teachers also have their own unique styles of relaxation. When the last bell rings on Friday, they head to their favorite spots to find inner peace. **Lynn Asaro** lounges in her garden with her dog. **Susan Ruyle** climbs a tree for a different perspective. **Maija Paegle** releases endorphins through smiles. **Steve McCormack** soars to new heights on the gymnastic apparatus. **Clay Sisman** and **Monte Kruse** dream of spreading their wings and flying. **Gerard Jones** marches to a different drummer. **Roger Gunderson** meditates incognito behind his shades. **Laura Ott** makes sand castles at the beach. True Hawks, they fly high to golden horizons, and return refreshed on Monday.

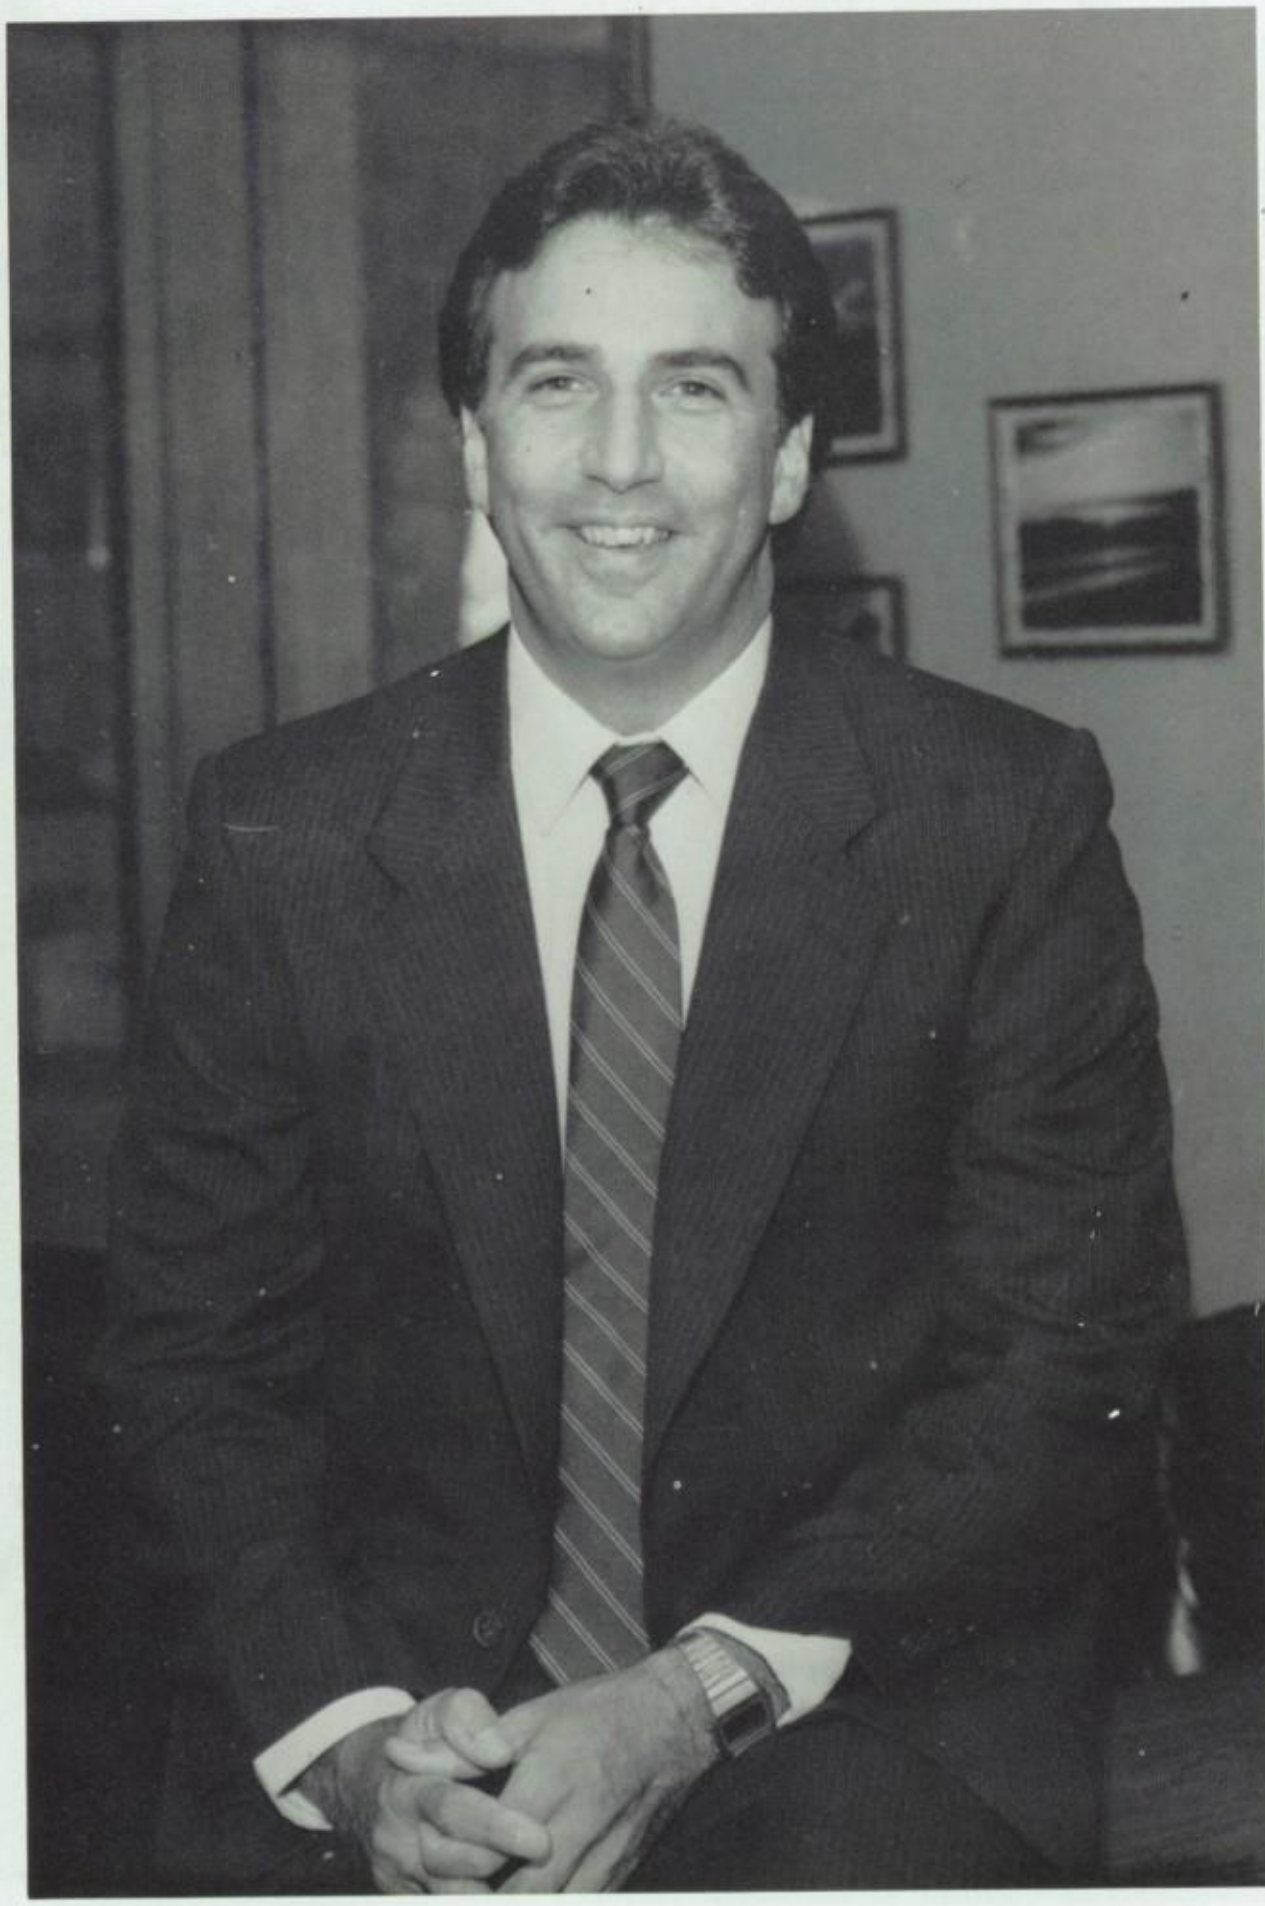
Golden Opportunities



It is not luck, good breaks, or coincidence that brings about success. It is the students, parents, and teachers who, through their persistent and tireless efforts, seize the right moment, every moment, and create those golden opportunities to make success happen for LHHS. We have become leaders in the Southland, in the classroom, in academic competition, on the playing field, and through our extra-curricular activities.

The State has recognized our student achievement by placing us in the top 5% of the schools in California; the County has recorded our academic achievement through OCAD, and other academic competitions; and the new Pacific Coast League has felt the prowess of our athletes through League competition.

The staff and community of LHHS congratulate and extend best wishes to our graduating seniors. May each of you remember your alma mater with affection and loyalty and, throughout your lifetime, create and seize your golden opportunities by meeting the challenge attributed to Etienne de Grellet (1773-1855):

> I shall pass through this world but once. If, therefore, there be any kindness I can show, or any good thing I can do, let me do it now; let me not defer it or neglect it, for I shall not pass this way again.

Take Part in Life

The sun shouts all that life has to sell
And great waves awaken and are drawn
Like smoking mountains bright from the west.
Streams and rivers are bright with colored pebbles
And early morning sparkles of light.
The quivering glimmer of the golden sun,
Rising to greet the new day,
Throws a sudden flash on the eye.
Life's opportunities are vivid and splendid.
Like golden waves whitened on a cliff,
Or soaring fire that sways and sings.
Moments are meant to be seized and risks taken,
Activities and clubs experienced and enjoyed.
Each new activity adds richness to life,
Like the curve of golden music
Or the scent of pine trees in the rain.
Spend all you have to participate in life's activities.
Buy them and never count the cost.
For one golden hour of involvement
Count many a year of growth well-gained
And for a breath of ecstacy,
Take part in life's many activities.

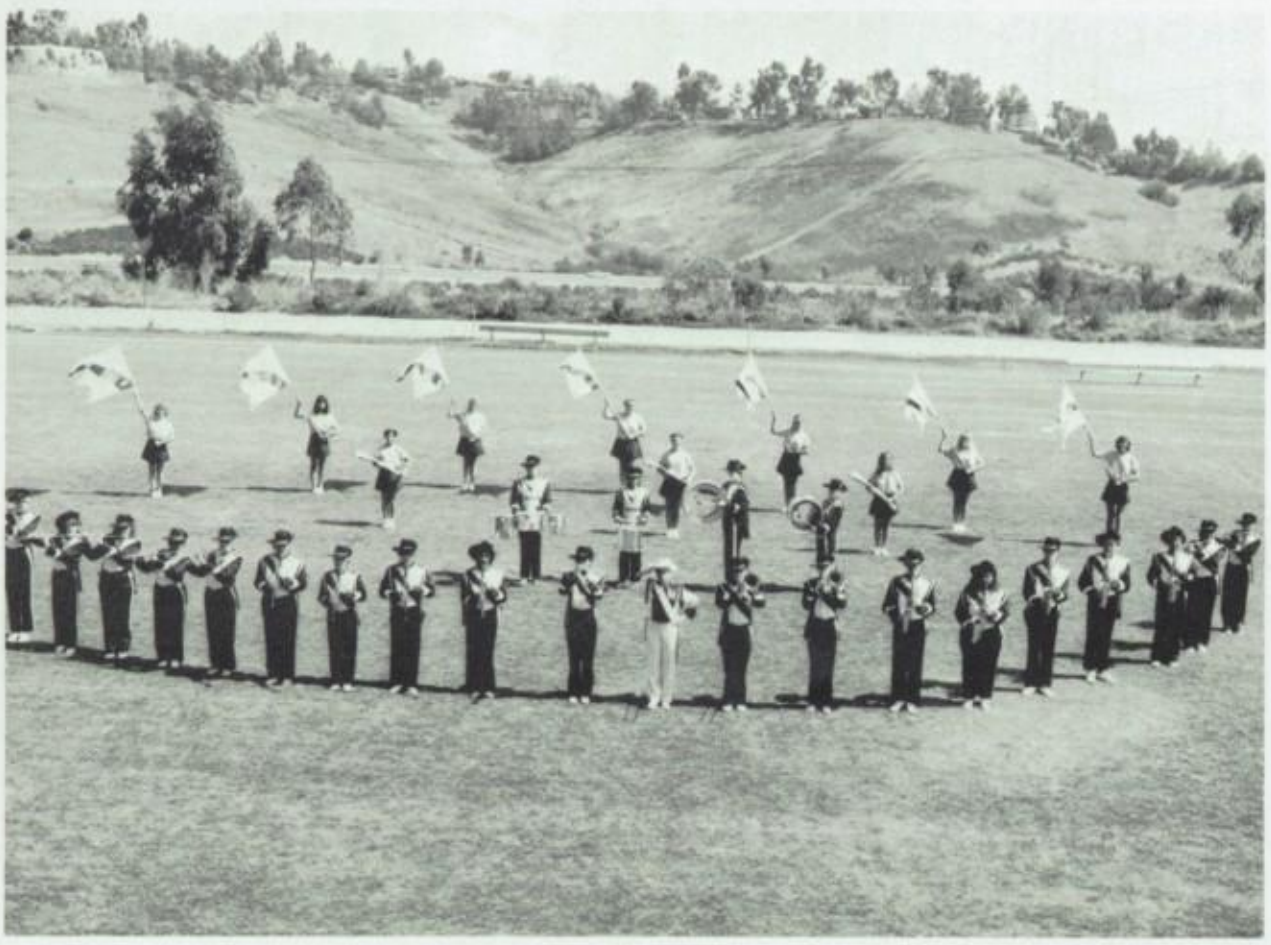
Band Tastic



Laguna High School's Band is an active and competitive group on campus. The drum major, Shannon Velarde, helps keep the band in step and assists the Director, Mr. Jones, in leading the band. The spirit and pride of the band has enabled them to receive many awards. "Because we work together in practice as well as competition, we are able to win awards and recognition," said Carol Healy.

Although there are no prerequisities to enter band, the students must have a general knowledge of music. Outside of class, the band members are involved in fund-raising projects such as candy sales and selling field show tickets. "We owe our success to our sense of commitment and teamwork," says Keith Ludolph. The most spirited trip that the band will take is the trip in April to the Annual Band Festival. At the Festival, the band will combine with other schools to perform at Magic Mountain and enjoy the park after the concert. The 1986-87 Marching Band continues to perform and prepare for future competitions so that their success will grow.

Orchestra

Golden Horns

Laguna Hills High School's orchestra, meeting daily during third period, has been highly successful. They perform a variety of music, from Chopin to Bach, to contemporary works from such artists as Chicago and Genesis. Traditionally, they have combined with the band and choir to perform at concerts.

The orchestra has attended festivals at various schools and parks, including the Annual Concert Festival at Magic Mountain and the Saddleback College Competition. They also hold performances during the assemblies and musical productions. "The orchestra was superb in the musical, South Pacific!" said Mr. Jones, the Director. He adds, "this year's orchestra is one of the best we have had. I am extremely proud of them!"

The Members include, From Top Left: **Kam Nejad, Susan Krulik, Deanna Smith, Jana Astillips, Natalie McAllister, Danny Gullo, Susan Harding, Jason Grove, Michael Lee, Jeff Rickner, Vanessa McAllister, Rosamund Lockwood, Jennifer Lackey, Kerri McNamara, Laurie Sebestyn.** *Below:* **Danny** *and* **Natalie** *are both lost in their music.*

Song Hawks

Choir is a class where students on campus are provided the opportunity to widen their range of singing ability. They meet daily and perform a variety of songs from classical to modern. Each day they begin with a series of voice warm-ups, and follow the musical scale after dividing into groups according to voice inflection, range and tone. "The warm-ups are just as important as the music itself," said Mr. Jones, the Choir Director. Although there are two choirs, concert choir and chamber choir, the two often combine during concerts. The songs are sung not only in English, but in German, French, Old English and Gaelic. "I enjoy singing and like to share my voice with others. Each time I sing I feel like I am giving of myself, and this class gives me the experience I need," said Linda Riggs. A member of the Chamber Choir, Paul Mayjack comments, "I hope to enter a career in the performing arts and this class offers a great chance to prepare for it." Both choirs perform in 4 to 5 concerts a month. "Our Christmas performance was especially successful," says Nidia Beltran. Other concerts include competitions with other schools, legion competitions and a 4 day trip to Magic Mountain to perform with the band and orchestra in the spring. The choir is a close-knit, talented group of students who enjoy singing. "It's my life!" said Linda Riggs.

Drama

Creative Play

The goal of Drama Club is to promote and support involvement in the performing arts. With its several fundraisers, the club was able to financially support this year's fall play and spring musical. The club was also active in entertaining the community with its performances at local malls. Highlights of the year were the club's involvement in the district drama festival, evening awards banquet, and the State Thespian Festival.

Hawk Family

Have you ever wondered who organizes the exciting activities that occur during the school year! Who are those creative minds that think up the class competitions that improve our spirit? Our Laguna Hills A.S.B. does. Through their dedicated work and the guidance of Mr. Frost, they come up with the outstanding social events. As Erin McGinnis shows it's hard work, "Oh great guys, we have to do that too." But as Lori Girard and Katie Parker show, it pays off in the end when "It's a success." Who are these imaginative brains called A.S.B. behind the activities? They are from left to right: Erin McGinnis, Co-Commissioner of Social Events: Pete Colburn, A.S.B. President: Matt McDaid, Senior Representative: Emily Otto, Freshman Representative: Jay Christensen, Commissioner of Boys' Athletics; Leah Miller, Commissioner of Girls' Athletics, Mike Castillo, A.S.B. Vice-President, Amy Lytle, Sophomore President; Tammy Alms, Commissioner of Fine Arts; Phil Colquette, Senior President; Krista Richards, A.S.B. Secretary; Katie Parker, Sophomore Representative; Meagan Hutcheson, A.S.B. These students dedicate their time to making your school year more than just another year.

Sweet Charity

Laguna Hill's Key Club is a prominent and outstanding club on campus. Involved in numerous community and school activities, the club is based on the dedication and commitment of the 40 members. The club meets every Monday during the lunch hour under the direction of the President, senior Meagan Hutcheson and advisors, Mrs. Englhard and Mr. Kruse. The meetings are run in an organized and orderly fashion with specific agendas presented to the club members. The students are given the opportunity to volunteer their time and participation in the upcoming activities.

"This year's Key Club is far superior to any previous year. The members are active and more involved than any of the clubs that I have sponsored," said the Youth Sponsor Chairman from the Kiwanis Club, Merle Trail. The activities the Key Club have participated in range from the Halloween Carnival, to the annual fund-raising car wash, to announcing Bingo at Palm Terrace, to See's Candies sales, to Christmas caroling at Beverly Manor.

The most successful service that the club organized was the Great American Smoke-Out on November 20. This was a day in which students "adopted" a smoker and supported him in his commitment to stop smoking. The annual Blood Drive, held on December 3, was run by Key Club members who organized the Drive, summoned prospective donors age 17 and above, and aided the nursing staff.

Towards Christmas vacation, Key Club members presented stockings to the homeroom classes to collect toys for under privileged children. Called "Operation Santa," it generated enthusiasm and participation among the entire student body. Such gifts as teddy bears, skateboards and bicycles were donated. The club also participated in the Special Olympics and volunteered Library Service with Mrs. Kilby.

The highlight of the club's year, however, is the Key Club Convention, held in spring. The club spends the weekend in Santa Clara where they present all their accomplishments for the entire school year in hopes of winning recognition and awards. "We have a great chance of ranking high among the various clubs." said Mr. Kruse, and the club members eagerly agreed.

Golden Achievement

California Scholarship Federation is a scholastic club on campus that focuses up on higher education. Its members must meet the prerequisite of receiving at least 3 A's and one B in courses other than aiding and physical education and have no unsatisfactory citizenship grades. After every semester, it is necessary to reapply and those who have been involved with C.S.F. for four semesters will be seated in the first row at graduation. They will also receive a gold cord around their gowns at the graduation ceremonies, gold tassles on their caps, and gold seals on their diplomas. In addition, those students taking part in the club for a full six semesters will be awarded another certificate of the highest honors with a gold seal and life pin. The club offers many benefits. "C.S.F. is a great advantage and provides the opportunity to graduate at the top of my class," said member Mykhanh Nguyen.

With the efforts and the guidance of the advisors, **Mr. Gunderson** and **Mrs. Lane,** the club is active on campus as well as in the community. It has held candy-gram sales at Christmas and Easter. In May, the club holds an Academic Bowl, a tournament where the freshmen compete against the sophomores and the juniors compete against the seniors. The winners advance to challenge one another for the championship. In the community, C.S.F. sponsors an "Adopt-A-Grandparent" program in conjunction with Beverly Manor Convalescent Hospital in Laguna Hills.

Foreign Language

French Club

Have you ever seen students walking about campus with blue and white sweatshirts saying, "Les Faucons Francais" on the back? If so, you have seen a French Club member.

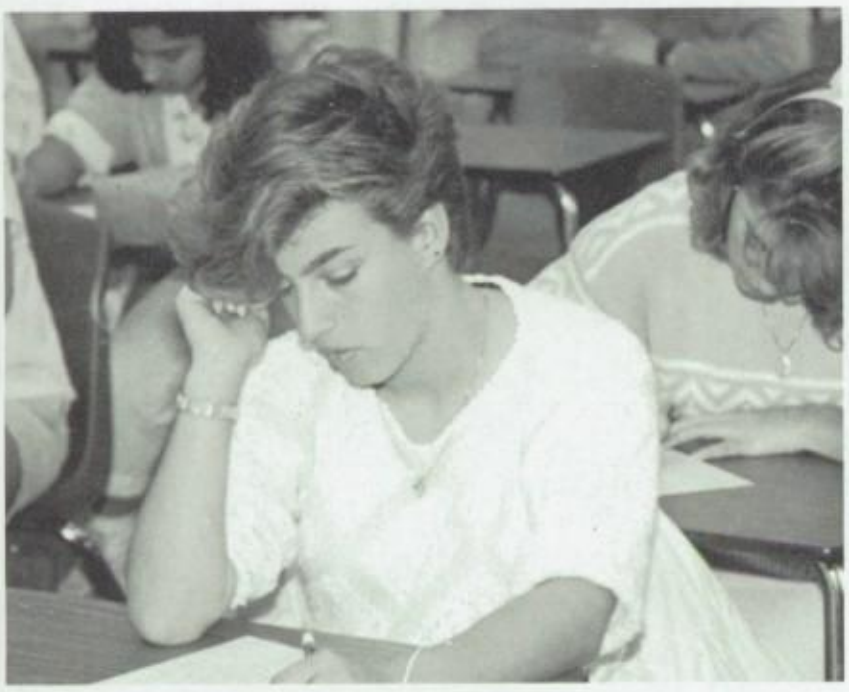
In the Constitution for the French Club, it states, "The French Club will promote interest in the French language and culture by sponsoring countries, attending French movies, inviting guest speakers, and having other activities that would encourage students to enhance their language skills and to increase their cultural awarness." The purpose at French Club meetings is to let students taking French further their interests in the language and to encourage other students with a desire to learn more about France to do so.

"L'Esprit Vivant," the French Club newsletter, premiered in December. Translated into English, the name means "the spirit living." The newsletter comes out every two months containing articles, songs, and cultural facts. Advisors are Mrs. Brooks and Mrs. Baker.

German Club

German has an interesting club with many fun activities. The main focus of the German Club is the great interest in the Germanic culture. The members especially enjoy the food involved with Germany. The club is also very lucky to have Mrs. Alms as an advisor. She lived in Germany and contributes greatly to the society. They have regular meetings with German speakers and slides to help the members appreciate the culture. They took a trip to a German cafe and restaurant which was great fun. Approximately 10% of the people also participate in the foreign language camp put on in the spring. The camp lasts for a weekend and is strictly German speaking. The people who have gone in the past have learned a lot and enjoyed it. To end the year the club becomes involved with the Apotheosis festival by donating cakes and tortes. In short, German has an active club with members that really enjoy themselves and have fun. If not already in the German Club it would be a good idea to join next year.

"Voulez-vous mangez avec moi ce soir?" French Club members toast with Perrier. "Joyeaux Noel," the French Club sings at the Faculty Christmas Party. "Deutsch ist prima," proclaim German Club members at their monthly meeting.



No Problem

The Math Club is an academic club which focuses on increasing the students' mathematical capabilities. Meeting each Wednesday during lunch, the club spends the hour working through various mathematical equations. The degree of difficulty of each problem varies from beginning levels of algebra to trigonometry. The thirty-four members attended the meeting to take advantage of the opportunity to practice math. Many of them are currently enrolled in difficult math classes, and the extra math exposure they receive from the club has helped them to better both their grades and their overall ability to complete math problems.

Not only does the Math Club benefit student mathematical achievements, but it has proven beneficial to SAT, PSAT and ACH test takers. Many of the problems that the club members work through have appeared on the tests, and they note recognizing such problems. The club's advisor, Mr. Rogers, has successfully led the Math Club to high achievements. This year Laguna Hills, Math Club competed in state and nation-wide contests by scoring exceptionally well on math exams. They have competed against other schools in the district, state, and even country. "The Math Club has helped me to do better in Math Analysis. Mr. Rogers gives us problems to work out, and after we have time to complete them, he goes over the solution. This helps us to learn new problems as well as review past concepts," said Kim French, one Math Club member.

Journalism

Brainstorming . . . Thinking . . . Interviewing . . . Writing . . . Pride. Mr. Johnson's *Accipiter* Staff goes above and beyond to bring the Hawk Community a paper containing only the most interesting and up-to-date information. The 1986-87 members put in the extra effort to fulfill personal goals, as well as to meet the expectations of peers. Starting off with vigor and excitement to set a second to none pace, they are constantly making revisions and improvements to reach the zenith of perfection. Their goal is to represent the view and voice of the students and teachers at Laguna Hills. With dedicated staff such as this, the *Accipiter* will continue to strive for the stars.

Creative Writing

The *Apotheosis* Creative Writing Club is a literary based club that deals with creative and artistic works and ideas. The main objective of the club is to assemble and design the annual literary magazine, the *Apotheosis*. The sections of the magazine match the steps of the quest: search, trial, and encounter with self or spirit. The "apotheosis" is the final stage, where there is rebirth. The magazine is a composite of poetry, prose, and art based on the theme sponsored through the December contest. The officers: Kris Kramer — President; Jenny Jech — Vice President, Diana Brady — Secretary; Mykhanh Nguyen — Treasurer; Kim Donihue — Publicity; Ken Mattuiz — Artist, work closely with co-advisors Mrs. Victorson and Mr. Sisman, as well as the other members of the club. After hours of dedication and careful preparation, all the staff eagerly await the Spring Festival of the Arts, where the *Apotheosis* will be premiered.

Airborne

Airborne — Free
Running with a golden glittering sun
Diving down the day
Jumping through June
Above the world
Part of the shell
Of some new world.

We leave one behind
And carry with us its golden memories . . .
Yet, we journey to a brighter place
A different world, its hue more intense.

Though it takes the hardest effort
To reach the heavens and create
The golden moments so precious,
When finally we touch the sky
Contentment like a cloud
Will suddenly surround us
Like Gold.

Varsity Football

A Season of Gold

The Varsity team was much more competitive this year and showed great determination throughout the year. High hopes for a successful start in the Pacific Coast League were realized in a stunning upset of highly ranked Woodbridge 10-3 on a last second interception by Dave Delmonico. The Hawks narrowly lost in tough games to Costa Mesa and Laguna Beach, as well as non-league opponents San Clemente and were victorious against Estancia High. The Hawks were led by QB's Chris Leigber and Pat Buckley, all Leaguer Brian Fleming, 2nd team All League Dave Delmonico, and Ed Roberts. Newcomer Rob Milo perfomed well along with Corey Potter, Mike Cotner, and Scott Evert.

Varsity Water Polo

LHHS's Water Polo team finished the 86-87 season second in the league, after making CIF. The team was led this year by its senior players: Frank Gartner, Steve Hruby, Jason Kenke, Ken Myers, and John Sushi, a sophomore. The teams four seniors have set a good example for the younger players who show a promising future. The 1986-87 Water Polo team was led by Coach Mike Cross, a graduate of LHHS. For the first time in Laguna Hills history, the girls varsity volleyball team clinched a spot in the CIF playoffs. Despite the change from the 4-A South Coast League to the 5-A Pacific Coast League volleyball ranking, the fearless Hawkettes rivaled county powerhouses like Woodbridge and Laguna Beach to capture a 3rd place crown and a chance to the CIF title. The devastating starting line-up with the tremendously talented bench and superb strategy of a first year coach, Renn Amstead, proved to be the winning combination to their success. With many returning players for the next season, the team already has high aspirations for an exciting command performance.

The JV volleyball team had their share sucesses in the new league as well. Driven with intense competition and supportive coaching by Sue Stein, the Jr. Hawkettes had a remarkable season which produced not only wins but promising recruits for next year's varsity.

As newcomers to the game, the frosh-soph volleyball team had quite a learning experience. The highlight of their season definitely had to be their unparalleled defeat of the top-ranked frosh-soph team from Woodbridge. This established their team status that will definitely be a forceful impact as their talents come to full potential.

The Boys' Hawk Varsity Soccer has had one of their best seasons ever, posting a record of 12 wins, 3 losses and 2 ties. Led by the prolific scoring of Brian Fleming, Pat Richards, Jose Campos and Kevin Macare, the Hawks quickly moved to the top of the Pacific Coast League. The improvement in this year's team can also be attributed to the hard work of the defense — especially solid play from Dave Delmonico, Kyden Reeh, Mike Gibney, and John Evans. Hopefully the Team's strong play will continue over the last half of the P.L.C. which should lead to a league championship and a birth in the C.I.F playoffs

Strong performing players this year were Heather Mc Intyre, Jenny Cowper, Xanne Brakke, Erin Mc Ginnis, and goalie Lynn Lambert. The Junior Varsity girls aren't far behind. Soon to be varsity, the girls show excellent signs of success.

High Hopes and Hoops

Greeted with a new league and new coach, the Lady Hawks knew they had quite a task to accomplish. Nevertheless, they took it in stride and achieved the most productive season yet. Notably, the girls banded together in spirited teamwork to produce the 2nd annual basketball program which displayed their talents as well as personality. It took this kind of spirit and dedication to help achieve their goals in this demanding but successful season.

The varsity squad, led by Wendy Hensel, Iris Veneracion, and Christy Grebel, proved a threatening force as they battled many competitive teams. Each practice and game was a new learning experience. As a young team, the Lady Hawks pulled through as the underdogs and finished with a dynamite effort.

Junior Varsity was represented with a well-balanced team as it had height, speed, and sharp shooting combined. Their hard work and determination made them a winning team on and off the court.

The Hawks finished on a strong note by upsetting #9 ranked El Toro in a 55-52 victory. Their determination was strong and their perfomances were outstanding. This year's Varsity team was definitely headed for CIF. The Hawks were lead by Pete Colburn and Sean Hardy, both being key factors to this year's success. Mike Smedes and Chris Sheff have led the team at point guard scoring and Ricky Kawada has been a strong defender to the opposition. Greg Nelson, Dan Pelton, Dan Ringler, Charlie Packard and Dave Kahal have also had great success and have proven that a positive attitude does pay off. The Hawks are a very talented and determined team. By using their talents to their advantage, they definitely had a very successful season. Pride and Performance

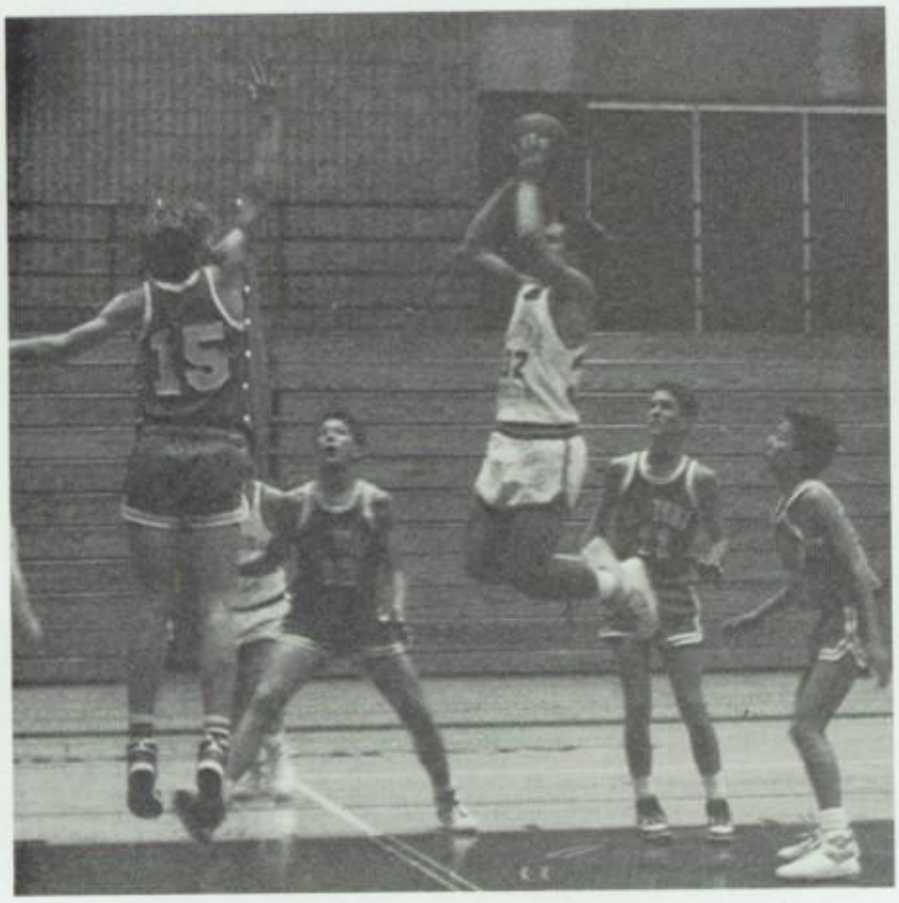
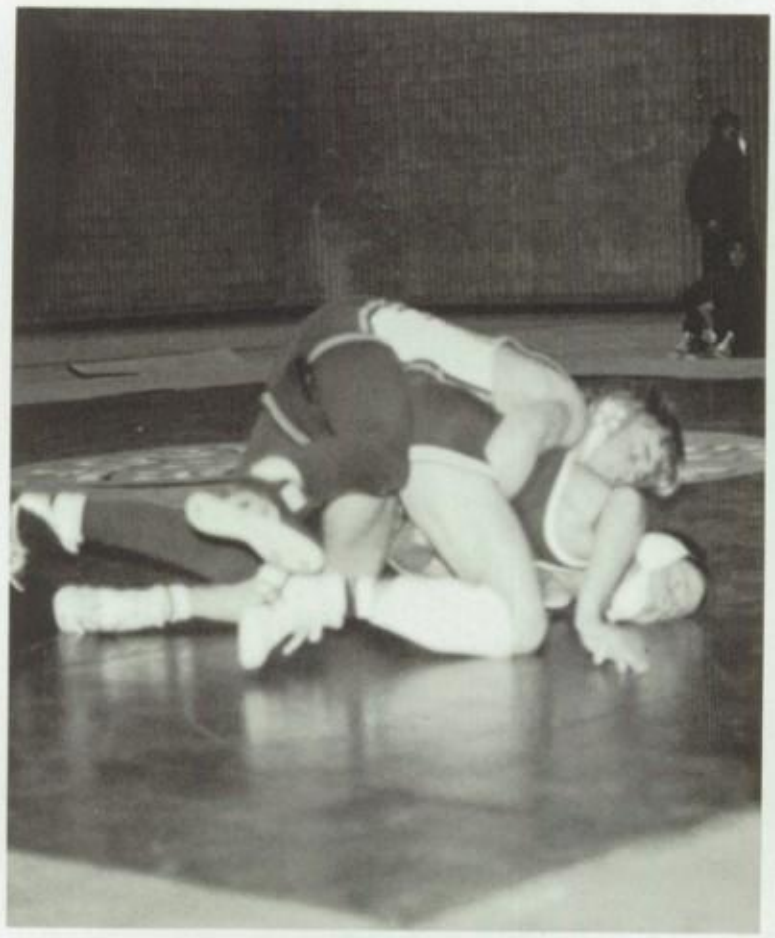
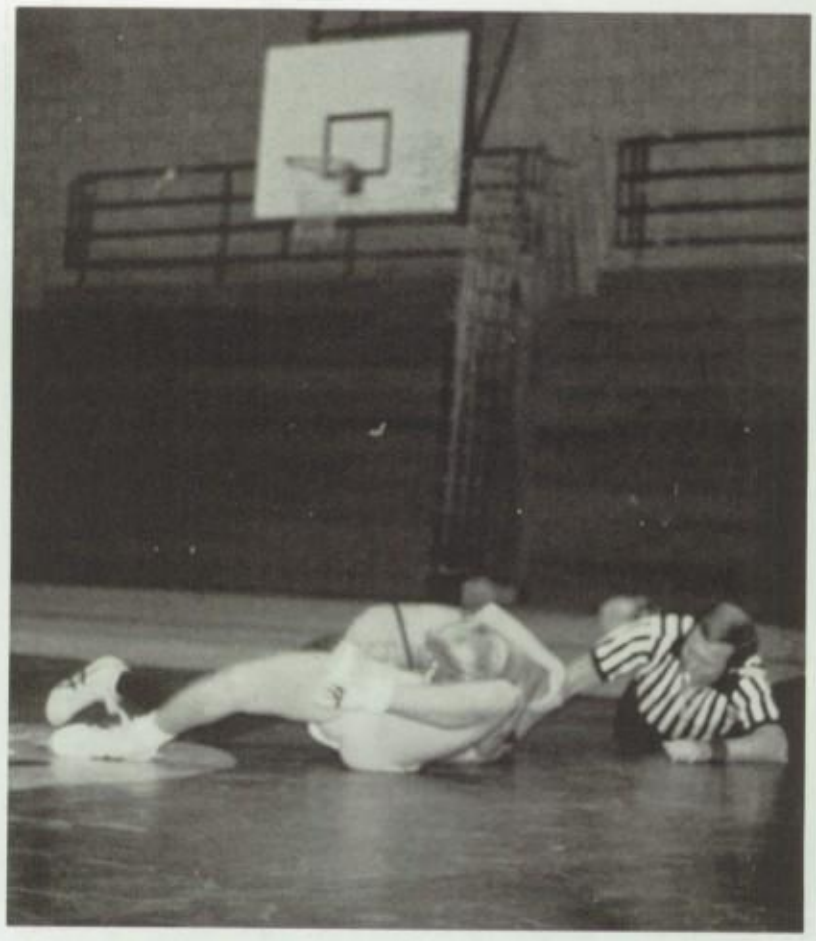
The 1986-87 Hawks basketball teams have shown great confidence and success in changing to the Pacific Coast League. The Junior Varsity, Sophomore, and Freshmen teams have all had a great pre-season, and have a strong chance of winning the league if they pull through against Woodbridge. The Hawk teams have shown great potential for the future, and in time will be a great asset to the varsity team. The J.V. Team is led by Sean Taylor and Ricky Kadle, who are already 2-0 in the league. Determination and quickness are key factors that make up entire teams. With these strong rebounders and guards, our teams will be looking forward to many victories. Hawks, you should be very proud, for you have proven to be quite a team.







Hawk wrestling is 34 of the toughest athletes on campus led by the most dedicated coaching staff we have. This team saw bad times last year, having a basically new varsity team and injured wrestlers. But determination, pride and the desire to pin brought us to where we are. Having taken first place in both the Bolsa Grande Varsity and Brea Invitational Varsity tournaments, this year's team knows how to win. Leading this year's Varsity team, Brian Lorentz, Tom Hayes, Ed Roberts, and Al Maglines are prime examples of what hard work, dedication, and good coaching can do for a team. To prove that this team is not solely dependent upon age, Tony Oh and Jon Sprague, both sophomores, have made outstanding contributions as regular starters.

One of the greatest advantages to being a wrestler is that it holds no bounds. Our weights range from feather light David Weber at 84lbs. to big bad Jon Sprauge at 240lbs. The weight divisions break up at 100, 107, 114, 121, 128, 134, 140, 147, 156, 167, 177, 198, and heavyweight. On this team everyone wrestles. Tournaments are scheduled by Coach Jarmie to allow every member to the team active "mat time." Right now we're at the top of the league and expect to stay there. I know I speak for all the members of our program when I say that wrestling is more than just a sport to us. We're a tightly knit group here, one that is willing to work hard and win. Not enough can be said about our coaches. Their enthusiasm and effort shows in the talent and strength of this team. It's easy to choose one word to describe our wrestlers, coaching, and administrators: WINNERS!

The Hawks Varsity Baseball team worked hard all year preparing for the '87 season in the Pacific Coast League. They practiced diligently on the fundamentals of the game and worked hard raising funds to better their improving program. They worked hard in school lunch lines, cleaned warehouses, and sold ads and signs to help earn the much needed money. This enabled them to buy a new portable batting cage and a P.A. system along with making the playing field one of the best in Orange County. In addition to these new improvements the Hawks prepared themselves by Aerobicising and working out as a team at a local health club. The Hawks had many players return from last year's team. All these added up to an enjoyable and productive '87 season.

The team huddle at the beginning of each inning is a time to discuss the situations at hand and get fired up for the game. While **Coach** *and* **Jon** *talk over important strategies.* **Aaron Arredondo** *zooms in on the pitch of his choice.*

The Soaring Spikers

The 1987 Hawk Volleyball teams have had a very successful year. Entering the new South Pacific League this season our volleyball teams still remain extremely competitive. The Varsity team consists of six seniors, five juniors, and one sophomore. The team works very well together to pull many victorious matches. Some outstanding players on the team are Senior **Pete Colburn** and Juniors **Brian Fleming** and **Pat Richards.** The Junior Varsity team also works as a unit quite well. Their coach, **Dave King,** has a lot to be proud of. The team is working hard for more successful seasons in the future. Also, the Hawk Frosh/Soph team has a number of outstanding players. The team is composed of mostly freshmen that are very skilled joined by a few talented sophomores. Working with Coach **Scott Johnson** the team is doing quite well this season. Keep up the great work guys!

The 1986-87 golf team is very promising according to golf coach, Jay Herron. The team is young with some players returning from last year. The talent is obvious and **Mr. Herron** is expecting a very successful season. The team will be led by returning seniors **Dave Reinhardt and Charlie Packard.** We can only expect the best from the LHHS golf team continuing the tradition of the CIF background.

Summer of '86 was a time of hard work and dedication for the Varsity Pep Squad. In preparing for Spirit Camp and football season, these girls had a lot on their hands. But the long hours they worked each day certainly was displayed in their performance at camp and in their dedication throughout the school year.

This summer, the National Cheerleading Association sponsored a camp for cheerleading squads throughout California to attend. The Varsity squad scored highest overall. They received the Sweepstakes award for accumulating the highest amount of points for their display of leadership, spirit, and talent, as well as the Spirit Megaphone Award for an outstanding show of teamwork and devotion. On the final day, these girls were awarded the first place Golden Plaque for the most original and talented routine performance.

During the 1986-87 school year, the Pep Squad did an excellent job keeping the Hawk spirit soaring. Friday night football games called for cheery smiles and enthusiasm to spark up the crowds. No matter if we would win or lose, these girls always managed to keep a smile on their faces. Even through our exciting basketball season, our girls cheered us on and kept the spirit flowing.

Together, the cheerleaders displayed true leadership qualities as well as sincere devotion to school activities. They managed to reach out to both the faculty and the student body and capture the winning feeling of Hawk spirit. Most of all, though, they kept the faith in our athletes going while the teams struggled through the good times and the hard times. The Varsity Pep Squad, through all their efforts and hard work, showed us the true meaning of what togetherness is all about.

JV and Frosh-Soph

The Laguna Hills 1986-87 Junior Varsity and Frosh pepsters displayed diverse qualities as they led their freshman and sophomore classes in spirit throughout the year. These cheerleaders supported their determined Hawk athletes during the football, basketball, water polo, track, and wrestling seasons. They also performed in numerous assemblies throughout the year, and acted as prime spirit leaders during spirit week. Prior to summer camp the hardworking squad practiced from three to five hours a week to prepare for camp and the upcoming year. Practicing without an audience, they perfected their cheers and sidelines. Learning to move in unison was a difficult task, and they achieved it with precision. The cheerleaders attended a three day USA camp at UCI, in which both squads were commended with honors for their fantastic performances. The J.V. squad captured a spirit stick and superior ribbons in every competition entered. The Freshman squad also received a spirit stick and were rewarded with all superior ribbons. A J.V. cheerleader, Cami Bullock, comments, "Cheerleading was an experience I'll never forget. Our squad developed many lasting friendships and created a memorable year for our school, our athletes, and us."

Motivating student spirit was a goal of the cheerleaders. The 1986-87 school year was enhanced by the J.V. and Frosh squads by spreading Hawk pride on spirit days, during assemblies, and wherever the Hawk athlete was present.

BEFORE YOU PUT FITNESS TO THE TEST, TAKE OURS.

Our fitness test could change your life—no matter how fit you may be. That's because when you take it, you'll learn a lot about the *real* shape your body is in, whether you're at risk for injury, or if you're putting dangerous strain on your heart. We call it the *Personal Fitness Profile*™ and here's why it's more complete than any other fitness testing available in our area.

A Personal Fitness Profile™ completely evaluates your lifestyle, nutritional well-being, and current physical condition. It's administered by specially trained medical professionals and is associated with a national research institute.

We'll use the treadmill to measure your cardiovascular endurance. The results help us customize an exercise program just for you.

Additional tests collect more critical information. Such as your ideal weight, muscle strength and flexibility in your neck, arms and legs...and whether you need special conditioning in these areas. We'll tell you how efficient your lungs are in delivering oxygen to your bloodstream, plus identify your current levels of cholesterol.

A *Book for Better Living*

A computerized report provides you complete test results, your comparison to national fitness norms, your personal fitness prescription, *plus* a master plan for maintaining your fitness. A medical counselor interprets your scores, identifies areas of possible health risk, and helps you design the fitness program that fits you best.

There's one final plus! Our test takes only two hours.

So take a minute to find out how two hours can lead to a healthier, happier lifetime. Call

The End of the Rainbow

I hope you've enjoyed the show, (Yearbook). It's been a time of success and failures, stress and relief. Most of all pride and commitment to produce something for one and all to enjoy. Hanns and Iris, literally the brains behind the brawn. Both induced an intellectural attitude when it seemed at times all there was left was screaming. Mrs. Ruyle with her support and effort, willing to go that extra bit was extremely appreciated by all. Tina (Fay), the backbone to the Aerie staff photographic genius and stress case. Thanks Tina. And thank you Aerie '87 staff, We did It!

R. J. Hart

Aerie '87 — I wouldn't have change a thing through all these responsibilities I've learned a lot. This year's Editors and staff really made the difference. Iris and Hanns you two make an invincible team. Mrs. Ruyle thanks for listening to our ideas and for helping make this book what it is — A Masterpiece! R.J. thanks for putting up with my stress attacks; your strong willed attitude is what got us through the dreaded deadlines. Thanks Urge. All staffers that are gonna stick with it next year, Good Luck!! You have got quite a reputation to live up to, now!

Tina Fay Smith

Pure, solid, and valuable. The same adjectives used to describe gold can be used to describe the Aerie '87 staff. In September a different yearbook was conceived in the minds of each staff member. Together the staff has synthesized the best of their ideas. The veterans, Tina and R. J. withheld past Aerie tradition while Iris and Mrs. Ruyle brought on a new wave of creativity. The result is a perfect blend of imagination and experience. Congratulations Aerie '87. Here is the finished product!

Hanns Lee

Stylin'! Betcha you were pleasantly surprised when you received your edition of Aerie '87. Let me tell you why. No holds barred, this year's staff broke all the barriers and created a fresh, new, clean style. With the posh leather binding, magnificent photography, intellectual copy, and an organized continuity, Aerie '87 captures the essence of the school year and delivers it in splendid artistic package entitled *Gold*. However, don't be deceived by the simple beauty of our accomplishment. Deadlines, hard work, stress, and pressure were commonalities to our diligent staff, but this was also accompanied by the opposite side of the spectrum. We had plenty of laughs, pizza parties, hot chocolate and donut mornings, secret pals, cooperation and encouragement to share. In the end the positives and the negatives neutralized bringing out the best yet. *Gold* is our pride and joy. We hope you cherish and enjoy it as much as we do. Mrs. Ruyle, you are a superb master of organizational technique. Tina Fay, R. J., and Hanns, we did it as a team. Congratulations Aerie '87 — truly a staff with class!

Golden Links

Farewell

We are thankful for these young people who have journeyed with us, who have shared their thoughts and gifts with us. Our souls have sung and danced together. We have been blessed by their presence, their innocence and strength. We have been nourished by the fruits of their wisdom and their friendship. We pray that we have taught them by example to be seekers of truth, believers of justice, lovers of mankind, ministers of compassion. We have been told that like a chain we are as weak as our weakest link. This is but half the truth. We are also as strong as our strongest link. As we look at these links, the class of 1987, we know that we are a strong chain indeed.

As they embark on the next phase of their archetypal voyage, may they continue to be pure of heart, strong of mind, bold of convictions.

Graduates, we your teachers, bid you not farewell, but fare forward, pilgrims. "If in the twilight of memory we should meet once more, we shall speak again together and you shall sing to us a deeper song. And if our hands should meet in another dream, we shall build another tower in the sky." (Kahlil Gibrahn).

As many branches on the same mystical vine, may we all be blessed with the peace which passeth understanding.

Hey geek! How goes it? It goes fine for me. Anyways, it's been great knowing you-not that it isn't anymore-I'm saying it <u>is</u> still great knowing you. Honors block has been a blast. No I'm not being sarcastic. Seriously-where else can you watch Gandhi for four days-and be able to sleep thru it all??? Hey and how about them Speaker's corners? "yes-I think it's better for you not to wear seat belts." Where did I hear that before?? Ouch-my hand hurts. School's been a real drag-but of course you make it go by so fast!! woe. Can you handle, we're gonna be juniors?! You can give me rides to places, kay?! DO it or die!! Anyways-I just wanted to wish you happy partying for summer '87. Give me a call and see if I have my license! Maybe I'll get it before you ☺.

Adios! Ciao! Bye! Bye! Bye!!

89! ♥ always
